Literature Search National Library of Medicine (U.S.),1977 *On the Movement of Animals* Giovanni A. Borelli,2012-12-06 De Motu animalium is sometimes referred to in the medical literature But who has read it The book originally published in Latin seemingly constitutes the very first treatise on biomechanics The author Giovanni Alfonso Borelli 1608 1679 was professor of mathematics and physics in Pisa where he worked with Malpighi who was professor of theoretical medicine and focused Borelli s interest on the movements of living creatures This was the time of Galileo Descartes Newton and many others when sciences exploded sometimes leading to conflicts with religious authorities De Motu animalium Borelli s life work has two parts In the first part he analyses the action of the muscles the movements of the limbs and motions of man and animals including skating running jumping swimming and flying The second part deals with what is now called physiology considered from the point of view of a mechanist heart beat blood circulation breathing separation of urine from the blood in the kidneys liver function reproduction fatigue thirst hunger fever and so on This work shows Borelli to be a genial precursor He expresses his opinion as a mathematician on problems which afterwards further stimulated the curiosity and endeavours of many generations of researchers This book will be welcomed by anybody who is

interested in the working of living bodies and in the history of human knowledge Effect of Ultraviolet-B on Plants Susan Whitmore,1991 **Quick Bibliography Series** ,1976 *Architects' Data* Ernst Neufert,Peter Neufert,2012-03-26 Neufert's Architects Data is an essential reference for the initial design and planning of a building project It provides in one concise volume the core information needed to form the framework for the more detailed design and planning of any building project Organised largely by building type it covers the full range of preliminary considerations and with over 6200 diagrams it provides a mass of data on spatial requirements Most illustrations are dimensioned and each building type includes plans sections site layouts and design details An extensive bibliography and a detailed set of metric imperial conversion tables are included Since it was first published in Germany in 1936 Ernst Neufert's handbook has been progressively revised and updated through 39 editions and many translations This fourth English language edition is translated from the 39th German edition and represents a major new edition for an international English speaking readership Reviews of the Previous Edition Neufert's Architects Data was the first book I bought when I started my studies in architecture It was invaluable for me then and it is still a useful aid in my designs Cesar Pelli With this thorough rewrite Neufert has produced yet again an invaluable reference book The Architects Journal *Animal Welfare Legislation and Regulations* Cynthia Petrie Smith,1992

International Law: New Actors, New Concepts - Continuing Dilemmas Budislav Vukas,Trpimir Sosic,2010-04-06 The Liber Amicorum is published on the occasion of the retirement of Professor Bo idar Bakoti from the University of Zagreb Faculty of Law after an impressive career that started in 1961 His colleagues and former students have contributed to this collection of essays dealing with a variety of topics in the fields of international law which Professor Bakoti himself has been most active in Therefore the majority of essays deal with the subjects of international law the various international r gimes of spaces the international protection of human rights and humanitarian law the settlement of international disputes and the law of armed conflicts Notwithstanding the specific international developments over the last twenty years in the geographic area where Professor Bakoti has served Southeastern Europe all the authors of the contributions to this Liber Amicorum have dealt with their topics at the level of general international law The book comprises 32 essays from scholars who had close relations with Professor Bakoti in the course of his career at the Zagreb Faculty of Law in various other law schools and international organisations in the International Law Association in the Croatian Ministry of Foreign Affairs and its Diplomatic Academy The majority of essays are in English and six are in French **Agriculture Handbook** ,1949 Set includes revised editions of some issues **Planning and Designing Research Animal Facilities** Jack Hessler,Noel Lehner,2011-04-28 Research institutions have or are planning to build expand and renovate animal research facilities to keep up with the demands of biomedical research caused in part by growth in the use of genetically altered rodents and the upsurge of research in infectious diseases Properly designed facilities greatly facilitate effective management and high quality day to day animal care that is required to optimally support animal research and testing There are multiple solutions to address the

myriad of factors that influence the design and construction of animal research facilities There is no best design applicable for all facilities and arguably not even a single best design for a given facility For this reason Planning and Designing Research Animal Facilities is not intended to be a how to book The goal is to cover the basic programmatic requirements of animal research facilities provide ideas for meeting those requirements while hopefully stimulating the creative process in which designers in consultation with those who work in animal research facilities generate even better ideas That is how progress has been made and will continue to be made Facilitates communication between the parties involved in planning and designing animal facilities by providing contemporary information and stimulating creativity that will help lead to wise decisions and advance the knowledge base for planning design and constructing animal research facilities
