Appraising Strict Liability:

Appraising Strict Liability A. P. Simester, 2005 This book of essays including Anglo American and European perspectives considers strict liability in criminal law that is the problem of criminal offences that allow a defendant to be convicted without proof of fault **A Modern Treatise on the Principle of Legality in Criminal Law** Gabriel Hallevy, 2010-09-09

Criminal Law Jonathan Herring, 2016 Jonathan Herring's unique and bestselling approach of separating out the doctrinal and theoretical aspects of the law alongside expertly selected extracts makes this book enduringly popular with students and teachers *Smith, Hogan, and Ormerod's Criminal Law* David Ormerod, Karl Laird, 2018 Smith Hogan Ormerod's Criminal

Law is rightly regarded as the leading doctrinal textbook on criminal law in England and Wales Published in its first edition over fifty years ago it continues to be a key text for undergraduates and an essential reference source for practitioners

presents a comparative examination of the issue of fault in criminal law Extant law reveals significant problems in adoption of consistent approaches to doctrinal and theoretical underpinnings of fault liability and culpability thresholds in criminal law This has been exemplified by a plethora of recent jurisprudential authorities revealing varying degrees of confusion and vacillation This collection focuses on fault liability for inculcation with contributions from leading specialists from different jurisdictions presenting alternative perspectives The book addresses three specific elements within the arena of fault

embracing an overarching synergy between them This structure facilitates an examination of UK provisions with specialist contributions on domestic law and in contrasting these provisions against alternative domestic jurisdictions as well as comparative contributions addressing a particularised research grid for content The comparative chapters provide a wider background of how other legal systems treat a variety of specialised issues relating to fault elements in the context of the criminal law With contributions from leading experts in the field the book will be an invaluable resource for researchers academics and practitioners working in this area

Husak, 2010 This volume collects 17 of Douglas Husak's influential essays in criminal law theory The essays span Husak's original and provocative contributions to the major topics in the field including the grounds of criminal liability the significance of culpability the role of defences and the justification of punishment The volume includes an extended introduction by the author drawing together the themes of his work and exploring the goals of criminal theory Together the essays present a desert based analysis of issues in criminal theory that rejects the consequentialist approach more familiar among legal scholars The foremost concern of these essays is to ensure that the principles and doctrines of the criminal law preserve justice and do not sacrifice individuals for the common welfare Engagingly written the essays are accessible to non specialists and represent an excellent introduction to current issues and debates in the theory of criminal law

The Matrix of Insanity in Modern Criminal Law Gabriel Hallevy, 2015-06-30 This book challenges the assumptions of modern criminal law that insanity is a natural legally and medically defined phenomenon covering a range of medical disorders By doing so it paves the way for a new perspective on insanity and can serve as the basis for a new approach to insanity in modern criminal law The book covers the following aspects the structure of the principle of fault in modern criminal law the development of the insanity defense in criminal law tangential in personam defenses in criminal law and their implications for insanity and the legal mechanism of reproduction of fault The focus is on the Anglo American and European Continental legal systems Given the attention consistently drawn by international and domestic events in this context the book will be of interest to a broad and growing international audience

Fundamentals of Criminal Law A. P. Simester, 2021 This book explores the philosophical underpinnings of the law's major doctrines concerning actus reus mens rea and defences showing that they are not always driven by culpability but are grounded also in principles of moral responsibility ascriptive responsibility and wrongdoing

Fair Opportunity and Responsibility David Owen Brink, 2021 Fair Opportunity and Responsibility lies at the intersection of moral psychology and criminal jurisprudence and analyzes responsibility and its relations to desert culpability excuse blame and punishment It links responsibility with the reactive attitudes but makes the justification of the reactive attitudes depend on a prior and independent conception of responsibility Responsibility and excuse are inversely related an agent is responsible for misconduct if and only if it is not excused As a result we can study responsibility by understanding excuses We excuse misconduct when an agent's capacities or opportunities are significantly impaired because

these capacities and opportunities are essential if agents are to have a fair opportunity to avoid wrongdoing This conception of excuse tells us that responsibility itself consists in agents having suitable cognitive and volitional capacities normative competence and a fair opportunity to exercise these capacities free from undue interference situational control Because our reactive attitudes and practices presuppose the fair opportunity conception of responsibility this supports a predominantly retributive conception of blame and punishment that treats culpable wrongdoing as the desert basis of blame and punishment We can then apply the fair opportunity framework to assessing responsibility and excuse in circumstances of structural injustice situational influences in ordinary circumstances and in wartime insanity and psychopathy immaturity addiction and crimes of passion Though fair opportunity has important implications for each issue treating them together allows us to explore common themes and appreciate the need to take partial responsibility and excuse seriously in our practices of blame and punishment *Smith, Hogan, and Ormerod's Essentials of Criminal Law* David Ormerod, John Child, 2023-07-12 *Smith Hogan Ormerod s Essentials of Criminal Law* takes students to the heart of this fascinating subject providing focused expert coverage alongside a wealth of student friendly learning features to aid study This is the perfect gateway into criminal law **Environmental Law** Stuart Bell, Donald McGillivray, Ole Pedersen, 2013-05-09 This edition includes material on environmentalism and the law international environmental law access to environmental justice noise pollution and new legislation on pollution prevention and new case law **Smith and Hogan's Criminal Law** David Ormerod, John Cyril Smith, Brian Hogan, 2011-07-28 *Criminal Law* is written with the needs of the student foremost in mind to provide more than ever as modern and as comprehensive an exposition of the criminal law as he or she could possibly require

New Directions in Private Law Theory Fabiana Bettini , Martin Fischer , Charles Mitchell, Prince Saprai , 2023-10-16 *New Directions in Private Law Theory* brings together some of the best new work on private law theory reflecting the breadth of this increasingly important field The contributions interrogate a wide range of topics including aspects of private law doctrine its development ordering and application The authors adopt a variety of different approaches and contribute to ongoing and important debates about the moral foundations of private law the individuation of areas of private law and the connections between private law and everyday moral experience Questions addressed include Does the diversity identified amongst claims in unjust enrichment mean that the category is incoherent Are claims in tort law always about compensating for wrongs How should we understand parties agreement in contract The contributions shed new light on these and other topics and the ways in which they intersect and open up new lines of scholarly enquiry The book will be of interest to researchers working in private law and legal theory but it will also appeal to those outside of law most notably researchers with an interest in moral and political philosophy economics and history **Core Concepts in Criminal Law and Criminal Justice** Kai Ambos, Antony Duff, Alexander Heinze, Julian Roberts, Thomas Weigend, 2022-02-17 Volume two of a comparative study of the concepts that underpin different domestic systems of criminal law and justice *Smith and Hogan Criminal*

Law: Text and Materials David Ormerod, John Cyril Smith, Karl Laird, 2014 Criminal Law is written with the needs of the student foremost in mind to provide more than ever as modern and as comprehensive an exposition of the criminal law as he or she could possibly require **When Robots Kill** Gabriel Hallevy, 2013-04-09 The first book to develop standards for the criminal liability of artificial intelligence technologies Great Debates in Criminal Law Jonathan Herring, 2020-06-01 This textbook is an introduction to more advanced writings on criminal law primarily designed to allow students to think critically and analyse specific topics Each chapter is structured around key questions and debates that provoke deeper thought It asks questions such as Why do we have the laws that we have Could the criminal law look differently How should the law be applied to novel situations Does the law in fact reflect prejudices The aim of the book is not to present a complete overview of theoretical issues in criminal law but rather to illustrate the current debates among those working in shaping the area The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading New to this Edition A new debate on the law on body modification Fresh discussion of the law on dishonesty Important new case law on causation Detailed discussion of developments on the law on accessory Significant developments on the law on sexual offences
