Arabic Plotinus:

The Arabic Plotinus Peter Adamson, 2017-12-27 The so called Theology of Aristotle is a translation of the Enneads of Plotinus the most important representative of late ancient Platonism It was produced in the 9th century CE within the circle of al Kind one of the most important groups for the early reception of Greek thought in Arabic In part because the Theology was erroneously transmitted under Aristotle s authorship it became the single most important conduit by which Neoplatonism reached the Islamic world It is referred to by such thinkers as al F r b in an attempt to demonstrate the agreement between Platonism and Aristotelianism Avicenna who wrote a set of comments on the text and later on thinkers of Safavid Persia including Mull adr Yet the Theology is not just a translation It may in fact more accurately be described as a creative paraphrase which takes frequent liberties with the source text and even includes whole paragraphs worth of new material Adamson s book offers a philosophical interpretation of the changes introduced in the Arabic version It is argued that these changes were in part intended to show the relevance of Plotinus thought for contemporary Islamic culture for instance by connecting the Neoplatonist theory of the First Principle to theological disputes within Islam over the status of God s attributes At the same time the paraphrase reflects a tendency to harmonize the various strands of Greek thought so that a critique by Plotinus of Aristotle s theory of the soul is subtly changed into a defense of Aristotle s theory against a possible misinterpretation The upshot or so Adamson argues is that the Theology needs to be read as an original philosophical work in its own right and understood within the context of the Abb sid era

Frank, 2006 In the course of his career Professor Richard M Frank of the Catholic University of America produced a hugely significant corpus of works on the intellectual activity in Classical Islam known as Kalam which he argued should be rendered as speculative theology He also wrote on the Qur an on the Arabic and Syriac philosophical tradition and argued vigorously for a new reading of the famous religious scholar and theologian al Ghazali d 1111 as a devotee of the cosmology of Ibn Sina d 1037 In this volume fourteen scholars many of them contemporaries of Professor Frank engage with his legacy with important and seminal works which take some of his ideas as their points of departure The book is divided into six sections the Qur an Paths to al Ash ari Al Ash ari and the Kalam Christian Falsafa Avicenna and Beyond and Al Ghazali on Causality There are major articles on Qur anic emendations and

Arabia and Late Antiquity on the Arabic Plotinian Tradition on Syriac Philosophical Vocabulary and an important reading of the Greek Arabic translation movement in terms of the practical and exact sciences There are seminal studies of atomism with valuable translations of complex theological passages previously untranslated of the Christian philosophy of Yahya ibn Adi of a late Mu tazili argument for the existence of God and a hitherto unedited section on optics by Ibn Mattawayh These are complemented by important close readings of Avicenna s epistemology and his Metaphysics together with a major new survey of the Avicennan tradition in the madrasas of the Islamic East The volume ends with two discussions of the perennial question of al Ghazali s theory of causality In addition the volume contains an autobiographical piece by Professor Frank and a complete bibliography of his published works **The Eudaimonist Ethics of al-Fārābī and Avicenna** Janne

Mattila,2022-04-25 Now available in Open Access thanks to the support of the University of Helsinki Al F r b and Avicenna are the two most influential authors of the classical period of Arabic philosophy yet their ethical thought has been largely overlooked by scholars In this book Janne Mattila provides the first comprehensive account of the ethics of these important philosophers The book argues that even if neither of them wrote a major ethical work their ethical writings form a coherent ethical system especially when understood in the context of philosophical psychology cosmology and metaphysics The resulting ethical theory is moreover not derivative of their classical predecessors in any simple way The book will appeal to those with interest in Arabic Islamic philosophy Islamic intellectual history classical philosophy and the history of moral philosophy **The Arabic Influences on Early Modern Occult Philosophy** Liana Saif,2016-04-29 Investigating the

impact of Arabic medieval astrological and magical theories on early modern occult philosophy this book argues that they provided a naturalistic explanation of astral influences and magical efficacy based on Aristotelian notions of causality *Galen and the Arabic Reception of Plato's Timaeus* Aileen R. Das,2020-11-12 Examines how Galen and his medieval Arabic successors invoke Plato s Timaeus to reimagine medicine and philosophy **Models of Desire in Graeco-Arabic Philosophy** Bethany Somma,2021-03-08 This study argues that late ancient Greek and medieval Islamic philosophers interpret human desire along two frameworks in reaction to Aristotle s philosophy The investigation of the model dichotomy unfolds historically from the philosophy of Plotinus through the Graeco Arabic translation movement in 8th 10th century Baghdad to 12th century al Andalus with the philosophy of Ibn B a and Ibn ufayl Diverging on desire s inherent or non inherent relation to the desiring subject the two models reveal that the desire s role can orient opposed accounts of human perfection logically structured demonstrative knowledge versus an ineffable witnessing of the truth Understanding desire along these models philosophers incorporated supra rational aspects into philosophical accounts of the human being

Philosophy and the Abrahamic Religions Rahim Acar,Bilal Bas,Torrance Kirby,2013-01-15 From Greco Roman Antiquity through to the European Enlightenment philosophy and religious thought were inseparably interwoven This was equally the case for the popular natural or pagan religions of the ancient world as it was for the three pre eminent religions

of the book namely Judaism Christianity and Islam The lengthy and involved encounter of the Greek philosophical tradition and especially of the Platonic Aristotelian and Neoplatonic strands of that tradition initially with the Hellenistic cults and subsequently with the three Abrahamic religions played a critical role in shaping the basic contours of Western intellectual history from Plato to Philo of Alexandria Plotinus Porphyry Augustine and Proclus from Aristotle to al F r b Avicenna al az l Aquinas and the medieval scholastics and eventually to Meister Eckhart and Nicholas Cusanus and such modern philosophers and theologians as Richard Hooker the Cambridge Platonists Jacob Boehme and G W F Hegel to name but a few The aim of the twenty four essays comprising this volume is to explore the intellectual worlds of the three Abrahamic religious traditions their respective approaches to scriptural hermeneutics and their interaction over many centuries on the common ground of the inheritance of classical Greek philosophy The shared goal of the contributors is to demonstrate the extent to which the three Abrahamic religions have created similar shared patterns of thought in dealing with crucial religious concepts such as the divine creation providence laws both natural and revealed such problems as the origin of evil and the possibility of salvation as well as defining hermeneutics that is to say the manner of interpreting their sacred writings

The Church Fathers in Arabic Translations Alexander Treiger, 2024-12-23 This volume tells the story of the Arabic translations of the Church Fathers By tracing the history of major translation centres such as Palestine Sinai and Antioch it describes how Middle Eastern Christians translated into Arabic preserved and engaged with their Patristic heritage In addition to well known authors such as Gregory of Nazianzus Ephrem the Syrian and Dionysius the Areopagite the volume presents a Patristic treatise written in Greek but preserved only in Arabic the Noetic Paradise Finally by reconstructing a lost Arabic Dionysian paraphrase used by the Muslim theologian al Ghazali the volume explores Patristic influences on Islamic thought

Studies on Early Arabic Philosophy Peter Adamson, 2023-04-21 Philosophy in the Islamic world from the 9th to 11th centuries was characterized by an engagement with Greek philosophical works in Arabic translation This volume collects papers on both the Greek philosophers in their new Arabic guise and on reactions to the translation movement in the period leading up to Avicenna In a first section Adamson provides general studies of the formative period of philosophy in the Islamic world discussing the Arabic reception of Aristotle and of his commentators He also argues that this formative period was characterized not just by the use of Hellenic materials but also by a productive exchange of ideas between Greek inspired philosophy falsafa and Islamic theology kal m A second section considers the underappreciated philosophical impact of Galen using Arabic sources to understand Galen himself and exploring the thought of the doctor and philosopher al R z who drew on Galen as a chief inspiration A third section looks at al F r b and the so called Baghdad school of the 10th century examining their reaction to Aristotle s Metaphysics his epistemology and his famous deterministic sea battle argument A final group of papers is devoted to Avicenna s philosophy which marks the beginning of a new era of philosophy in the Islamic world

The Cambridge Companion to Arabic Philosophy Peter Adamson, Richard C. Taylor, 2004-12-09

Philosophy written in Arabic and in the Islamic world represents one of the great traditions of Western philosophy Inspired by Greek philosophical works and the indigenous ideas of Islamic theology Arabic philosophers from the ninth century onwards put forward ideas of great philosophical and historical importance This collection of essays by some of the leading scholars in Arabic philosophy provides an introduction to the field by way of chapters devoted to individual thinkers such as al Farabi Avicenna and Averroes or groups especially during the classical period from the ninth to the twelfth centuries It also includes chapters on areas of philosophical inquiry across the tradition such as ethics and metaphysics Finally it includes chapters on later Islamic thought and on the connections between Arabic philosophy and Greek Jewish and Latin philosophy The volume also includes a useful bibliography and a chronology of the most important Arabic thinkers

The Elements of Avicenna's Physics Andreas Lammer, 2018-02-05 This study is the first comprehensive analysis of the physical theory of the Islamic philosopher Avicenna d 1037 It seeks to understand his contribution against the developments within the preceding Greek and Arabic intellectual milieus and to appreciate his philosophy as such by emphasising his independence as a critical and systematic thinker Exploring Avicenna's method of teaching and learning it investigates the implications of his account of the natural body as a three dimensionally extended composite of matter and form and examines his views on nature as a principle of motion and his analysis of its relation to soul Moreover it demonstrates how Avicenna defends the Aristotelian conception of place against the strident criticism of his predecessors among other things by disproving the existence of void and space Finally it sheds new light on Avicenna's account of the essence and the existence of time For the first time taking into account the entire range of Avicenna's major writings this study fills a gap in our understanding both of the history of natural philosophy in general and of the philosophy of Avicenna in particular This monograph has been awarded the annual BRAIS De Gruyter Prize Kulturpreis Bayern in the Study of Islam and the Muslim World and the Iran World Award for Book of the Year 2020

Faces of the Infinite Stefan Sperl, Yorgos Dedes, 2022-01-06 Neoplatonism forms part of the common heritage of the Christian Jewish and Muslim cultures of the greater Mediterranean and left its mark on the region's poets The verses composed from Late Antiquity to the modern period in the seven languages which were representative of the region confirm the cross cultural relevance of Neoplatonic thought

Studies on Plotinus and al-Kindi Peter Adamson, 2023-05-31 This book collects 15 papers on the greatest philosopher of late antiquity and founder of Neoplatonism Plotinus d 270 and the founding figure of philosophy in the Islamic world al Kind d ca 873 A number of the contributions focus on the text that joins the two the so called Theology of Aristotle in fact an Arabic version of Plotinus Enneads produced in al Kind's translation circle Across several papers Adamson argues that this translation is best understood as a reinterpretation of Plotinus designed to appeal to contemporary readers in the culture of the Abbasid era Two contributions also analyze the notes on the Theology written by the great Avicenna Other papers look at aspects of al Kind's own thought exploring his ideas concerning metaphysics free will astrology and optics The traditions of Plotinus and al Kind are also treated with papers on Plotinus

student Porphyry and his Arabic reception and on followers of al Kind Adamson argues that we can identify what he calls a Kindian tradition in the 9th 10th centuries He discusses the philosophical presuppositions of this movement and the use of al Kind s ideas made by one particular representative of the Kindian tradition the Persian thinker Miskawayh The Oxford Handbook of Medieval Philosophy John Marenbon,2015 This Handbook shows the links between medieval and contemporary philosophy Topic based essays on all areas of philosophy explore this relationship and introduce the main themes of medieval philosophy They are preceded by the fullest chronological survey now available of the different traditions Latin and Greek Islamic and Jewish **Later Platonists and their Heirs among Christians, Jews, and Muslims** Eva Anagnostou,Ken Parry,2022-12-28 Later Platonists and their Heirs among Christians Jews and Muslims offers a thought provoking exploration of the reception of Platonism among communities of faith from early Christianity to the sixteenth century from the Byzantine East to the Latin West Rare emphasis is placed on the importance of Platonic thought and its diffusion in late antique and medieval Syria Armenia and Georgia but also among Arab and Jewish intellectuals from the seventh century onwards As such the volume makes a statement against the separation of Neoplatonic philosophy from Christianity and the other Abrahamic faiths since all four traditions promoted a life of virtue and goodness despite operating under different divine auspices The volume seeks to establish paths of transmission and modes of adaptation across times and places **Western Sufism** Mark Sedgwick,2016 In this book Mark Sedgwick shows that Western Sufism is not a recent phenomenon of the new age but rather is rooted in a series of intercultural transfers between the Muslim world and the West starting in the Middle Ages and in centuries of later Western intellectual history Was ist Philosophie im Mittelalter? Qu'est-ce que la philosophie au moyen âge? What is Philosophy in the Middle Ages? Jan A. Aertsen,Andreas Speer,2012-12-17 The series MISCELLANEA MEDIAEVALIA was founded by Paul Wilpert in 1962 and since then has presented research from the Thomas Institute of the University of Cologne The cornerstone of the series is provided by the proceedings of the biennial Cologne Medieval Studies Conferences which were established over 50 years ago by Josef Koch the founding director of the Institute The interdisciplinary nature of these conferences is reflected in the proceedings The MISCELLANEA MEDIAEVALIA gather together papers from all disciplines represented in Medieval Studies medieval history philosophy theology together with art and literature all contribute to an overall perspective of the Middle Ages The Oxford Handbook of Islamic Philosophy Khaled El-Rouayheb,Sabine Schmidtke,2017 The study of Islamic philosophy has entered a new and exciting phase in the last few years Both the received canon of Islamic philosophers and the narrative of the course of Islamic philosophy are in the process of being radically questioned and revised Most twentieth century Western scholarship on Arabic or Islamic philosophy has focused on the period from the ninth century to the twelfth It is a measure of the transformation that is currently underway in the field that unlike other reference works the Oxford Handbook has striven to give roughly equal weight to every century from the ninth to the twentieth The Handbook is also unique in that its 30 chapters are work

centered rather than person or theme centered in particular taking advantage of recent new editions and translations that have renewed interest and debate around the Islamic philosophical canon The Oxford Handbook of Islamic Philosophy gives both the advanced student and active scholar in Islamic philosophy theology and intellectual history a strong sense of what a work in Islamic philosophy looks like and a deep view of the issues concepts and arguments that are at stake Most importantly it provides an up to date portrait of contemporary scholarship on Islamic philosophy
