Animals Went Two By Two A Noahs Ark Popup:

The Animals Went in Two by Two Jan Pieńkowski, 2003 The animals went in two by two Hoorah Hoorah We know why they went in for to get out of the rain but this funny pop up version of the traditional nursery rhyme has a few surprises in store For instance did you know that when the animals went in four by four the great Stegosaurus got stuck in the door Or that when they went in nine by nine they hung up their socks to dry on the line Perfect for singing along with this book is a great way to introduce young children to the numbers one to ten Lift the flaps pull the tabs and join the animals on board the Ark

Pop-Up Books Nancy Larson Bluemel, Rhonda Harris Taylor, 2012-02-02 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools in all areas of the school curriculum across many grade levels Pop up books possess universal appeal Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three dimensional work of Robert Sabuda David A Carter and other pop up book creators Sabuda himself was inspired to become a pop up book artist after experiencing the 1972 classic pop up The Adventures of Super Pickle The effect of these movable books on young minds is uniquely powerful Besides riveting children s attention pop up books can also help build motor skills teach cause and effect and develop spatial understanding of objects Based on their direct experience and many presentations to teachers and librarians the authors have provided template lesson plans with curriculum and standards links for using the best pop up books currently available in the instructional program of the school The book also includes profiles of the most notable authors a history of the format definitions of terms such as flap book and paper engineer and information on how to create movable books Librarians will find the section regarding collection development with the format how and where to acquire them proper storage methods and the annotated listing of the authors 50 favorite pop ups extremely helpful

Meaningful Flesh Whitney Bauman,2018 Religion is much queerer than we ever imagined Nature is as well These are the two basic insights that have led to this volume the authors included here hope to queerly go where no thinkers have gone before The combination of queer theory and religion has been happening for at least 25 years People such as John Boswell began to examine the history of religious traditions with a queer eye and soon after we had the indecent theology of Marcella Althaus Ried Jay Johnston one of the authors in this issue is among those who have used the queer eye to interrogate authority within Christian theological traditions At the same time there have been many queer interrogations of nature perhaps most notably in the works of Joan Roughgarden and Ann Fausto Sterling and more recently in the works of Catriona Sandilands and Timothy Morton an author in this volume However the intersections of religion nature and queer theory have been largely left untouched With the exception of Dan Spencer who writes the introduction for this volume and is one of the early pioneers in this realm of thought with his book Gay and Gaia Pilgrim Press 1996 and the work of Greta Gaard in developing a queer ecofeminist thought religion and nature or religion and ecology have largely ignored the realm of queer theory In part the blinders to queer theory on the part of eco thinkers religious or otherwise are similar to the blinders eco thinkers have when it comes to postmodern thought in general namely if there are no absolute foundations how does one create an environmental ethic and a nature to save For this reason and many others this volume on religion nature and queer theory is groundbreaking Though these essays span many different disciplines and themes they are all held together by the triple focus on religion nature and queer theory Each of these essays offers a unique contribution to the intersection of religion nature and queer theory and all of them challenge strict boundaries proposed in religious rhetoric and many discourses surrounding nature Carol Wayne White s essay draws from a queer reading of James Baldwin to develop

an African American religious naturalism which highlights humans as polyamorous bastards Jacob Erickson s essay examines Isabella Rossellini s Green Porno and Martin Luther s work to develop an irreverent theology Jay Johnston draws from personal relationships with his late dog and Master Pup fetish play to blur the boundaries between humans and other animals specifically within ethical and theological discourse Whitney Bauman reflects on how the very processes of globalization and climate change queer our identities and call for a queer and versatile planetary ethic Finally Timothy Morton leads us through a reflection on queer green sex toys to challenge the ontology of agrologistics Each of these essays in their own way is concerned with fleshing out more meaningful encounters with the planetary community Without being too ambitious we hope that these sets of essays will help to open up a new trajectory of conversations at the intersection of religion nature and queer theory The Publishers Weekly ,2003 **Polonica zagraniczne** ,2005 Being a Great Mom, Raising Great Kids Sharon E.
