Anna Irving Stettner,1976 **Poetry Information** ,1976 **Black Nature** Camille T. Dungy,2009 Black Nature is the first anthology to focus on nature writing by African American poets a genre that until now has not commonly been counted as one in which African American poets have participated Black poets have a long tradition of incorporating treatments of the natural world into their work but it is often read as political historical or protest poetry anything but nature poetry This is particularly true when the definition of what constitutes nature writing is limited to work about the pastoral or the wild Camille T Dungy has selected 180 poems from 93 poets that provide unique perspectives on American social and literary history to broaden our concept of nature poetry and African American poetics This collection features major writers such as Phillis Wheatley Rita Dove Yusef Komunyakaa Gwendolyn Brooks Sterling Brown Robert Hayden Wanda Coleman Natasha Trethewey and Melvin B Tolson as well as newer talents such as Douglas Kearney Major Jackson and Janice Harrington Included are poets writing out of slavery Reconstruction the Harlem Renaissance the Black Arts Movement and late twentieth and early twenty first century African American poetic movements Black Nature brings to the fore a neglected and vital means of considering poetry by African Americans and nature related poetry as a whole A Friends Fund Publication
