Fisher,2017-01-18 This edited volume presents selected papers capturing Herbert Kelman's unique and seminal contributions to the social psychology of conflict analysis and resolution with a special emphasis on the utility of concepts for understanding and constructively addressing violent and intractable conflicts Central concepts covered include perceptual processes basic human needs group and normative processes social identity and intergroup trust which form the basis for developing interactive methods of conflict resolution

Social Context and Cognitive Performance

Pascal Huguet,Jean-Marc Monteil,2013-05-24 Based on twenty years of research on the social regulation of academic performances this book offers theoretical and empirical arguments in favour of the inclusion of the social dimension of human beings as essential for their cognitive activities We all engage in social interactions compare ourselves with other people belong to social groups and are the object of a myriad of categorisations Not only do such social experiences affect cognition but they actually determine its form and its content Several experiments indeed reveal that cognitive performance depends on the relationship between the individual and the social context in which cognition takes place And this relationship is not forged directly by features of the situation but rather by personal construals of these features most notably social comparison This fact alone justifies granting the individual's social experiences a psychological status and it further strengthens the key idea of this book namely that the social context only exists through the intervention of cognitive processes of contextualization producing a cognitive context of the self such as those involved in autobiographical memory A social psychology of cognition is suggested in which the fashionable distinction between cognition and social cognition makes no sense From this innovative perspective it is indeed more the social nature of the individual rather than that of the object to be processed that defines the social nature of cognition Well known phenomena such as social facilitation and social loafing as well as established educational practices are also re-examined from this perspective

The Oxford Handbook of Leadership Michael G. Rumsey,2013 This book both acknowledges the complexity emerging from the three main components of leadership the leader the led and the environment while providing a sound foundational structure in which the complexity of this area of study can be better understood

Social Psychology, Past and Present Jay M.

Jackson,2013-02-01 Providing a clearer understanding of contemporary issues through a broad historical perspective this scholarly overview unites the multidisciplinary roots of social psychology into one coherent book The author attempts to unite the works and theories of all social psychological subdivisions Clearly and concisely he presents readers with a history of social psychology using a minimum of technical jargon Rather than merely cataloging theories and works he provides an intellectual context for contemporary research practice and study

Scientific and Technical Aerospace Reports ,1978-04

The Theory of Reasoned Action Cynthia Gallois,Malcolm McCamish,Deborah J Terry,2015-04-27 The Theory of reasoned action explores the theory and empirical research into the factors which influence whether people engage in high

risk practices with specific reference to AIDS education Global and Multinational Advertising Basil G. Englis,2013-11-19 Few applied disciplines are more sensitive to cross cultural issues than marketing and consumer psychology The chapters prepared for this volume reflect awareness of both similarities and differences within and across cultures They include analyses of methodological issues theoretical investigations of cultural and social values and their implications for marketing specialists studies of gender and sub culture specific advertising and investigations of advertising efforts in several different international markets The scholars and advertising professionals who contributed these chapters will have much to say to consumer psychologists and marketing specialists alike **Methods of Assessing the Reinforcing Properties of Abused Drugs** Michael A. Bozarth,2012-12-06 Methods of Assessing the Reinforcing Properties of Abused Drugs presents a synopsis of the preclinical procedures used to assess drug reinforcement Researchers using one technique are provided with an overview of the other available methods and clinicians who wish to evaluate drug abuse research reports can gain the necessary background from this volume Although emphasis is placed on the methodological aspects of assessing drug reinforcement some of the scientific conclusions derived from using these techniques are also presented This edited collection offers a lasting framework for interpreting the results of current experimental findings Social Psychology Eliot R. Smith,Diane M. Mackie,Heather M. Claypool,2014-12-03 Using an engaging narrative this textbook demonstrates how social processes are inherently interconnected by uniquely applying underlying and unifying principles throughout the text With its comprehensive coverage of classic and contemporary research illustrated with real world examples from many disciplines including medicine law and education Social Psychology 4th Edition connects theory and application providing undergraduate students with a deeper and more holistic understanding of the factors that influence social behaviors New to the 4th Edition Each chapter now features 1 2 culture boxes focusing on cross cultural research on social psychological phenomena Each chapter now features 1 2 hot topic boxes where we highlight cutting edge and emerging findings Many references updated throughout with over 700 new references A more comprehensive and user friendly set of online supplementary resources will accompany the new edition New co author Heather Claypool of Miami University of Ohio Logical Learning Theory Joseph F. Rychlak,1994-01-01 In 1989 B F Skinner told Joseph Rychlak that the greatest disappointment resulting from the cognitive revolution was the turning of the human organism into a machine Intrigued by this statement Rychlak decided that after many years of formulation it was time to present his fundamentally teleological view of the human being which he calls the logical learning theory LLT In this new theoretical perspective the author re presents such concepts as intention purpose and free will Significant aspects of the mind body issue are explored here Rychlak addresses teleological issues and provides a language for proper conceptualization He uses experimental findings to support the notion of behavior as self directed rather than mechanistic In the process Rychlak places LLT on the side of teleological explanation in which concepts like free will self choice purpose and intention are no longer dismissed Rychlak

compares LLT and existing formulations of behavior including classical and operant conditioning social learning theory social constructionism cognitive science gestalt theories and personality theories Extensive research data and thorough discussions support Rychlak's theory A glossary is also included *Marital Interaction* John Mordechai Gottman, 2013-10-22 *Marital Interaction* Experimental Investigations deals with experimental studies on marital interaction Emphasis is on the importance of the role of description in the study of social interaction Methods for the analysis of pattern and sequence including cross spectral time series analysis are also presented Comprised of 15 chapters this book begins with a historical review of several research traditions that have concerned themselves with families and marriages the sociological tradition the family therapy or systems tradition the social learning tradition and the developmental tradition Research that points to the potential importance of the observation of consensual decision making processes is also reviewed A model of marital interaction called the Structural Model which can be used to predict changes in marital satisfaction is described Subsequent chapters focus on the Couples Interaction Scoring System an observational system for categorizing marital interaction modern concepts of the assessment of reliability particularly the stringent assessment that is necessary for sequential analysis differences between well functioning and poorly functioning marriages couples interactional styles in terms of communication skill deficits and the concept of an individual's social competence This monograph will be of interest to psychologists engaged in research on marriage as well as sociologists and clinical researchers **Perspectives on Cross-cultural Psychology** Anthony J. Marsella, Roland G. Tharp, Thomas J. Ciborowski, 1979 **Predicting and Changing Health Behaviour: Research and Practice with Social Cognition Models** Mark Conner, Paul Norman, 2015-05-16 This popular established text has been expanded to include the most up to date research on social cognition models and health behaviours This edition takes account of important developments in the field and features Three completely new chapters on Self determination Theory Prototype Willingness Model and Health Behaviour Change Techniques Updated work on the health belief model protection motivation theory social cognitive theory and the theory of planned behavior New models and greater focus on health behaviour change Providing the theoretical background and examples of how to apply the most common social cognition models to health behaviours this book thoroughly examines how to Assess the advantages and disadvantages of using each of these models Appropriately apply each model in practice Adequately analyze and report the results Apply the models to change health behaviour *Predicting and Changing Health Behaviour* boasts many of the leading names in the field and provides key reading for advanced undergraduate and postgraduate students health promoters health psychologists and others assessing health behaviour [Resources in Education](#), 1990 **Cultural Conceptions of Mental Health and Therapy** Anthony J. Marsella, G. White, 2012-12-06 Within the past two decades there has been an increased interest in the study of culture and mental health relationships This interest has extended across many academic and professional disciplines including anthropology psychology sociology psychiatry public health and social work and has resulted in many

books and scientific papers emphasizing the role of sociocultural factors in the etiology epidemiology manifestation and treatment of mental disorders It is now evident that sociocultural variables are inextricably linked to all aspects of both normal and abnormal human behavior But in spite of the massive accumulation of data regarding culture and mental health relationships sociocultural factors have still not been incorporated into existing biological and psychological perspectives on mental disorder and therapy Psychiatry the Western medical specialty concerned with mental disorders has for the most part continued to ignore socio cultural factors in its theoretical and applied approaches to the problem The major reason for this is psychiatry s continued commitment to a disease conception of mental disorder which assumes that mental disorders are largely biologically caused illnesses which are universally represented in etiology and manifestation Within this perspective mental disorders are regarded as caused by universal processes which lead to discrete and recognizable symptoms regardless of the culture in which they occur However this perspective is now the subject of growing criticism and debate
