Grooming Productive Bonding Genetic Health Concerns Common to Shiba Inu The Aging Shiba Inu The Shiba Inu was made a Japanese national treasure during the 1930s and for very good reasons With a fox like appearance this breed is also the most easily recognizable of the six dog breeds indigenous to Japan These adorable little dogs are full of energy and intellect that will keep you both entertained and on your toes When it comes to people Shiba Inu are incredibly affectionate and charming but don't expect that to translate into easy training They can be quite headstrong if you don't take a firm and consistent approach to training them They can also be very vocal so you will need to plan to train a puppy to be quiet They have an average life expectancy of between 12 and 16 years so bringing one of these little guys into your home is likely to give you a long term companion that can entertain you and may demand a bit of entertainment in return It is hard to imagine that these sturdy affectionate dogs were once on the brink of extinction Over the last 60 years they have become an extremely popular breed because of the combination of easy care adorable appearance and charming personality **You**
