**A Brief View of the Heavenly Doctrines Revealed in the Theological Writings of Emanuel Swedenborg** Carl Theophilus Odhner, 1897      **General Catalogue of ... Free Public Library** Auckland Public Library, 1888      The Nature of True Virtue James Duban, 2001-06 This study details the compatibility of ideas between Jonathan Edwards and Emanuel Swedenborg that helped forge the theological socialism of Henry James Sr Duban demonstrates how a forgotten newspaper exchange between the elder James and Unitarian minister Henry Whitney Bellows clarified the Puritan foundations of the elder James's philosophy Henry James Jr in turn transformed the phenomenalist and Edwardsian foundations of his father's philosophy into the psychological dramas of major novels although deeming the father's political radicalism destructive of aesthetic valuation      *Arcana Coelestia, Vol. 2* Emanuel Swedenborg, 2017-12-06 Excerpt from Arcana Coelestia Vol 2 The Heavenly Arcana Contained in the Holy Scripture or Word of the Lord Unfolded Beginning With the Book of Genesis Nora The figures between brackets in the text of the long paragraphs indicate the subdivisions arranged for the Swedenborg Concordance About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Heaven and Hell* Emanuel Swedenborg, 1889      *Angels* George J. Marshall, 2015-08-13 In the 1990s alone more than 400 works on angels were published adding to an already burgeoning genre Throughout the centuries angels have been featured in among others theological works on scripture studies in comparative religions works on art architecture and music philological studies philosophical sociological anthropological archeological and psychological works and even a psychoanalytical study of the implications that our understanding of angels has for our understanding of sexual differences This bibliography lists 4 355 works alphabetically by author Each entry contains a source for the reference often a Library of Congress call number followed by the name of a university that holds the work More than 750 of the entries are annotated Extensive indexes to names subjects and centuries provide further utility      *Spiritual Crisis* Fransje de Waard, 2013-07-22 The American comedienne Lily Tomlin once observed with surprise that we call it praying when we talk to God and schizophrenia when God talks back to us In this book people speak about inner experiences in which they perceived themselves and the world so differently that they thought they were going mad Experiences of existential voids heights and depths freezing wastes and silences of pure energy love and fear oneness and chaos They found no explanation in science or religion traditional standards of normality and morality brought them no further than madness and heresy From sheer necessity they learned to steer by a sort of inner compass and began to tap unconventional resources This gave their

experience on balance the depth and dynamism of a spiritual transformation which they would not have wanted to miss Since 1994 such spiritual crises have acquired an official place in psychiatric diagnostics namely as non pathological episodes Knowledge and insight fall substantially short however both in professional circles and among the public at large In this book the author shows how transpersonal psychology interprets such crises as the growing pains of human consciousness This wider perspective transcends the traditional individual frameworks of the life sciences parallel to the earlier shift of classical mechanics to quantum physics At a time that resounds with demands for meaningfulness and which seems engrossed in a holistic model of reality this book sets about giving a place within this perspective to the phenomenon of the spiritual crisis
