Approaches To Teaching Eliot's Middlemarch:

Approaches to Teaching Eliot's Middlemarch Kathleen Blake, 1990 Now at seventy three volumes this popular MLA series ISSN 1059 1133 addresses a broad range of literary texts Each volume surveys teaching aids and critical material and brings together essays that apply a variety of perspectives to teaching the text Upper level undergraduate and graduate students student teachers education specialists and teachers in all humanities disciplines will find these volumes particularly helpful

The Cambridge Companion to George Eliot George Levine, 2001-05-10 This volume of essays is comprehensively scholarly and lucidly written and at the same time offers original insights into the work of one of the most important Victorian novelists and into her complex and often scandalous career *Approaches to Teaching Austen's Persuasion* Marcia McClintock Folsom, John Wiltshire, 2021-04-25 Offers pedagogical techniques for teaching Jane Austen's *Persuasion* including considerations of social class gender philosophy disability studies the author's life and the history of the Napoleonic Wars Gives syllabus suggestions for undergraduate and graduate courses in nineteenth century English literature the history of the novel and women's writing *The Teaching of George Eliot* William Myers, 2025-07-01 George Eliot thought of herself as a teacher as did her contemporaries Their view that her writing was not simply influenced in a relatively haphazard way by her philosophical and scientific reading but was a deliberate and consistent attempt to synthesize in fiction an elaborate and coherent theoretical analysis of the human situation is studied in this book originally published in 1984 Eliot's Associationist philosophy her Feuerbachian readings of religion her ethic of Submission and her sense that Positivism can be transcended in art and vision are here subjected to a thorough Marxist Nietzschean and psychoanalytical critique

Reading for Our Time J. Hillis Miller, 2012-03-05 A masterclass in attentive reading offering brilliant insights into two of George Eliot's novels *George Eliot's English Travels* Kathleen McCormack, 2005-11-16 George Eliot's more than fifty long and short journeys within England took her to dozens of sites scattered around the country Revising the traditional notion that George Eliot drew her settings and characters only from the areas of her Warwickshire childhood Kathleen McCormack demonstrates that English travel furnished the novelist with a wide variety of originals for the composite characters and settings she would so memorably create McCormack traces the way in which George Eliot gathered material during her travels and also drafted long sections of the novels while away from her London home She argues that by examining the choices George Eliot made in transforming discarding or directly describing her English originals we might take a significant step forward in the interpretation of her writings Where other critics have tried to interpret characters as one to one renderings of living or dead models for example this study reveals more elaborate blendings of what George Eliot called the widely sundered elements that made up her fiction McCormack also reaches the fascinating conclusion that the novels were a form of coded communication between the author and people in her life including other prominent Victorians such as Edward Burne Jones Robert Lytton and Barbara Bodichon Presenting fresh biographical information and original insights

into George Eliot's writing strategies George Eliot's *English Travels* promises a decisive shift in our understanding of one of the most important figures in Victorian literature

Black Holes / J. Hillis Miller; or, Boustrophedonic Reading Joseph Hillis Miller, Manuel Asensi, 1999 J Hillis Miller's text deals mainly with Anthony Trollope's *Ayala's Angel* and Marcel Proust's *À la recherche du temps perdu*

On Close Reading John Guillory, 2025-01-08 John Guillory considers close reading within the larger history of reading and writing as cultural techniques At a time of debate about the future of English as a discipline and the fundamental methods of literary study few terms appear more frequently than close reading now widely regarded as the core practice of literary study But what exactly is close reading and where did it come from Here John Guillory author of the acclaimed *Professing Criticism* takes up two puzzles First why did the New Critics who supposedly made close reading central to literary study so seldom use the term And second why have scholars not been better able to define close reading For Guillory these puzzles are intertwined The literary critics of the interwar period he argues weren't aiming to devise a method of reading at all These critics were most urgently concerned with establishing the judgment of literature on more rigorous grounds than previously obtained in criticism Guillory understands close reading as a technique a particular kind of methodical procedure that can be described but not prescribed and that is transmitted largely by demonstration and imitation Guillory's short book will be essential reading for all college teachers of literature An annotated bibliography curated by Scott Newstok provides a guide to key documents in the history of close reading along with valuable suggestions for further research

Jane Austen's Anglicanism Laura Mooneyham White, 2016-05-06 In her re-examination of Jane Austen's Anglicanism Laura Mooneyham White suggests that engaging with Austen's world in all its strangeness and remoteness reveals the novelist's intensely different presumptions about the cosmos and human nature While Austen's readers often project postmodern and secular perspectives onto an Austen who reflects their own times and values White argues that viewing Austen's Anglicanism through the lens of primary sources of the period including the complex history of the Georgian church to which Austen was intimately connected all her life provides a context for understanding the central conflict between Austen's malicious wit and her family's testimony to her Christian piety and kindness White draws connections between Austen's experiences with the clergy liturgy doctrine and religious readings and their fictional parallels in the novels shows how orthodox Anglican concepts such as natural law and the Great Chain of Being resonate in Austen's work and explores Austen's awareness of the moral problems of authorship relative to God as Creator She concludes by surveying the ontological and moral gulf between the worldview of Emma and Oscar Wilde's *The Importance of Being Earnest* arguing that the evangelical earnestness of Austen's day had become a figure of mockery by the late nineteenth century

J. Hillis Miller and the Possibilities of Reading Eamonn Dunne, 2010-05-06 [Essays on Charles Dickens, Henry James, and George Eliot](#) Stanley Tick, 2005 none *Others* Joseph Hillis Miller, 2021-01-12 This volume fulfills the author's career-long reflections on radical otherness in literature J Hillis Miller investigates otherness through ten nineteenth

and twentieth century authors Friedrich Schlegel Charles Dickens George Eliot Anthony Trollope Joseph Conrad W B Yeats E M Forster Marcel Proust Paul de Man and Jacques Derrida From the exquisite close readings for which he is celebrated Miller reaps a capacious understanding of otherness one reachable not through theory but through literature itself Otherness has wide valence in contemporary literary and cultural studies and is often understood as a misconception by hegemonic groups of subaltern ones In a pleasing counter to this Others conceives of otherness as something that inhabits sameness Instances of the wholly other within the familiar include your sense of self or your beloved your sense of your culture as such or your experience of literary theoretical and philosophical works that belong to your own culture works that are themselves haunted by otherness Though Others begins and ends with chapters on theorists the testimony they offer about otherness is not taken as more compelling than that of such literary works as Dicken s *Our Mutual Friend* Conrad s *The Secret Sharer* Yeats s *Cold Heaven* or Proust s *Remembrance of Things Past* Otherness as this book finds it in the writers read is not an abstract concept It is an elusive feature of specific verbal constructs different in each case It can be glimpsed only through close readings that respect this diversity as the plural in the title Others indicates We perceive otherness in the way that the unseen and the characters emotional responses to it ripples the conservative ideological surface of Howard s *End* We sense it as chaos in Schlegel s radical concept of irony And we gaze at it in the multiple personifications of *Heart of Darkness* Each testifies in its own way to the richness and tangible weight of an otherness close at hand

Anna Karenina and Others Liza Knapp, 2016-07-31 Liza Knapp offers a fresh approach to understanding Tolstoy s construction of his novel *Anna Karenina* and how he creates patterns of meaning Her analysis draws on works that were critical to his understanding of the interconnectedness of human lives including *The Scarlet Letter* *Middlemarch* and Blaise Pascal s *Pensées* Knapp concludes with a tour de force reading of *Mrs Dalloway* as Virginia Woolf s response to Tolstoy s treatment of *Anna Karenina* and others

Ageing, Gender, and Illness in Anglophone

Literature Heike Hartung, 2015-12-07 This study establishes age as a category of literary history delineating age in its interaction with gender and narrative genre Based on the historical premise that the view of ageing as a burden emerges as a specific narrative in the late eighteenth century the study highlights how the changing experience of ageing is shaped by that of gender By reading the Bildungsroman as a coming of age novel the book asks how the telling of a life in time affects individual age narratives Bringing together the different perspectives of age and disability studies the book argues that illness is already an important issue in the Bildungsroman s narratives of ageing This theoretical stance provides new interpretations of canonical novels visiting authors such as Johann Wolfgang Goethe Frances Burney Maria Edgeworth Jane Austen Charles Dickens George Eliot Samuel Beckett and Jonathan Franzen Drawing on the link between age and illness in the Bildungsroman s age narratives the genre of dementia narrative is presented as one of the directions which the Bildungsroman takes after its classical period Applying these theoretical perspectives to canonical novels of the nineteenth

century and to the new genre of dementia narrative the volume also provides new insights into literary and genre history This book introduces a new theoretical approach to cultural age studies and offers a comprehensive analysis of the connection between narratology literary theory gender and age studies **Zero Plus One** J. Hills Miller,2003 Estudio para un nuevo mundo globalizado que propone una Literatura Comparada no eurocentrista La nueva globalizaci n de la Literatura Comparada tendr la necesidad de institucionalizar en sus programas de estudios y requisitos la antropolog a o la necesidad de aprender lenguas tanto europeas como de fuera **Glossalalia** Julian Wolfreys,2003 First published in 2004 Routledge is an imprint of Taylor Francis an informa company **Teaching Nineteenth-Century Fiction** A. Maunder,J. Phegley,2015-12-04 This book brings together the experiences of Anglo American teachers and discusses some of the challenges which face teachers of nineteenth century fiction suggesting practical ways in which these might start to be overcome by considering the constantly changing canon issues related to course design and the possibilities offered by film and ICT **Networking** Laura Otis,2001 This compelling new interdisciplinary study investigates the scientific and cultural roots of contemporary conceptions of the network including computer information systems the human nervous system and communications technology Laura Otis neuroscientist literary scholar and recent recipient of a MacArthur Fellowship demonstrates that the image of the network is centuries old it is by no means a modern notion Placing current comparisons of nerve and computer networks in perspective Otis explores early analogies linking nerves and telegraphs and demonstrates the influence that nineteenth century neurobiologists engineers and fiction writers influenced each other s ideas about communication The interdisciplinary sweep of this book is impressive Otis focuses simultaneously on literary works by such authors as George Eliot Bram Stoker Henry James and Mark Twain and on the scientific and technological achievements of such pioneers as Luigi Galvani Hermann von Helmholtz Charles Babbage Samuel Morse and Werner von Siemens This unique juxtaposition of physiology engineering and literature reveals the common thoughts shared by writers in widely diverse fields and suggests that our current comparisons of nerve and computer networks may not only enhance but shape our understanding of both neurobiology and technology Highly accessible and jargon free Networking will appeal to general readers as well as to scholars in the fields of interdisciplinary studies nineteenth century literature and the history of science and technology Laura Otis is Associate Professor of English Hofstra University In 2000 she was awarded a MacArthur Foundation Fellowship for her interdisciplinary studies of literature and science Her previous books include Membranes Metaphors of Invasion in Nineteenth Century Literature Science and Politics and Organic Memory History and the Body in the Late Nineteenth and Early Twentieth Centuries **The Hispanic Connection** Zenia S.
