Bureau of the Census, 1958 *Monthly Catalogue, United States Public Documents* , 1930 Monthly Catalog of United States Government Publications United States. Superintendent of Documents, 1933 Congressional Record United States. Congress, 1930 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Tribal Names of the Americas** Patricia Roberts Clark, 2009-10-21 Scholars have long worked to identify the names of tribes and other groupings in the Americas a task made difficult by the sheer number of indigenous groups and the many names that have been passed down only through oral tradition This book is a compendium of tribal names in all their variants from North Central and South America collected from printed sources Because most of these original sources reproduced words that had been encountered only orally there is a great deal of variation Organized alphabetically this book collates these variations traces them to the spellings and forms that have become standardized and supplies see and see also references Each main entry includes tribal name the parent group or ancestral tribe original source for the tribal name and approximate location of the name in the original source material Report of the Secretary of the Smithsonian Institution Smithsonian Institution, 1927 **Report of the Secretary and the Financial Report of the Executive Committee of the Board of Regents** Smithsonian Institution, 1927 Naval Presence and the Interwar US Navy and Marine Corps Benjamin Armstrong, 2023-07-26 This book examines the US Navy and Marine Corps during the interwar years from a new perspective Rather than focusing on the technologies developed the wargames conducted or the results of the now famous Fleet Problems this work analyzes the global deployments of the rest of the US fleet By examining the annual reports of the Secretary of the Navy the Chief of Naval Operations and the Commandant of the Marine Corps over 20 years the book traces the US ships squadrons and fleets conducting naval diplomacy and humanitarian missions maritime security patrols and deployments for deterrent effect across the world s oceans Despite the common label of the interwar years as isolationist the deployments of the US Navy and Marine Corps in that period were anything but isolated The majority of the literature on the era has a narrow focus on preparation for combat and wartime which provides an incomplete

view of the history of US naval power and also establishes a misleading set of precedents and historical context for naval thinkers and strategists in the contemporary world Offering a wider and more complete understanding of the history of the U S Navy and Marine Corps from 1920 to 1939 this book demonstrates the tension between the execution of peacetime missions and the preparation for the next war while also offering a broader understanding of American naval forces and their role in American and global history This book will be of much interest to students of naval and military history sea power and International History

Register to the Papers of Frank Harold Hanna Roberts, Jr National Anthropological Archives,Janette Saquet,1983 Journal of Northwest Anthropology ,2007 *Zuni Origins* David A. Gregory,David R. Wilcox,2009-12-01 The Zuni are a Southwestern people whose origins have long intrigued anthropologists This volume presents fresh approaches to that question from both anthropological and traditional perspectives exploring the origins of the tribe and the influences that have affected their way of life Utilizing macro regional approaches it brings together many decades of research in the Zuni and Mogollon areas incorporating archaeological evidence environmental data and linguistic analyses to propose new links among early Southwestern peoples The findings reported here postulate the differentiation of the Zuni language at least 7 000 to 8 000 years ago following the initial peopling of the hemisphere and both formulate and test the hypothesis that many Mogollon populations were Zunian speakers Some of the contributions situate Zuni within the developmental context of Southwestern societies from Paleoindian to Mogollon Others test the Mogollon Zuni hypothesis by searching for contrasts between these and neighboring peoples and tracing these contrasts through macro regional analyses of environments sites pottery basketry and rock art Several studies of late prehistoric and protohistoric settlement systems in the Zuni area then express more cautious views on the Mogollon connection and present insights from Zuni traditional history and cultural geography Two internationally known scholars then critique the essays and the editors present a new research design for pursuing the question of Zuni origins By taking stock and synthesizing what is currently known about the origins of the Zuni language and the development of modern Zuni culture *Zuni Origins* is the only volume to address this subject with such a breadth of data and interpretations It will prove invaluable to archaeologists working throughout the North American Southwest as well as to others struggling with issues of ethnicity migration incipient agriculture and linguistic origins
