Beyond the Jordan

Glenn A. Carnagey Sr., Glenn Carnagey Jr., Keith N. Schoville, 2005-02-02 Beyond the Jordan is a collection of essays written to honor the life and labors of W Harold Mare Dr Mare spent much of his academic career as Professor of New Testament at Covenant Theological Seminary in St Louis A man of indefatigable energy broad interests and an unswerving commitment to the Christian faith his research expanded from New Testament interests to the archaeology of that world including ancient Canaan and Israel as well as the eras following the establishment of Christianity Apart from his work in textual studies W Harold Mare will be remembered for his excavations of Abila of the Decapolis in Jordan yet he also published a study of the archaeology of Jerusalem Thus the title of this volume is ambiguous enough to allow a broad spectrum of topics relative to either side of the River Jordan *Book of Mormon Onomasticon & Theological Word Study* Robert F. Smith, 2024-12-31 Complete list of Book of Mormon words and names and their variants with likely etymologies offered including theological words and concepts **Pagan Ireland; an Archaeological Sketch** William Gregory Wood-Martin, 1895 **Ceramics and Change in the Early Bronze Age of the Southern Levant** Graham Philip, Douglas Baird, 2000-12-01 This book sets out the primary issues and current debates in the use of ceramics to reconstruct and explain cultural economic and social processes in the Early Bronze age By bringing together research on pottery from various parts of the southern Levant it allows direct comparison of contemporary material from different regions Alongside these empirical studies are discussions of general ceramic issues so that the book highlights the potential of pottery as an investigative tool and indicates fruitful directions for future research within the traditionally conservative field of Levantine archaeology **Andean Archaeology III** William Isbell, Helaine Silverman, 2008-02-01 The third volume in the Andean Archaeology series this book focuses on the marked cultural differences between the northern and southern regions of the Central Andes and considers the conditions under which these differences evolved grew pronounced and diminished This book continues the dynamic current problem oriented approach to the field of Andean Archaeology that began with Andean Archaeology I and Andean Archaeology II Combines up to date research diverse theoretical platforms and far reaching interpretations to draw provocative and thoughtful conclusions **Norfolk Archaeology, Or, Miscellaneous Tracts Relating to the Antiquities of the County of Norfolk**, 1898 **A History of Archaeological Thought** Bruce G. Trigger, 1989 Bruce Trigger s new book is the first ever to examine the history of archaeology from medieval times to the present in world wide perspective At once stimulating and even handed it places the development of archaeological thought and theory throughout within a broad social and intellectual framework The successive but interacting trends apparent in archaeological thought are defined and the author seeks to determine the extent to which these trends were a reflection of the personal and collective interests of archaeologists as these relate in the West at least to the fluctuating fortunes of the middle classes While subjective influences have been powerful Professor Trigger argues that the gradual accumulation of archaeological data has exercised a growing constraint on interpretation In turn this has increased the objectivity of archaeological research and enhanced its value for

understanding the entire span of human history and the human condition in general **The Global Prehistory of Human Migration** Immanuel Ness, 2014-11-10 Previously published as the first volume of The Encyclopedia of Global Human Migration this work is devoted exclusively to prehistoric migration covering all periods and places from the first hominin migrations out of Africa through the end of prehistory Presents interdisciplinary coverage of this topic including scholarship from the fields of archaeology anthropology genetics biology linguistics and more Includes contributions from a diverse international team of authors representing 17 countries and a variety of disciplines Divided into two sections covering the Pleistocene and Holocene each section examines human migration through chapters that focus on different regional and disciplinary lenses Research Methods in Human Skeletal Biology Elizabeth A. DiGangi, Megan K. Moore, 2012-09-25 Research Methods in Human Skeletal Biology serves as the one location readers can go to not only learn how to conduct research in general but how research is specifically conducted within human skeletal biology It outlines the current types of research being conducted within each sub specialty of skeletal biology and gives the reader the tools to set up a research project in skeletal biology It also suggests several ideas for potential projects Each chapter has an inclusive bibliography which can serve as a good jumpstart for project references Provides a step by step guide to conducting research in human skeletal biology Covers diverse topics sexing aging stature and ancestry estimation and new technologies histology medical imaging and geometric morphometrics Excellent accompaniment to existing forensic anthropology or osteology works
