Annual Hop London To Kent:

The Annual Hop Hilary Heffernan, 1996 This fascinating collection of over 200 old photographs illustrates in heart warming detail the traditional working holiday of London EastEnders which was known affectionately as the Annual Hop As a welcome escape from the poor working and living conditions of the city the annual trip to Kent was for many families an important event It was a chance to earn some extra money in the hop gardens but was also a community event to be enjoyed for its opportunity to breathe country air and share open space for a while with friends and neighbours The work was hard especially in the extremes of weather but most of those who went hopping remember those times fondly The early part of the book sets the scene by showing examples of the working and living conditions that were typical of some parts of inner London in the first half of the century The stark contrast between these views and those taken in the fields of Kent in summer illustrates clearly why the Annual Hop was such an attractive prospect The author has collected the stories of Hoppers from London and across Kent and has borrowed photographs from family albums as she travelled The unique collection she has assembled forms a timely record of a traditional way of life that is gone forever This intimate record of the hop picking tradition will appeal to all ex Hoppers and anyone who would like to see and hear more of this once important annual event

Hoptopia Peter A. Kopp, 2016-09-06 Hoptopia argues that the current revolution in craft beer is the product of a complex global history that converged in the hop fields of Oregon's Willamette Valley What spawned from an ideal environment and the ability of regional farmers to grow the crop rapidly transformed into something far greater because Oregon farmers depended on the importation of rootstock knowledge technology and goods not only from Europe and the Eastern United States but also from Asia Latin America and Australasia They also relied upon a seasonal labor supply of people from all of these areas as a supplement to local Euroamerican and indigenous communities to harvest their crops In turn Oregon hop farmers reciprocated in exchanges of plants and ideas with growers and scientists around the world and of course sent their cured hops into the global marketplace These global exchanges occurred not only during Oregon's golden era of hop growing in the late nineteenth and early twentieth centuries but through to the present in the midst of the craft beer revival The title of this book Hoptopia is a nod to Portland's title of Beervana and the Willamette Valley's claim as an agricultural Eden from the mid nineteenth century onward But the story is fundamentally about how seemingly niche agricultural regions do not exist and have never existed independently of the flow of people ideas goods and biology from other parts of the world To define Hoptopia is to define the Willamette Valley's hop and beer industries as the culmination of all of this local and global history With the hop itself as a central character this book aims to connect twenty first century consumers to agricultural lands and histories that have been forgotten in an era of industrial food production Provided by publisher **Workers'**

Dilemmas Margaret Grieco, 2022-08-24 Originally published in 1996 Workers Dilemmas analyses the management skills of those with least resources the women of the urban poor and finds that there is an abundance of evidence on the high levels of

managerial competence within this group It is information which has largely been hidden from history This study of poor women s involvement in the world of work corrects this missing record For over a century 1850 1960s women and children travelled from their urban homes in the East End of London to work in the hop picking fields of Kent and Hampshire The scale of the annual migration and the complexity of neighbourhood and household organization it required to provide this volume of labour have escaped the literature Drawing on a variety of historical records and on oral history this book explores the high level of management and occupational skills possessed by the urban poor in their construction of household survival strategies Above all this book highlights the key entrepreneurial role played by women in this labour market and the importance of the financial support provided by this regular seasonal labour for household survival Workers Dilemmas provides a fresh look at how work patterns family structure and community networks interrelate and in the process challenges accepted ideas in the wider fields of anthropology and the sociology of work

The Luggage Lifter Terence Connor,2023-06-23 Meet Harold a young man who occupies a room in a bleak tenement in the edgy Blitz damaged East End Harold s good humour and air of optimism belie the unfortunate circumstances which blighted his childhood left him orphaned and shaped his view of the world An intelligent resourceful and amiable character operating around the London hotels and railway stations he turns luggage lifting into an art form When he discovers a stash of letters in a leather steamer an act of kindness sets off a chain of events which gathers its own momentum and leads to romance But the escalation in his criminal activities together with the finding of a large haul of used banknotes can only spell trouble The attention of the police and the menace of the Moretti brothers who claim the money coincide and arrest seems a safer outcome for Harold He survives a prison term but soon learns that shaking off his unresolved past is more difficult especially when trying to do the right thing leads to complications in his love life Just when a sense of well being beckons matters spiral out of control and push Harold to the brink

On Foot to Canterbury Ken Haigh,2021-09-16 Setting off on foot from Winchester Ken Haigh hikes across southern England retracing one of the traditional routes that medieval pilgrims followed to the shrine of Saint Thomas Becket at Canterbury Cathedral Walking in honour of his father a staunch Anglican who passed away before they could begin their trip together Haigh wonders Is there a place in the modern secular world for pilgrimage On his journey he sorts through his own spiritual aimlessness while crossing paths with writers like Anthony Trollope John Keats Jane Austen Jonathan Swift Charles Dickens and of course Geoffrey Chaucer Part travelogue part memoir and part literary history On Foot to Canterbury is engaging and delightful My father didn t need this walk not the way I do For him it would have been a fun way to spend some time with his son He had I begin to realize a talent for living in the moment Perhaps a pilgrimage would help me find happiness Perhaps I could walk my way into a better frame of mind and somehow along the road to Canterbury I would find a new purpose for my life It was worth a shot Audio edition

Working-class Housing in England Between the Wars Andrzej Olechnowicz, 1997 This book presents an important episode in the twentieth century history of the United Kingdom the largest public housing scheme ever undertaken in Britain and at the time of its planning in the world Built between 1921 and 1934 the London County Council's Becontree Estate housed over 110 000 people in 25 000 dwellings Andrzej Olechnowicz discusses the early years of the estate looking in detail at the philosophy behind its construction and management policies and showing how it eventually came to be denigrated as a social concentration camp exemplifying all the political dangers of a mass culture He investigates life on the estate both through an appraisal of the facilities provided and as far as possible through the eyes of the inhabitants using interviews with surviving tenants from the inter war period Thus he is able to show how high rents excluded many families in greatest housing need and how tenants found it difficult to adjust to the costs of suburban living This is a wide ranging study that deals with both the nuts and bolts of mass housing with ideas on citizenship and the creation of communities The Great Alliance Jim Phillips, 1996 Reappraising the character of Britain's most successful Labour government the author provides a study of the Great Alliance between the Labour Party and the trade unions during the post war period It reveals that the failure of Attlee's government to support the demands of the workers for increased wages and work security in favour of the demands of the financial markets undermined the popularity of the Labour Party that had swept them to power in 1945

Women, Work And Sexual Politics In Eighteenth-Century England Bridget Hill, 2005-08-04 The author offers a reassessment of how women's experience of work in 18th century England was affected by industrialization and other elements of economic social and technological change This study focuses on the household the most important unit of production in the 18th century Hill examines the work done by the women of the household not only in housework but also in agriculture and manufacturing and explains what women lost as the household's independence as a unit of economic production was undermined Considering the whole range of activities in which women were involved including many occupations unrecorded in censuses which have therefore been largely ignored by historians Hill charts the increasing sexual division of labour and highlights its implications She also discusses the role of service in husbandry and apprenticeship as sources of training for women and the consequences of their decline The final part of the book considers how the changing

nature of women's work influenced courtship marriage and relations between the sexes Among the topics discussed are the importance of the women's contribution to setting up and maintaining a household labouring women's attitudes to marriage and divorce and the customary alternatives to them and the role of spinsters and widows The author concludes by asking to what extent the industrial revolution improved the overall position of women and the opportunities open to them This series aims to re-establish women's history and to challenge the assumptions of much mainstream history Focusing on the modern period and encouraging perspectives from other disciplines it seeks to concentrate upon areas of focal importance in the history of Britain and continental Europe Bridget Hill is the author of *Eighteenth Century Women An Anthology* and *The First English Feminist* *Mark Lane Express*, 1899 *London's East End* Jonathan Oates, 2018-05-30 The East End is one of the most famous parts of London and it has had its own distinctive identity since the district was first settled in medieval times It is best known for extremes of poverty and deprivation for strong political and social movements and for the extraordinary mix of immigrants who have shaped its history Jonathan Oates's handbook is the ideal guide to its complex rich and varied story and it is an essential source for anyone who wants to find out about an East End ancestor or carry out their own research into the area He outlines in vivid detail the development of the neighbourhoods that constitute the East End In a series of information filled chapters he explores East End industries and employment the docks warehouses factories markets and shops He looks at its historic poverty and describes how it gained a reputation for criminality partly because of notorious criminals like Jack the Ripper and the Krays This dark side to the history contrasts with the liveliness of the East End entertainments and the strong social bonds of the immigrants who made their home there Huguenots Jews Bangladeshis and many others Throughout the book details are given of the records that researchers can consult in order to delve into the history for themselves online sites archives libraries books and museums [Hansard's Parliamentary Debates](#) Great Britain.
