Feminist Literary Criticism Josephine C. Donovan, 2021-03-17

The first major book of feminist critical theory published in the United States is now available in an expanded second edition. This widely cited pioneering work presents a new introduction by the editor and a new bibliography of feminist critical theory from the last decade. This book has become indispensable to an understanding of feminist theory. Contributors include Cheri Register, Dorin Schumacher, Marcia Holly, Barbara Currier, Bell Carol Ohmann, Carolyn Heilbrun, Catherine Stimpson, and Barbara A. White.

Bibliography in Literature, Folklore, Language and Linguistics David William Foster, James R. Kelly, 2003-02-11 While the academic world devoted to literary study has been absorbed with new and distinct forms of literary criticism, bibliography has received scant attention much less than in former times when it was understood as more than just an aid to research. Enormous changes have taken place in enumerative bibliography over the past thirty years especially with the widespread use of computers but these changes have gone unrecognized as bibliography has gone unappreciated. This work is a collection of essays concentrating exclusively on bibliography and its uses in the academic world especially in literature, folklore, language and linguistics. The book begins with a discussion of what bibliography is, what it does and how to create the optimum bibliography. Other subjects include bibliography and postcolonialism, critical theory and bibliography in cross disciplinary environments, issues and problems with tools for feminist and women's studies scholars in literature, strategies for the incorporation of pluridisciplinary work, bibliographical databases and databased bibliographies and ideas for the future of the MLA International Bibliography.

Criticism and Literary Theory 1890 to the Present

Chris Baldick, 2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories. Special attention is given to new perspectives on Shakespearean criticism, theories of the novel and models of the literary canon. The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T. S. Eliot and F. R. Leavis to minor but fascinating figures and critical schools. Unlike most guides to modern literary theory, its focus is firmly on developments within the English speaking world.

Through her bunch of wonderful novels Shashi Deshpande aims to highlight that everyone in this society should be treated as equals as human beings there should not be any compartmentalization on the basis of gender Women should be given equal opportunity and weightage at par with men This is possible only when women are independent in truest sense and they hold self reliance and self esteem As a writer of human beings in general and women in particular Shashi Deshpande has wonderfully considered all these aspects in her writings with her ingenious narrative skill and creative spirit This book has attempted to explore the journey of Deshpande's protagonists in quest of an exclusive identity which has the essence of individuality and self confidence and which make them stand apart from the stereotypical tags given by traditional patriarchal society Amidst hindrances and oppressions of various kinds how Deshpande's women characters come out of their shell to carve a niche for themselves by utilizing their potential and willpower has formed the crux of the book Comprehensive and analytical in nature the present book would prove an asset to students of English literature
