Araucanian Culture In Transition:

Araucanian Culture in Transition Mischa Titiev, 1951-01-01 In this classic work renowned anthropologist Mischa Titiev presents his research on the Araucanian tribe of Chile Based on fieldwork he did in 1948 he describes many aspects of the Araucanian culture from land use and kinship to ceremonies and games Illustrated *The Archaeology and Ethnohistory of Araucanian Resilience* Jacob J. Sauer, 2014-09-13 This volume examines the processes and patterns of Araucanian cultural development and resistance to foreign influences and control through the combined study of historical and ethnographic records complemented by archaeological investigation in south central Chile This examination is done through the lens of Resilience Theory which has the potential to offer an interpretive framework for analyzing Araucanian culture through time and space Resilience Theory describes the capacity of a system to absorb disturbances and reorganize while undergoing change so as to still retain the same function The Araucanians incorporated certain Spanish material culture into their own rejected others and strategically restructured aspects of their political economic social and ideological institutions in order to remain independent for over 350 years

Process and Pattern in Culture Robert Alan Manners, Julian Haynes Steward, This festschrift commemorates Julian H Steward The essays were contributed by former students colleagues and other anthropologists whose research or thinking has been influenced by him There was no preconceived attempt to give the volume any greater sense of unity or to impose upon the contributors any restrictions as to subject matter On the contrary each author was urged to write on an anthropological topic of greatest current interest to himself Many of the essays could be placed just as handily within a division other than the one to which they have arbitrarily been assigned in the book This kind of interchangeability may reflect in some measure the interrelatedness of Steward s contributions to anthropological theory The broad relevance of all the selections to Steward s work could reflect also the extent to which his interests continue to be reflected in the work of anthropologists influenced by him It could also reflect a parallelism of theoretical concerns within the profession that stem from the cultural ambience that produced Steward himself Parallelisms and convergence are aspects of the kind of cultural determinism which has claimed Steward s attention during the many years that he fought a fairly lonely battle to establish the respectability of evolutionism in anthropology Now that respectability has been achieved with an almost bandwagon fervor it is clear that Steward as much as anyone else in anthropology was responsible for the change The essays in this collection are at once a vindication of his patience an evidence of the high status he enjoys among anthropologists and a testimony to the impact of his unusual creativity on his colleagues

Araucanian Child Life and Its Cultural Background Mary Inez Hilger, 1957 *The Politics of Reproductive Ritual* Jeffery M. Paige, Karen Ericksen Paige, 2023-04-28 A welcome addition They argue that rituals of reproduction in preindustrial societies are essentially political In these societies they say men need to control the reproductive power of women in order to establish political power where there is no law or central government ritual is used as a way of gaining

control The type of ritual will vary they conclude according to the economic base of the society for those who are interested in the subject this book is indispensable Its thesis is challenging and the documentation is excellent Paige and Paige have made an essential contribution to a long debate and their theory is sure to stir new and lively controversy Science Digest This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981

Homosexualities Stephen O. Murray, 2002-06 Breathtaking in its historical and geographical scope this book provides a sweeping examination of the construction of male and female homosexualities stressing both the variability of the forms same sex desire can take and the key recurring patterns it has formed throughout history An indispensable resource on same sex sexual relationships and their social contexts Essential reading Choice P

Hawks of the Sun Louis C. Faron, 2010-11-23 Southern central Chile supports one of the largest functioning indigenous societies in South America the Mapuche who have withstood more than four hundred years of persistent efforts at colonization and missionization In spite of inevitable cultural and social change during those years they have maintained a great measure of cultural and social integrity and remain a regional ethically conscious minority in Chile The Mapuche in their own words are another race with their own gods their own notions of right and wrong their own symbolism Abiding by the rules of their society ensures their eternal place among the hawks of the sun

Icons of Power Nicholas J. Saunders, 2013-04-15 Icons of Power investigates why the image of the cat has been such a potent symbol in the art religion and mythology of indigenous American cultures for three thousand years The jaguar and the puma epitomize ideas of sacrifice cannibalism war and status in a startling array of graphic and enduring images Natural and supernatural felines inhabit a shape shifting world of sorcery and spiritual power revealing the shamanic nature of Amerindian world views This pioneering collection offers a unique pan American assessment of the feline icon through the diversity of cultural interpretations but also striking parallels in its associations with hunters warriors kingship fertility and the sacred nature of political power Evidence is drawn from the pre Columbian Aztec and Maya of Mexico Peruvian and Panamanian civilizations through recent pueblo and Iroquois cultures of North America to current Amazonian and Andean societies This well illustrated volume is essential reading for all who are interested in the symbolic construction of animal icons their variable meanings and their place in a natural world conceived through the lens of culture The cross disciplinary approach embraces archaeology anthropology and art history

Lange, 1992 **Linguistics and Anthropology** Marvin Dale Kinkade, Kenneth Locke Hale, Oswald Werner, 1975-01-01 Paper by K L Hale separately annotated Human Birth Wenda R. Trevathan, 2017-07-05 The story of human evolution has been told hundreds of times each time with a focus that seems most informative of the teller No matter how it is told the primary characters are rarely mothers and infants Darwin argued survival but today we know that reproduction is what evolution is all about Centering on this Trevathan focuses on birth which gives the study of human evolution a crucial new dimension Unique among mammals humans are bipedal The evolution of bipedalism required fundamental changes in the pelvis and resulted in a narrow birth canal Humans are also large brained animals which means that birth is much more challenging for our species than for most other animals The result of this mismatch of large head and narrow pelvis is that women are highly dependent on assistance at birth and their babies are born in an unusually undeveloped state when the brain is still small Human Birth discusses how

the birth process has evolved and ways in which human birth differs from birth in all other mammals Human Birth is also concerned with mother infant interaction immediately after birth While working as a midwife trainee Trevathan carefully documented the births of more than one hundred women and recorded maternal and infant behaviors during the first hour after birth She suggests ways in which the interactions served not only to enhance mother infant bonding but also to ensure survival in the evolutionary past With clarity and compelling logic Trevathan argues that modern birth practices often fail to meet evolved needs of women and infants and suggests changes that could lead to better birth experiences This paperback edition includes a new introduction by the author
