Approaches To Personal Identity In Kafkas Short Fiction Freud Darwin Kierkegaard:

Approaches to Personal Identity in Kafka's Short Fiction Leena Eilittä, 1997 *Metamorphosis* David Gallagher, 2009 The origins of selected instances of metamorphosis in Germanic literature are traced from their roots in Ovid's *Metamorphoses* grouped roughly on an ascending evolutionary scale invertebrates birds animals and mermaids Whilst a broad range of mythological legendary fairytale and folktale traditions have played an appreciable part Ovid's *Metamorphoses* is still an important comparative analysis and reference point for nineteenth and twentieth century German language narratives of transformations *Metamorphosis* is most often used as an index of crisis an existential crisis of the subject or a crisis in a society's moral social or cultural values Specifically selected texts for analysis include Jeremias Gotthelf's *Die schwarze Spinne* 1842 with the terrifying metamorphoses of Christine into a black spider the metamorphosis of Gregor Samsa in Kafka's *Die Verwandlung* 1915 ambiguous metamorphoses in E T A Hoffmann's *Der goldne Topf* 1814 Hermann Hesse's *Piktors Verwandlungen* 1925 *Der Steppenwolf* 1927 and Christoph Ransmayr's *Die letzte Welt* 1988 Other mythical metamorphoses are examined in texts by Bachmann Fouqué Fontane Goethe Nietzsche Nelly Sachs Thomas Mann and Wagner and these and many others confirm that metamorphosis is used historically scientifically for religious purposes to highlight identity sexuality a dream state or for metaphoric metonymic or allegorical reasons

Approaches to Personal Identity in Kafka's Short Fiction Leena Eilittä, 1999 This study examines the relationship between on the one hand Kafka's presentation of problems of human identity in selected works of his short fiction and on the other three important theoretical discourses of the time Freudian psychoanalysis Social Darwinism and Kierkegaard's religious existential philosophy It is suggested that at various stages in Kafka's writing career these discourses were influential in shaping his developing attempts in his short fiction to cope with the problem of identity Readings of selected works from Kafka's short fiction are incorporated into a framework of evidence which expands our knowledge about the intellectual contexts in which these works were composed and attests to the extent and nature of Kafka's knowledge of these discourses through his reading of literary and cultural journals

Kierkegaard's International Reception Jon Stewart, 2009 Tome I covers the reception of Kierkegaard in Northern and Western Europe The articles on Denmark Norway Sweden Finland and Iceland can be said to trace Kierkegaard's influence in its more or less native Nordic Protestant context Since the authors in these countries with the exception of Finland were not dependent on translations or other intermediaries this represents the earliest tradition of Kierkegaard reception The early German translations of his works opened the door for the next phase of the reception which expanded beyond the borders of the Nordic countries The articles in the section on Western Europe trace his influence in Great Britain the Netherlands and Flanders Germany and Austria and France All of these countries and linguistic groups have their own extensive tradition of Kierkegaard reception

Kierkegaard's Influence on Literature, Criticism, and Art: The Germanophone world Jon Bartley Stewart, 2013 Vol 2 is dedicated to the use of Kierkegaard by later

Danish writers Almost from the beginning Kierkegaard's works were standard reading for these authors Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings These included the theoretical leader of the movement the critic Georg Brandes who wrote an entire book on Kierkegaard and the novelists Jens Peter Jacobsen and Henrik Pontoppidan

A Companion to the Works of Franz Kafka James Rolleston, 2006 Essays by leading scholars on the most perplexing of modern writers Franz Kafka **Søren Kierkegaard Literature, 1956-2006** Aage Jørgensen, 2009 This bibliography on Søren Kierkegaard carries on the work of Jens Himmelstrup's international bibliography 1962 It collates everything written about Kierkegaard books contributions to edited collections and journals and also features an appendix of primary text editions and translations Discussion notes reviews etc are catalogued according to the items they refer to The bibliography contains more than 5 600 primary entries and is a testament to the expanding worldwide interest in the Danish philosopher It also remedies the deeply felt need for a collected overview of the extensive literature on Kierkegaard

Kierkegaard Bibliography Peter Šajda, 2017

Kafka's Zoopoetics Naama Harel, 2020-04-14 Nonhuman figures are ubiquitous in the work of Franz Kafka from his early stories down to his very last one Despite their prominence throughout his oeuvre Kafka's animal representations have been considered first and foremost as mere allegories of intrahuman matters In recent years the allegorization of Kafka's animals has been poetically dismissed by Kafka's commentators and politically rejected by posthumanist scholars Such critique however has yet to inspire either an overarching or an interdiscursive account This book aims to fill this lacuna Positioning animal stories as a distinct and significant corpus within Kafka's entire poetics and closely examining them in dialogue with both literary and posthumanist analysis Kafka's Zoopoetics critically revisits animality interspecies relations and the very human-animal contradistinction in the writings of Franz Kafka Kafka's animals typically stand at the threshold between humanity and animality fusing together human and nonhuman features Among his liminal creatures we find a human transformed into vermin in *The Metamorphosis* an ape turned into a human being in *A Report to an Academy* talking jackals in *Jackals and Arabs* a philosophical dog in *Researches of a Dog* a contemplative mole-like creature in *The Burrow* and indiscernible beings in *Josefine the Singer or the Mouse People* Depicting species boundaries as mutable and obscure Kafka creates a fluid human-animal space which can be described as humanimal The constitution of a humanimal space radically undermines the stark barrier between human and other animals dictated by the anthropocentric paradigm Through denying animalistic elements in humans and disavowing the agency of nonhuman animals excluding them from social life and neutralizing compassion for them this barrier has been designed to regularize both humanity and animality The contextualization of Kafka's animals within posthumanist theory engenders a post-anthropocentric arena which is simultaneously both imagined and very real

develop himself herself during each period of his/her life. This potential for development can be affected by many different factors. These factors are divided into two main areas as internal factors and external factors. The common assumption is that internal factors are more effective than external factors. This is the dilemma about learning which process of lifelong learning is related to self-actualization. In this paper, discussion is limited to concept of lifelong learning and self-actualization.

LIFELONG LEARNING An individual can take proper support from many components such as family, education system, media and peers. However, they may not provide proper support for the individual. Thus, the individual needs more pedagogical support to solve problems of life, develop his/her skills and capabilities. The pedagogical support should be given by educational system. Teaching and learning in some areas such as math, science, drawing, social studies and so on were defined as pedagogical support in the past. But this approach is weakening in today. During teaching and learning processes, teacher and learner should focus on the learning rather than the teaching. The concept of learning is likely to be argued in many dimensions. The concepts of teaching and learning tend to be redefined based on the latest changes.

Danish Literature as World Literature Mads Rosendahl Thomsen, Dan Ringgaard, 2017-02-09. Despite being a minor language, Danish literature is one of the world's most actively translated, and the Scandinavian country is the home of a number of significant writers. Hans Christian Andersen remains one of the most translated authors in the world. Philosopher Søren Kierkegaard inspired modern Existentialism. Karen Blixen chronicled her life in colonial Kenya as well as writing imaginary cosmopolitan tales, and the writers among the circles of literary critic Georg Brandes in the late 19th century were especially important to the further development of European Modernism. *Danish Literature as World Literature* introduces key figures from 800 years of Danish literature and their impact on world literature. It includes chapters devoted to post-1945 literature on beat and systemic poetry as well as the Scandinavia noir vogue that includes both crime fiction and cinema and is enjoying worldwide popularity.

Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art Jon Stewart, 2016-12-05. While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics, and artists worldwide who have been attracted to his creative mixing of genres, his complex use of pseudonyms, his rhetoric, and literary style, and his rich images, parables, and allegories. The goal of the present volume is to document this influence in different language groups and traditions. Tome I explores Kierkegaard's influence on literature and art in the Germanophone world. He was an important source of inspiration for German writers such as Theodor Fontane, Thomas Mann, Rainer Maria Rilke, Alfred Andersch, and Martin Walser. Kierkegaard's influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner, Karl Kraus, Robert Musil, and Hermann Broch. Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal *Der Brenner*, Kierkegaard continued to be used by later figures such as the novelist and playwright Thomas Bernhard. His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt. The famous Czech author Franz

Kafka identified personally with Kierkegaard's love story with Regine Olsen and made use of his reflections on this and other topics

Philosophy and Kafka Brendan Moran, Carlo Salzani, 2013-04-19 The relationship of philosophy with Kafka's oeuvre is complex. It has been argued that Kafka's novels and stories defy philosophic extrapolation; conversely, it has also been suggested that precisely the tendency of Kafka's writings to elude discursive solution is itself a philosophical tendency, one that is somehow contributing to a wiser relationship of human beings with language. These matters are the focus of the proposed volume on *Philosophy and Kafka*. The proposed collection brings together essays that interrogate the relationship of philosophy and Kafka and offer new and original interpretations. The volume obviously cannot claim completeness but it partially does justice to the multiplicity of philosophical issues and philosophical interpretations at stake. This variety informs the composition of the volume itself. A number of essays focus on specific philosophical commentaries on Kafka's work from Adorno's to Agamben's, from Arendt's to Benjamin's, from Deleuze and Guattari's to Derrida's. A number of essays consider the possible relevance of certain philosophical outlooks for examining Kafka's writings; here Kafka's name goes alongside those of Socrates, Kant, Kierkegaard, Nietzsche, Wittgenstein, Buber, Heidegger, Blanchot, and Levinas. Finally, a number of essays consider Kafka's writings in terms of a specific philosophical theme, such as communication and subjectivity, language and meaning, knowledge and truth, the human/animal divide, justice and freedom. In all contributions to the volume, such themes, motifs, and interpretations arise. To varying degrees, all essays are concerned with the relationship of literature and philosophy and thus with the philosophical significance of Kafka's writings.

Volume 19, Tome VII: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever-increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.

Kafka's Creatures Marc Lucht, Donna Yarri, 2010-06-22 There are few literary authors in whose work animals and other creatures play as prominent a role as they do in Franz Kafka's. Exploring multiple dimensions of Kafka's incorporation of nonhuman creatures into his writing, this volume is the first collection in English of essays devoted to illuminating this important and ubiquitous dimension of his work. The chapters here are written by an array of international scholars from various fields and represent a diversity of

interpretive approaches In the course of exploring the roles played by nonhuman animals and other creatures in Kafka's writing they help make sense of the literary and philosophical significance of his preoccupation with animals and make clear that careful investigation of those creatures illuminates his core concerns the nature of power the inescapability of history and guilt the dangers promise and strangeness of the alienation endemic to modern life the human propensity for cruelty and oppression the limits and conditions of humanity and the risks of dehumanization the nature of authenticity family life Jewishness and the nature of language and art Thus the essays in this volume enrich our understanding of Kafka's work as a whole Especially striking is the extent to which the articles collected here bring into focus the ways in which Kafka anticipated many of the recent developments in contemporary thinking about nonhuman animals *Franz Kafka's Erzählungen* Gernot Wimmer, 2008 In hermeneutischer Herangehensweise werden in diesem Band die Bedeutungsmuster in Kafkas Erzählungen freigelegt und deren Zusammenhänge hergestellt was zu erstaunlichen Ergebnissen führt Nach Kafka ist der Sündenfall selbst auf das ausweglos determinierte irdische Dasein zurückzuführen was eine Umkehrung biblischer Glaubenswerte nach sich zieht Nicht der Mensch hat sich einst an der göttlichen Ordnung versündigt sondern der Schöpfer an seinen Kreaturen selbst Entbehren die Sündenfall Konfigurationen in den Romanen allegorischer Qualität so liegen in den Erzählungen Die Verwandlung und Ein Bericht für eine Akademie ebensolche Abbilder vor was die bedingende göttliche Amoral inhaltlich nachvollziehbar macht So wird der Sündenfall zur deterministischen Sündenfalle
