AUDIO VERSION

184:1.1 (1978.4) Annas, enriched by the temple revenues, his son-in-law the acting high priest, and with his relations to the Roman authorities, was indeed the most powerful single individual in all Jewry. He was a suave and politic planner and plotter. He desired to direct the matter of disposing of Jesus; he feared to trust such an important undertaking wholly to his brusque and aggressive son-in-law. Annas wanted to make sure that the Master's trial was kept in the hands of the Sadducees; he feared the possible sympathy of some of the Pharisees, seeing that practically all of those members of the Sanhedrin who had espoused the cause of Jesus were Pharisees.

Audio Culture, Revised Edition Christoph Cox, Daniel Warner, 2017-07-27 The groundbreaking Audio Culture Readings in Modern Music Continuum September 2004 paperback original maps the aural and discursive terrain of vanguard music today Rather than offering a history of contemporary music Audio Culture traces the genealogy of current musical practices and theoretical concerns drawing lines of connection between recent musical production and earlier moments of sonic experimentation It aims to foreground the various rewirings of musical composition and performance that have taken place in the past few decades and to provide a critical and theoretical language for this new audio culture This new and expanded edition of the Audio Culture contains twenty five additional essays including four newly commissioned pieces Taken as a whole the book explores the interconnections among such forms as minimalism indeterminacy musique concrète free improvisation experimental music avant rock dub reggae ambient music hip hop and techno via writings by philosophers cultural theorists and composers Instead of focusing on some crossover between high art and popular culture Audio Culture takes all these musics as experimental practices on par with and linked to one another While cultural studies has tended to look at music primarily popular music from a sociological perspective the concern here is philosophical musical and historical Audio Culture includes writing by some of the most important musical thinkers of the past half century among them John Cage Brian Eno Ornette Coleman Pauline Oliveros Maryanne Amacher Glenn Gould Umberto Eco Jacques Attali Simon Reynolds Eliane Radigue David Toop John Zorn Karlheinz Stockhausen and many others Each essay has its own short introduction helping the reader to place the essay within musical historical and conceptual contexts and the volume concludes with a glossary a timeline and an extensive discography

Sound Mapping the New Testament, Second Edition Margaret E. Lee, Bernard Brandon Scott, 2022-08-22 In the ancient world writings were read aloud heard and remembered But modern exegesis assumes a silent text According to Margaret Lee Brandon Scott the disjuncture between ancient and modern approaches to literature obscures the beauty and

meaning in writings such as the New Testament Further the structure of an ancient Greek composition derives first from its sounds and not from the meaning of its words They argue that sound analysis analysis of the signifier and its audible dimension is crucial to interpretation Sound Mapping the New Testament explores writing technology in the Greco Roman world then turns to ancient Greek literary criticism for descriptions of grammar as a science of sound and literary composition as a woven fabric of speech Based on these perspectives and a close analysis of writings from the four gospels Paul and Q Sound Mapping the New Testament advances a theory of sound analysis that will enable modern readers to hear the New Testament afresh The second edition reprints the first edition with a new introduction that reviews a decade of sound mapping scholarship and argues for the continued necessity of sound mapping for New Testament interpretation
