Arabian Destiny The Complete Autobiography:

Arabian Destiny Edward Henderson, 2010 **The Arabian Desert in English Travel Writing Since 1950** Jenny Walker, 2022-12-30 Broadly this book is about the Arabian desert as the locus of exploration by a long tradition of British travellers that includes T E Lawrence and Wilfred Thesiger more specifically it is about those who since 1950 have followed in their literary footsteps In analysing modern works covering a land greater than the sum of its geographical parts the discussion identifies outmoded tropes that continue to impinge upon the perception of the Middle East today while recognising that the laboured binaries of East and West desert and sown noble and savage have outrun their course Where however only a barren legacy of latent Orientalism may have been expected the author finds instead a rich seam of writing that exhibits diversity of purpose and insight contributing to contemporary discussions on travel and tourism intercultural representation and environmental awareness By addressing a lack of scholarly attention towards recent additions to the genre this study illustrates for the benefit of students of travel literature or indeed anyone interested in Arabia how desert writing under the emerging configurations of globalisation postcolonialism and ecocriticism acts as a microcosm of the kinds of ethical and emotional dilemmas confronting today's travel writers in the world's most extreme regions **In the Heart of the Desert** Michael Quentin Morton, 2007 In the heart of the desert is the biography of exploration geologist Mike Morton written by his son who grew up with his father's stories and first came to experience the desert on their field trips together Making use of Mike's journals and letters and writings of his contemporaries the author describes his father's journeys and what it was like for westerners to live in the Middle East in the post World War II years The book is also a history of oil exploration in the Middle East relying on the author's extensive research into company archives and eye witness accounts of activities in the field Provided by publisher **British Travel-writing on Oman** Hilal Said Al-Hajri, 2006 This book focuses on the images of Oman in British travel writing from 1800 to 1970 In texts that vary from travel accounts to sailors memoirs complete travelogues autobiographies and letters it looks at British representations of Oman as a place people and culture The study discusses the current Orientalist debate suggesting alternatives to the dilemma of Orientalism It also outlines the historical Omani British relations and examines the travel accounts written by several British merchants and sailors who stopped in Muscat and other Omani coastal cities in the nineteenth century Another focus is with the works of travellers who penetrated the Interior of Oman such as James Wellsted and Samuel Miles and the travellers who explored the southern Oman and the Empty Quarter Finally the book looks at the last generation of British travellers who were in Oman from 1950 to 1970 employed either by oil companies or the Sultan Said bin Taimur The gap of knowledge that this book undertakes to fill is that most of the texts under discussion have not been studied in any context **Negotiators who Changed the World** Remigiusz Smolinski, 2025-09-26 For centuries negotiation has shaped the course of history from the secret talks that ended wars to the quiet conversations that ignited revolutions This book brings together leading international negotiation

experts to delve into the strategies and tactics of the world's most influential negotiators including Confucius Nelson Mandela Talleyrand Henry Kissinger and other equally impactful yet lesser known figures Each chapter unveils the critical strategies mindsets and pivotal moments behind these negotiators successes offering practical lessons and actionable takeaways for readers to apply in their own lives Whether you're an emerging negotiator or a seasoned professional this book challenges traditional views on influence leadership and negotiation offering fresh insights and tools to enhance your skills Discover how to negotiate with purpose lead with influence and use your negotiation expertise to shape a better world

With United Strength The Emirates Center for Strategic Studies and Research, 2004-03-09 Visionary statesmen who have created an enduring state edifice through purposeful consensus and persuasion remain a historical rarity The formation of the United Arab Emirates on December 2 1971 under the inspiring leadership of its founding father H H Shaikh Zayid Bin Sultan Al Nahyan is a unique example of the building of a prosperous nation that has earned its founder his rightful place among the outstanding statesmen of all time Against the backdrop of the British withdrawal from the Arabian Gulf region it was H H Shaikh Zayid who accomplished the complex task of unifying the erstwhile Trucial States creating the only thriving federal state in the Middle East While fulfilling his personal destiny as the chosen leader H H Shaikh Zayid strengthened the nation by uniting disparate tribal groups and sustained it against formidable challenges He pioneered the modernization of the country and ultimately realized his dream of an effective framework for collaboration with neighboring Gulf states The UAE has since become a constructive force within the region and beyond exemplifying the principles of national unity regional solidarity international cooperation and religious tolerance This book adopts a scholarly approach in analyzing the UAE's unique federal experience its phenomenal achievements and H H Shaikh Zayid's far sighted policies It is an in depth study of the birth of a progressive nation and the pivotal role of its leader based largely on unpublished historical records and documents The factual foundation of the book and its meticulous documentation make it a valuable record covering an important era in the contemporary history of the Arab Gulf region The Distinctive Arab Heritage Ahmed K. A.

Al-Mansoori, 2004 This book is devoted to the camel as an icon of Arab heritage and camel racing in the United Arab Emirates as a link between Bedouin tradition and modernity a vehicle of nation building social interaction social and political cohesion and expression of proud buoyant and positive nationalism _FROM Ch 7 Buraimi Michael Quentin Morton, 2014-05-09 Buraimi is an oasis in an otherwise bleak desert on the border between Oman and the UAE In the early twentieth century it shot to notoriety as oil brought the world's attention to this corner of the Arabian Peninsula and the ensuing battle over energy resources between regional and global superpowers began In this lively account Michael Quentin Morton tells the story of how the power of oil and the conflicting interests of the declining British Empire and the United States all came to a head with the conflict between Great Britain and Saudi Arabia shaping the very future of the Gulf states The seeds of conflict over Buraimi were sown during the oil negotiations of 1933 in Jeddah where the international oil companies vied for control of

the future industry in the Arabian Peninsula As a result of lengthy discussions including the efforts of men such as St John Philby and Ibn Saud himself the Saudis granted an oil concession for Eastern Arabia without precisely defining the geographical limits of the area to be conceded Matters came to a head in 1949 when Saudi Arabia made claim to the territory and Great Britain acting on behalf of Oman and Abu Dhabi challenged the actions of the Saudis Attempts at arbitration failed and only one year before Britain's defeat over the Suez Canal Britain expelled Saudi Arabia from the oasis In the wake of Britain's withdrawal East of Suez in the early 1970s the dispute was apparently solved between Saudi Arabia and the UAE But whilst the controversy dominated Anglo Saudi relations for more than 30 years it still casts its shadow across the Gulf today threatening to expose the fragility of the West's ever present dependency on the region for its supply of oil Morton brings a range of historical figures to life from the American oilmen arriving in steamy Jedda in the 1930s to the rival sheikhs of Buraimi itself competing for power wealth and allegiances as well as the great players in world politics Churchill Truman and Ibn Saud This entertaining and thoroughly researched book is both a story of a decisive conflict in the history of Middle East politics and also of the great changes that the discovery of oil brought to this previously desolate land

The Political Culture of Leadership in the United Arab Emirates A. Rugh, 2007-03-05 The book describes the impact of cultural perceptions on rulers behaviors in the United Arab Emirates once the Trucial States Despite differences in size economic resources and external political pressures the seven emirates rulers utilized very similar cultural expectations to gain the support of others
