New Directions in Jewish American and Holocaust Literatures Victoria Aarons, Holli Levitsky, 2019-02-28 Surveys the current state of Jewish American and Holocaust literatures as well as approaches to teaching them What does it mean to read and to teach Jewish American and Holocaust literatures in the early decades of the twenty first century New directions and new forms of expression have emerged both in the invention of narratives and in the methodologies and discursive approaches taken toward these texts The premise of this book is that despite moving farther away in time the Holocaust continues to shape and inform contemporary Jewish American writing Divided into analytical and pedagogical sections the chapters present a range of possibilities for thinking about these literatures Contributors address such genres as biography the graphic novel alternate history midrash poetry and third generation and hidden child Holocaust narratives Both canonical and contemporary authors are covered including Michael Chabon Nathan Englander Anne Frank Dara Horn Joe Kupert Philip Roth and William Styron The range of critical approaches and authors examined makes this a valuable resource for scholars and teachers Particularly in this troubling political moment meditations on the new and continued relevance of Jewish American and Holocaust literatures for scholars students and the American public in general are invaluable Sharon B Oster author of *No Place in Time The Hebraic Myth in Late Nineteenth Century American Literature*

The World of Anne Frank Betty Merti,1998 Make The Diary of Anne Frank personally compelling and instructive for your students This book brings the work to life by putting it in its historical context and providing relevant activities Each reading is supported by vocabulary comprehension discussion and writing activities You Shall Tell Your Children Liora Gubkin,2007-11-05 Passover is among the most widely observed holidays for American Jews During this festival of redemption Jewish families retell the biblical story of Exodus using a ritual book known as a haggadah often weaving modern tales of oppression through the biblical narrative References to the Holocaust are some of the most common additions to contemporary haggadot However the parallel between ancient and modern oppression which seems obvious to some raises troubling questions for many others Is it possible to find any redemptive meaning in the Nazi genocide Are we adding value to this unforgivable moment in history Liora Gubkin critiques commemorations that violate memory by erasing the value of everyday life that was lost and collapse the diversity of responses both during the Shoah and afterward She recounts oral testimonies from Holocaust survivors cites references to the holiday in popular American culture and analyzes examples of actual haggadot Ultimately Gubkin concludes that it is possible and important to make a space for Holocaust commemoration all the time recognizing that haggadot must be constantly revisited and performed **Holocaust Mothers and Daughters** Federica K. Clementi,2013-12-03 In this brave and original work Federica Clementi focuses on the mother daughter bond as depicted in six works by women who experienced the Holocaust sometimes with their mothers sometimes not The daughters memoirs which record the all too human qualities of those who were persecuted and murdered by the Nazis show that the Holocaust cannot be used to neatly segregate lives into the categories of before and after Clementi s discussions of differences in social status along with the persistence of antisemitism and patriarchal structures support this point strongly demonstrating the tenacity of trauma individual familial and collective among Jews in twentieth century Europe **The Holocaust** David M. Crowe,2021-12-30 Now in its second edition this book takes a fresh probing look at one of the greatest human tragedies in modern history Beginning with a detailed overview of the history of the Jews and their two millennia old struggle with the anti Judaic and anti Semitic prejudice and discrimination that set the stage for the Holocaust David M Crowe discusses the evolution of Nazi racial policies beginning with the development of Adolf Hitler s anti Semitic ideas their importance to the Nazi movement in the 1920s and 1930s and their expanding role in the evolution of German policies leading to the Final Solution in 1941 the mass murder of Jews throughout Nazi occupied Europe The German program involved the creation of death camps like Auschwitz and Treblinka and mass murder sites throughout Eastern Europe and the Soviet Union While the Jews were the principal victims other groups who were deemed racial or biological threats to Hitler s goal of creating an Aryan pure Europe were also targeted including the Roma and the handicapped This book discusses Nazi

policies in each country in German occupied Europe as well as the role of Europe's neutrals in the larger German scheme of things. It also takes an in-depth look at liberation, Displaced Persons, the founding of Israel, and efforts throughout the western world to bring Nazi war criminals and their collaborators to justice. This second edition includes a new chapter on the importance of memory and the Holocaust, the evolution of interpretative Holocaust scholarship, and media, recent controversies about national responsibility, and the work of Holocaust museums, archives, and libraries in Israel, Germany, Poland, and the United States to promote Holocaust education and memory. It concludes with the rise of Neo Nazism, white nationalism, and other movements in Germany and the United States and their relationship to questions about Holocaust memory and its lessons. Comprehensive and offering a detailed historical perspective, this is the perfect resource for those looking to gain a deep understanding of this tragedy.

War and Militarism in Modern Japan Guy Podoler, 2009-08-01 A considerable amount of writing has been published on Japan at war in the Second World War, and more recently scholars have been revisiting the Russo-Japanese War of 1904-5, whereas this volume strives to examine Japan's twentieth-century approach to war and militarism in a wider perspective, bringing hitherto unexamined new themes and subject matter under scrutiny up to the present day. Among the topics covered are the February 26 Incident, Theatre and Film, Ethnicity and Gender in Wartime Japan, Revue, Theatre, Military Festivals, and the Japanese Self-Defence Forces. Major Trends in Japanese Treatment of POWs in Modern Times and Japan's Tug of War after the Russian War. Published to mark the distinguished academic career of Ben-Ami Shillony, who retired in 2006, this volume also offers valuable new insights into the theme of the Japanese and the Jews, including the Story and Myth of Anne Frank, and Sadako Sasaki, the involvement of Jewish scientists in the making of the atomic bomb, and Japan's Jewish Policy in the late 1930s.

Experience and Expression Elizabeth Roberts Baer, Myrna Goldenberg, 2003 Publisher's description The many powerful accounts of the Holocaust have given rise to women's voices, and yet few researchers have analyzed these perspectives to learn what the horrifying events meant for women in particular, and how they related to them. In *Experience and Expression*, the authors take on this challenge, providing the first book-length gendered analysis of women and the Holocaust, a topic that is emerging as a new field of inquiry in its own right. The collection explores an array of fascinating topics: rescue and resistance, the treatment of Roma and Sinti women, the fate of female forced laborers, Holocaust politics, nurses at so-called euthanasia centers, women's experiences of food and hunger in the camps, the uses and abuses of Anne Frank, and the representations of the Holocaust in art, film, and literature in the postwar era.

technology in utopian literature it provides an examination of how foetal scanning alters the gendered memories of the human being Reading draws on original research on women s use of mobile phones to capture and share personal and family memories as well as analysing changes to journalism and gendered memories focusing on the mobile witnessing of terrorism and state terror The book concludes with a critical reflection on Anna Reading s work as a playwright mobilising feminist memories as part of a digital theatre project Phenomenal Women with Fuel Theatre which created live and digital memories of inspirational women The book explains in depth Reading s original concept of digitised and globalised memory global memory and suggests how the scholar may use mobile methodologies to understand how memories travel and change in the global age
