Animals in the Sociologies of Westermarck and Durkheim Salla Tuomivaara, 2019-09-04. This book explores why animals at some point disappeared from the realm and scope of sociology. The role of sociology in the construction of a science of the human has been substantial, building representations of the human sphere of life as unique. Within the sociological tradition, however, animals have often been invisible, even non-existent. Through in-depth comparisons of the texts of prominent early sociologists Emile Durkheim and Edward Westermarck, Tuomivaara shows that despite this exclusion, representations of animals and human-animal relations were far more varied in early works than in the later sociological canon. Addressing a significant gap in the interdisciplinary field of animal studies, Tuomivaara presents a close reading of the historical treatment of animals in the works of Durkheim and Westermarck to determine how the human-animal boundary was established in sociological theory. The diverse forms in which animals and the animal appear in the works of early classical sociology are charted and explored alongside the sociological themes that bring animals into these texts. Situated in contemporary theory, from critical animal studies to posthumanism, this important book lays the groundwork for a disciplinary shift away from this sharp human-animal dualism.

Studies in Women Writers in English Rama Kundu, 2007. The New Series Studies in Women Writers in English is a grateful acknowledgment of the contribution and public recognition of the emerging voice of women in the arena of literature during the last few centuries and especially in the latter half of the twentieth century. Women writers across the globe have made their distinctive mark with their own perception of life, be it feminine or feminist or female. The critique of work by women writers introduced in the present volume, the sixth in the series, bears evidence to the growing critical attention towards authors writing outside the mainstream in America, Canada, and especially in India, who can be seen sharing similar awareness and feelings regarding the woman's angst and aspirations. Since most of the authors discussed in these articles are prescribed in the English syllabus in the universities of India, both the teachers and the students will find them extremely useful. And the general readers who are interested in literature in English and/or women writers will also find them intellectually stimulating.
