Protocol on Climate Change in which he argued that solving the climate change problem will demand four steps: scientific consensus, public awareness, the development of alternative technologies, and a global framework for action. He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol. Professor Sachs argued that climate change crises can only be solved through the goals, leadership, and treaty mechanisms of the UN.

Edward C. Luck ARUNA 2006 2007 edition Professor Edward C. Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy. From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA.

UNA USA Professor Luck's introduction to ARUNA 2006 2007 covered 'The responsible sovereign and the responsibility to protect' in which he addressed the scope and content of what was agreed at the 2005 World Summit, the implications of the responsibility to protect (RtoP) for notions of state sovereignty, and some of the conceptual, architectural, and policy challenges then facing UN Secretary General Ban Ki-moon's commitment to operationalizing the responsibility to protect and translating it from words to deeds.

Louise Frechette ARUNA 2005 2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation, Waterloo, Ontario. Until March 2006 she was the first Deputy Secretary General of the UN; before that she was Permanent Representative of Canada to the UN.

Ms Frechette's introduction to ARUNA 2005 2006 covered 'United Nations reform: an unfinished story'. As the first Deputy Secretary General of the UN, Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN, and why. She examined if the UN is functioning better than it was 15 years ago, why reform is so difficult to achieve, and what the future holds for the institutions.

Rubens Ricupero ARUNA 2004 2005 edition Mr Rubens Ricupero is Dean of the Fundação Armando Álvares Penteado (FAAP), São Paulo, and was formerly Secretary General of UN Conference on Trade and Development (UNCTAD) and Minister of Finance of Brazil.

Mr Ricupero's introduction to ARUNA 2004 2005 covered 'The difficulty of building consensus in an age of extremes' and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit. Rather than a 'Grand Bargain' of a comprehensive UN reform in the areas of development, security, and human rights, it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity.

Mr Ricupero concludes that, contrary to the daring proclamation at the outset by the Secretary General, the conditions indispensable to succeed were not in place. Indeed, it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding.
