Arab Mind Considered A Need For Understanding:

The Arab Mind Considered John Laffin,1975 The Development of Arab-American Identity Ernest Nasseph McCarus,1994 Looks at all aspects political religious and social of the Arab American experience America's Victories Larry Schweikart,2015-09-18 In America s Victories Professor Larry Schweikart restores the truth about our amazing military heritage Just as he did in his acclaimed previous book A Patriot s History of the United States Professor Schweikart cuts through the distortions passed along by academia and the media **Libya, a Country Study** American University (Washington, D.C.). Foreign Area Studies,1979 *Arab Voices in Diaspora* ,2009-01-01 Arab Voices in Diaspora offers a wide ranging overview and an insightful study of the field of anglophone Arab literature produced across the world The first of its kind it chronicles the development of this literature from its inception at the turn of the past century until the post 9 11 era The book sheds light not only on the historical but also on the cultural and aesthetic value of this literary production which has so far received little scholarly attention It also seeks to place anglophone Arab literary works within the larger nomenclature of postcolonial emerging and ethnic literature as it finds that the authors are haunted by the same hybrid exilic and diasporic questions that have dogged their fellow postcolonialists Issues of belonging loyalty and affinity are recognized and dealt with in the various essays as are the various concerns involved in cultural and relational identification The contributors to this volume come from different national backgrounds and share in examining the nuances of this emerging literature Authors discussed include Elmaz Abinader Diana Abu Jaber Leila Aboulela Leila Ahmed Rabih Alameddine Edward Atiyah Shaw Dallal Ibrahim Fawal Fadia Faqir Khalil Gibran Suheir Hammad Loubna Haikal Nada Awar Jarrar Jad El Hage Lawrence Joseph Mohja Kahf Jamal Mahjoub Hisham Matar Dunya Mikhail Samia Serageldine Naomi Shihab Nye Ameen Rihani Mona Simpson Ahdaf Soueif and Cecile Yazbak Contributors Victoria M Abboud Diya M Abdo Samaa Abdurraqib Marta Cariello Carol Fadda Conrey Cristina Garrig s Lamia Hammad Yasmeen Hanoosh Wa l S Hassan Richard E Hishmeh Syrine Hout Layla Al Maleh Brinda J Mehta Dawn Mirapuri Geoffrey P Nash Boulus Sarru Fadia Fayez Suyoufie Middle East, the Strategic Hub Army Library (U.S.),1978 *American Orientalism* Douglas Little,2008 The history professor reconstructs America s modern relationship with the Middle East beginning with the end of World War II and the creation of the State of Israel History Representations of the Orient in Western Music Nasser Al-Taee,2017-07-05 This book focuses on the cultural political and religious representations of the Orient in Western music Dr Nasser Al Taee traces several threads in a vast repertoire of musical representations concentrating primarily on the images of violence and sensuality Al Taee argues that these prevailing traits are not only the residual manifestation of the Ottoman threat to Western Europe but also the continuation of a long and complex history of fear and fascination towards the Orient and its Islamic religion In addition to analyses of musical works Al Taee draws on travel accounts paintings biographies and political events to engage with important issues such as gender race and religious differences that may have contributed to the variously complex

images of the Orient in Western music The study extends the range of Orientalism to cover eighteenth century Austria nineteenth century Russia and twentieth century America The book challenges those scholars who do not see Orientalism as problematic and tend to ignore the role of musical representations in shaping the image of the Other within a wider interdisciplinary study of knowledge and power

Framing Monsters Joshua David Bellin, 2005 Beginning with celebrated classics the author locates King Kong 1933 within the era of lynching to evince how the film protects whiteness against supposed aggressions of a black predator and reviews *The Wizard of Oz* 1939 as a product of the Depression s economic anxieties From there the study moves to the cult classic animated *Sinbad Trilogy* 1958 1977 of Ray Harryhausen films rampant with xenophobic fears of the Middle East as relevant today as when the series was originally produced Advancing to more recent subjects the author focuses on the image of the monstrous woman and the threat of reproductive freedom found in *Aliens* 1986 *Jurassic Park* 1993 and *Species* 1995 and on depictions of the mentally ill as dangerous deviants in *12 Monkeys* 1996 and *The Cell* 2000 An investigation into physical

The Muslim Difference Youshaa Patel, 2022-01-01 A sweeping history of Muslim identity from its origins in late antiquity to the present How did Muslims across time and place define the line between themselves and their neighbors Youshaa Patel explores why the Prophet Muhammad first advised his followers to emulate Christians and Jews but then allegedly reversed course urging them to be different He details how subsequent generations of Muslim scholars canonized the Prophet's admonition into an influential doctrine against imitation that enjoined ordinary believers to embody and display their religious difference in public life Tracing this Islamic discourse from its origins in Arabia to Mamluk and Ottoman Damascus colonial Egypt and beyond this sweeping intellectual and social history offers a panoramic view of Muslim identity revealing unexpected intersections between religion and other markers of difference across ethnicity gender and status Patel illustrates that contemporary debates in the West over visible expressions of Islam from headscarves and beards to minarets and mosques are just the latest iterations in a long history of how small differences have defined Muslim interreligious encounters

Seven Events That Made America America Larry Schweikart, 2010-06-01 A conservative historian examines some of the pivotal yet often ignored moments that shaped our history All students of American history know the big events that dramatically shaped our country The Civil War Pearl Harbor the assassination of John F Kennedy and 9/11 are just a few But there are

other less famous events that had an equally profound impact Notable conservative historian Larry Schweikart takes an in depth look at seven of these transformative moments and provides an analysis of how each of them spurred a trend that either confirmed or departed from the vision our Founding Fathers had for America For instance he shows how Martin Van Buren s creation of a national political party made it possible for Obama to get elected almost two centuries later and how Dwight Eisenhower s heart attack led to a war on red meat during which the government took control over Americans diets In his easy to read yet informative style Schweikart will not only educate but also surprise readers into reevaluating our history
