A Companion to Medieval Art Conrad Rudolph, 2019-05-07 A fully updated and comprehensive companion to Romanesque and Gothic art history. This definitive reference brings together cutting edge scholarship devoted to the Romanesque and Gothic traditions in Northern Europe and provides a clear analytical survey of what is happening in this major area of Western art history. The volume comprises original theoretical, historical, and historiographic essays written by renowned and emergent scholars who discuss the vibrancy of medieval art from both thematic and sub-disciplinary perspectives. Part of the Blackwell Companions to Art History. **A Companion to Medieval Art** Second Edition features an international and ambitious range of contributions covering reception, formalism, Gregory the Great, pilgrimage, art, gender, patronage, marginalized images, the concept of spolia, manuscript illumination, stained glass, Cistercian architecture, art of the crusader states, and more. Newly revised edition of a highly successful companion including 11 new articles. Comprehensive coverage ranging from vision, materiality, and the artist through to architecture, sculpture, and painting. Contains full color illustrations throughout plus notes on the book's many distinguished contributors. **A Companion to Medieval Art: Romanesque and Gothic in Northern Europe** Second Edition is an exciting and varied study that provides essential reading for students and teachers of Medieval art. **Maps and**

Monsters in Medieval England Asa Simon Mittman, 2013-09-13 This study centers on issues of marginality and monstrosity in medieval England. In the middle ages, geography was viewed as divinely ordered, so Britain's location at the periphery of the inhabitable world caused anxiety among its inhabitants. Far from the world's holy center, the geographic margins were considered monstrous. Medieval geography, for centuries scorned as crude, is now the subject of several careful studies. Monsters have likewise been the subject of recent attention in the growing field of monster studies, though few works situate these creatures firmly in their specific historical contexts. This book sits at the crossroads of these two discourses: geography and monstrosity, treated separately in the established scholarship but inseparable in the minds of medieval authors and artists.

Opening Up Middle English Manuscripts Kathryn Kerby-Fulton, Maidie Hilmo, Linda Olson, 2024-05-15 Deeply informed and lavishly illustrated, *Opening Up Middle English Manuscripts* is a comprehensive introduction to the modern study of Middle English manuscripts. It is intended for students and scholars who are familiar with some of the major Middle English literary works such as *The Canterbury Tales*, *Gawain and the Green Knight*, *Piers Plowman*, and the romances, mystical works, or cycle plays but who may not know much about the surviving manuscripts. The book approaches these texts in a way that takes into account the whole manuscript or codex: its textual and visual contents, physical state, readership, and cultural history. *Opening Up Middle English Manuscripts* also explores the function of illustrations in fashioning audience response to

particular authors and their texts over the course of the fourteenth and fifteenth centuries Kathryn Kerby Fulton Linda Olson and Maidie Hilmo scholars at the forefront of the modern study of Middle English manuscripts focus on the writers most often taught in Middle English courses including Geoffrey Chaucer William Langland the Gawain Poet Thomas Hoccleve Julian of Norwich and Margery Kempe highlighting the specific issues that shaped literary production in late medieval England Among the topics they address are the rise of the English language literacy social conditions of authorship early instances of the Alliterative Revival women and book production nuns libraries patronage household books religious and political trends and attempts at revisionism and censorship As of 2024 Opening Up Middle English Manuscripts is available as an ebook ideal for instructors teaching the book in courses The fully searchable PDF ebook version is available through most digital textbook platforms and library ebook aggregaton platforms

Companion to Empire David Rojinsky,2010 This volume traces a genealogy of the varied conceptions and functions of alphabetic writing in Hispanic cultures of the pre modern and early colonial periods The historical junctures selected are those at which the written word in grammatical historical and legal discourse assumed increased ideological importance for bolstering different kinds of imperial power In effect Companion to Empire posits a constellation of historical scenarios rather than a singular mythical origin in which the alliance between writing and imperium might be discerned The corpus of primary texts considered in the volume derives from works by foundational figures in the history of pre modern language theories Isidore of Seville Alfonso X the Wise Antonio de Nebrija and from those identified with the early transatlantic expansion of alphabetic writing Peter Martyr D Anghiera Bernardino de Sahag n Nu o Beltr n de Guzm n By reading these canonical texts against the grain the author avoids the totalizing gesture of histories of the language and instead focuses upon the relationship between prestige written languages the creation of a literate mentality and the need to consolidate imperium on both sides of the Atlantic Companion to Empire will thus be of interest to those adopting a post philological approach to Hispanic Studies as well as those interested in medieval and transatlantic imperium studies

Illuminating the Word in the Early Middle Ages Lawrence Nees,2023-10-05 This richly illustrated study addresses the essential first steps in the development of the new phenomenon of the illuminated book which innovatively introduced colourful large letters and ornamental frames as guides for the reader s access to the text Tracing their surprising origins within late Roman reading practices Lawrence Nees shows how these decorative features stand as ancestors to features of printed and electronic books we take for granted today including font choice word spacing punctuation and sentence capitalisation Two hundred photographs nearly all in colour illustrate and document the decisive change in design from ancient to medieval books Featuring an extended discussion of the importance of race and ethnicity in twentieth century historiography this book argues that the first steps in the development of this new style of book were taken on the European continent within classical practices of reading and writing and not as usually presented among the non Roman barbarians
