Verdolin,2017-05-02 When it comes to family matters do humans know best Leading animal behaviorist Dr Jennifer Verdolin argues otherwise in this eye opening book Welcome to the wild world of raising a family in the animal kingdom sometimes shocking often ingenious Every species can surprise us Chimps have a knack for minimizing temper tantrums and owl chicks have a remarkable gift for sharing A prairie vole knows exactly when his stressed out partner needs a massage And anyone who considers reptiles cold blooded should consider the caecilian a snakelike animal from Kenya After laying eggs the mother grows a fatty layer of skin which her babies eat after hatching not one of the book s many lessons from the wild to be tried at home Along the way Verdolin challenges our often counterproductive beliefs about what families ought to be like and how we should feel By finding common ground with our furry feathered and even slimy cousins we can gain new insight on what natural parenting really means and perhaps do a better job of forgiving ourselves for those days when we re only human

Arid Anne Joyce,2021-11-05 This is a must read novel for anyone who enjoys a good post apocalyptic story Author Anthony Avina It s the distant future The earth is scourged by nuclear warfare and natural resources have become scarce The country is overtaken by wealthy moguls who dominate the water supply and sell it back to the public at ridiculous prices After a drastic crime increase indigents who can t afford water are stripped of their belongings and forced out of town by an army of brutes called Purifiers Life becomes harsh and ominous for the bright ambitious Joshua Wyman and his group until they begin to occasionally receive food and other basic amenities after Joshua is deemed useful When a blatant abuse of Purifier power during a routine visit leaves them reeling Joshua and his friends reach their breaking point They devise a plan to steal the Purifiers vehicle during their next visit and escape their hell Their journey across the uncharted wastelands filled with murderers and thieves proves to be far more than this civilized benevolent crew bargained for This tense divided city will soon face its greatest fear uprising Places in the Woods , **The Secret of Meadowbrook Orphanage** D. C.

Johnson,Ron Rowan,2012-05 It is said that love is the greatest gift of all but in reality there are two greatest gifts One is love that much we already know to be true However the second greatest gift is that of being a child for it is only as a child that one knows how to truly believe And it is this simple act of believing that has its own special kind of magic as you will see in this story When a child believes there is an energy that feeds everything and everyone around them It feeds even those magical beings who most adults can no longer see nor will they ever see again because they no longer know how to see that which they stopped believing in Sadly enough there are even some children who stop believing Sometimes it takes the energy

of other children to awaken their beliefs again and that is also the case in this story So I invite you to reconnect to the magic that each of us once had the magic that children always hold and the magic that will bring you to a place where everything is possible All you have to do is believe
