---

- Three approaches to the problem of narrative
  - as *representation*: considering the story's world or diegesis; its portrayal of reality or its broader meanings.
  - as *structure*: ways of combining parts to make a whole; segmentation and "grammar" or language of film, e.g. the *grande syntagmatique*.
  - as *process*: "the activity of selecting, arranging, and rendering story material in order to achieve specific time-bound effects on a perceiver" (xi).
    - Bordwell's preference for a cognitivist and Constructivist approach to film research.

## **Approaches To Narrative Fiction:**

**Approaches to Narrative Fiction** Jon Buscall, Outi Pickering, 1999      **Approaches to Narrative Fiction**, 1983

**Narrative Fiction** Shlomith Rimmon-Kenan, 2003-12-16 What is a narrative What is narrative fiction How does it differ from other kinds of narrative What features turn a discourse into a narrative text Now widely acknowledged as one of the most significant volumes in its field Narrative Fiction turns its attention to these and other questions In contrast to many other studies Narrative Fiction is organized around issues such as events time focalization characterization narration the text and its reading rather than individual theorists or approaches Within this structure Shlomith Rimmon Kenan addresses key approaches to narrative fiction including New Criticism formalism structuralism and phenomenology but also offers views of the modifications to these theories While presenting an analysis of the system governing all fictional narratives whether in the form of novel short story or narrative poem she also suggests how individual narratives can be studied against the background of this general system A broad range of literary examples illustrate key aspects of the study This edition is brought fully up to date with an invaluable new chapter reflecting on recent developments in narratology Readers are also directed to key recent works in the field These additions to a classic text ensure that Narrative Fiction will remain the ideal starting point for anyone new to narrative theory

**Narrative Fiction** Shlomith Rimmon-Kenan, 2003-12-16 Shlomith Rimmon Kenan addresses key approaches to narrative fiction from New Criticism to Phenomenology but also offers views on and modifications to these theories      **Narrative and Fiction** David Robinson, 2008-01-01      **Routledge Encyclopedia of Narrative Theory** David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10

The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource      [Narrative Theory, Literature, and New Media](#)

Mari Hatavara, Matti Hyvärinen, Maria Mäkelä, Frans Mäyrä, 2015-06-19 Offering an interdisciplinary approach to narrative this book investigates storyworlds and minds in narratives across media from literature to digital games and reality TV from online sadomasochism to oral history databases and from horror to hallucinations It addresses two core questions of contemporary narrative theory inspired by recent cognitive scientific developments what kind of a construction is a storyworld and what kind of mental functioning can be embedded in it Minds and worlds become essential facets of making sense and interpreting narratives as the book asks how story internal minds relate to the mind external to the storyworld that is the mind processing the story With essays from social scientists literary scholars linguists and scholars from interactive media studies answering these topical questions the collection brings diverse disciplines into dialogue

providing new openings for genuinely transdisciplinary narrative theory The wide ranging selection of materials analyzed in the book promotes knowledge on the latest forms of cultural and social meaning making through narrative necessary for navigating the contemporary mediatized cultural landscape The combination of theoretical reflection and empirical analysis makes this book an invaluable resource for scholars and advanced students in fields including literary studies social sciences art media and communication

*Modes of Narrative* Helmut Bonheim, 1990

**Reshaping Philosophy: Michael Boylan's Narrative Fiction** Wanda Teays, 2022-05-25 This volume offers original essays exploring what fictive narrative philosophy might mean in the research and teaching of philosophy The first part of the book presents theoretical essays that examine Boylan's recent books *Teaching Ethics with Three Philosophical Novels* and *Fictive Narrative Philosophy How Literature can Act as Philosophy* The second and third part offer essays on how Boylan executes his theory in the practice within his novels from his two series *De Anima* and *Arch* The book clearly shows the unique aspects of the fictive narrative philosophy approach First it makes story telling accessible to wide audiences Second story telling techniques invoke devices that can set out complicated existential problems to the reader that offer an additional approach to thorny problems through the presentation of lived experience Third the discussion of these devices is a way to explore philosophical problems in a way that many can profit from The book concludes with an essay in which Boylan responds to the critical challenges set out in Part One and the practical criticism set out in Parts Two and Three Boylan addresses the key claims made by his objectors and defends his position He engages with the authors in the way his theory is matched against his actual novels This is useful reading for both philosophers and professors of literature teaching introductory as well as upper level courses in the fields of philosophy literature and criticism

**Strange Voices in Narrative Fiction** Per Krogh Hansen, Stefan Iversen, Henrik Skov Nielsen, Rolf Reitan, 2011-10-27 From its beginnings narratology has incorporated a communicative model of literary narratives considering these as simulations of natural oral acts of communication This approach however has had some problems with accounting for the strangeness and anomalies of modern and postmodern narratives As many skeptics have shown not even classical realism conforms to the standard set by

oral or natural storytelling Thus an urge to confront narratology with the difficult task of reconsidering a most basic premise in its theoretical and analytical endeavors has for some time been undeniable During the 2000s Nordic narratologists have been among the most active and insistent critics of the communicative model They share a marked skepticism towards the idea of using natural narratives as a model for understanding and interpreting all kinds of narratives and for all of them the distinction of fiction is of vital importance This anthology presents a collection of new articles that deal with strange narratives narratives of the strange or more generally with the strangeness of fiction and even with some strange aspects of narratology

A Corpus Stylistics Approach to Contemporary Present-tense Narrative Reiko Ikeo,Eri Shigematsu,Masayuki Nakao,2024-09-15 Focusing on the growing trend of employing the present tense in storytelling this book explores present tense narrative in contemporary fiction Using a corpus approach speech writing and thought presentation in 21st century present tense narrative is compared with 20th century past tense narrative An in depth comparative analysis reveals previously undiscovered innovative features specific to how character discourse is presented in modern narratives Notably narrative tenses have an impact on thought presentation in present tense narrative Free Direct Thought FDT emerges as frequently as Free Indirect Thought FIT a departure from the dominance of FIT in modern past tense narrative This book will be of interest to stylisticians narratologists corpus linguists and those who have found themselves absorbed in a 21st century work of present tense fiction

**A Cognitive Approach to Ernest Hemingway's Short Fiction** Gabriela Tucan,2021-04-09 How do readers make sense of Hemingway s short stories How is it possible that the camera like quality of his narrative can appeal to our senses and arouse our emotions How does it capture us With reserved narrators and protagonists engaged in laconic dialogs his texts do not seem to say much This book consciously revisits our responses to the Hemingway story a belated response to his invitation to discover what lies beneath the surface of his iceberg What this pioneering critical endeavor seeks to understand is the thinking required in reading Hemingway s short fiction It proposes a cognitively informed model of reading which questions the resources of the reader s imaginative powers The cognitive demonstrations here are designed to have potentially larger implications for the short story s general mode of knowing Drawing from both cognitively oriented poetics and narratology in equal measure this book explains what structures our interaction with literary texts

A Criminology Of Narrative Fiction Rafe McGregor,2022-07-12 Drawing on complex narratives across film TV novels and graphic novels this authoritative critical analysis demonstrates the value of fictional narratives as a tool for understanding explaining and reducing crime and social harm McGregor establishes an original theory of the criminological value of fiction

**Narrative and Discursive Approaches in Entrepreneurship** Chris Steyaert,2005-01-01 the four books comprising the series would certainly be a valuable addition to any entrepreneurship library However each book also stands alone as an individual purchase Lorraine Warren International Journal of Entrepreneurial Behaviour and Research The book delivers what it promises a map of the uses of narrative methods in

entrepreneurship studies It is both an interesting contribution to the field and an important methodological handbook for all entrepreneurship researchers who are thinking of adopting qualitative methods in their inquiries However it may also be read with advantage by other researchers using ethnography as their main methodological approach to social studies The aim of the book is to show how narratives can enrich entrepreneurship studies a goal that in my opinion is aptly fulfilled Monika Kostera Scandinavian Journal of Management the contributors in this text breathe fresh and imaginative linguistic resources and narrative discursive frames of reference into the inquiry of entrepreneurial activities The anecdote the narrative the metaphorical the discursive and the dramaturgical are significant therefore not only because they bring to the surface voices emotions processes and the relationality of everyday entrepreneurial activity that have possibly been previously silenced But also to paraphrase Steyaert these approaches highlight the controversial and interactive aspects of the research process The text is welcome because it treats narrative in a serious and scholarly way Denise Fletcher International Small Business Journal In their edited book Narrative and Discursive Approaches in Entrepreneurship Daniel Hjorth and Chris Steyaert provide a fascinating glimpse into a perspective on entrepreneurship that will be enlightening for many readers Entrepreneurship authors typically talk about theory methods and data as if a straight forward linear process united them all and making sense of entrepreneurship was simply a matter of knowing how to interpret one's findings By contrast the authors in this volume propose narrative and discursive approaches in which the contributing authors emphasize rich description reflexive conceptualization and interpretations offered as part of the story itself They draw upon an international set of cases including Russia Sweden Denmark Norway Venezuela and North America The cases themselves make for fascinating reading quite apart from what we learn about the difficulties of imposing a particular interpretation on a given story For example taxi drivers in Caracas management consultants in Denmark and women entrepreneurs in northern Norway all make for fascinating narratives from which to understand the entrepreneurial process Unlike many edited books which have no plot the editors have included opening and closing sections that link the chapters offer alternative readings of them and propose new and expansive ways of thinking about entrepreneurship Howard Aldrich University of North Carolina at Chapel Hill US Daniel Hjorth and Chris Steyaert set out to advance the study of entrepreneurship by refocusing the lens of discovery from economics management and marketing to other paradigmatic stances in social sciences and humanities like anthropology and literary studies The result is a provocative collection of chapters that inspire the reader to consider and explore new ideas and research practice that incorporate both the context and place of entrepreneurship From the perceptive insights of the editors to the rigorous and provocative discourse of the chapters and thoughtful responses in the conclusion emerges a story in the best of storytelling tradition about how a linguistic turn can rouse new insights The editors ask how do these texts move you they entice provoke challenge stimulate and guide Their implications should be far reaching and required reading for any student of t

**Literary Approaches to the Bible** Douglas Mangum, Douglas

Estes,2018-03-14 The study of the Bible has long included a literary aspect with great attention paid not only to what was written but also to how it was expressed The detailed analysis of biblical books and passages as written texts has benefited from the study of literature in classical philology ancient rhetoric and modern literary criticism This volume of the Lexham Methods Series introduces the various ways the study of literature has been used in biblical studies Most literary approaches emphasize the study of the text alone its structure its message and its use of literary devices rather than its social or historical background The methods described in Literary Approaches to the Bible are focused on different ways of analyzing the text within its literary context Some of the techniques have been around for centuries but the theories of literary critics from the early 20th century to today had a profound impact on biblical interpretation In this book you will learn about those literary approaches how they were adapted for biblical studies and what their strengths and weaknesses are **Life**

**Storying in Oral History** Jarmila Mildorf,2023-06-06 This book proposes the concept of fictional contamination to capture the fact that fictionalization and literary complexity can be found across different kinds of narrative Exploring conversational storytelling in oral history and other interviews from socionarratological perspectives the book systematically discusses key narrative features such as story templates dialogue double deixis focalization or perspective taking and mind representation as well as special narrative forms including second person narration and narratives of vicarious experience These features and forms attest to storytellers linguistic creativity and serve the function of involving listeners by making stories more interesting Shared by fictional and conversational narratives at a basic level they can bring conversational stories closer to fiction and potentially compromise their credibility if used extensively Detailed analyses of broad ranging examples are undertaken against a rich narrative theoretical background drawn from the fields of narratology linguistics oral history life storytelling psychology and philosophy The book is of interest to scholars and students working in these fields and anyone fascinated by the richness of conversational storytelling Emerging Vectors of Narratology Per Krogh Hansen,John

Pier,Philippe Roussin,Wolf Schmid,2017-08-07 Narratology has been flourishing in recent years thanks to investigations into a broad spectrum of narratives at the same time diversifying its theoretical and disciplinary scope as it has sought to specify the status of narrative within both society and scientific research The diverse endeavors engendered by this situation have brought narrative to the forefront of the social and human sciences and have generated new synergies in the research environment Emerging Vectors of Narratology brings together 27 state of the art contributions by an international panel of authors that provide insight into the wealth of new developments in the field The book consists of two sections Contexts includes articles that reframe and refine such topics as the implied author narrative causation and transmedial forms of narrative it also investigates various historical and cultural aspects of narrative from the narratological perspective Openings expands on these and other questions by addressing the narrative turn cognitive issues narrative complexity and metatheoretical matters The book is intended for narratologists as well as for readers in the social and human sciences for

whom narrative has become a crucial matrix of inquiry      **Narrative Form** Suzanne Keen, 2015-07-28 This revised and expanded handbook concisely introduces narrative form to advanced students of fiction and creative writing with refreshed references and new discussions of cognitive approaches to narrative nonfiction and narrative emotions      *Mind Presentation in Ian McEwan's Fiction* Karam Nayeypour, 2017-04-25 This book explores the central fictional minds in three of Ian McEwan's most popular narratives. Mind presentation constitutes the main part of characterization in the second phase of McEwan's writing where his plot structure depends to a large degree on the presentation of the characters' mental workings. In Amsterdam 1998, *Atonement* 2003 and *On Chesil Beach* 2007, the construction process of the fictional minds, the degree their functioning is impacted by their experiences, and the way their mental aspect controls their behavior and relationships is critical to the stories. Relying on insights and methods from cognitive narratology, this study follows two purposes. It firstly analyzes the function of fictional minds and their operational modes in these narratives. Secondly, it explores the impact of the characters' experiences on both their mental functioning and their behavior, especially with view of their relationships. Nayeypour reveals that the plot structure of these narratives highly depends on the lack of a sound balance between the two aspects of the represented minds: intermental joint thought and intramental individual thought, as well as on the dominance of the intramental one. The tragic atmosphere in these narratives, Nayeypour argues, is the result of this imbalance.
