Johanna Kuyvenhoven, 2009-01-01 In the Presence of Each Other is a brilliant ethnography that examines the educational benefits of the use of oral storytelling in the classroom and the ways in which non print literacy enhances children's overall language and communication capacities **Children's Literature in Translation** Jan Van Coillie, Jack

McMartin, 2020-10-30 For many of us our earliest and most meaningful experiences with literature occur through the medium of a translated children's book This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated what contexts of production and reception account for how translated children's books come to be made and read as they are How are translated children's books adapted to suit the context of a new culture Spanning the disciplines of Children's Literature Studies and Translation Studies this book brings together established and emerging voices to provide an overview of the analytical empirical and geographic richness of current research in this field and to identify and reflect on common insights analytical perspectives and trajectories for future interdisciplinary research This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines It has a broad geographic and cultural scope with contributions dealing with translated children's literature in the United Kingdom the United States Ireland Spain France Brazil Poland Slovenia Hungary China the former Yugoslavia Sweden Germany and Belgium **Feeling Like a Kid** Jerome

Griswold, 2006-12 A lively and illustrated inquiry of how children's literature reflects the curious mind of a child now available in paperback Outstanding Academic Title for 2007 Choice Magazine In this engaging book Jerry Griswold examines the unique qualities of childhood experience and their reappearance as frequent themes in children's literature Surveying dozens of classic and popular works for the young from Heidi and The Wizard of Oz to Beatrix Potter and Harry Potter Griswold demonstrates how great children's writers succeed because of their uncanny ability to remember what it feels like to be a kid playing under tables shivering in bed on a scary night arranging miniature worlds with toys zooming around as caped superheroes and listening to dolls talk Feeling Like a Kid boldly and honestly identifies the ways in which the young think and see the world in a manner different from that of adults Written by a leading scholar prize winning author and frequent contributor to the Los Angeles Times this extensively illustrated book will fascinate general readers as well as all those who study childhood and children's literature *The Interdependence of Teaching and Learning* Bryant

Griffith, Douglas J. Loveless, 2013-03-01 The varied chapters of this book seek to capture the complexities of teaching and

learning in today's schools and they share an interest in exploring the influences of knowledge construction in the moment and over time. Teaching and learning are human processes interrelated and dynamic. We assembled this collection to unpack what it means to teach and to learn, teasing out some of the implications and challenges of such complicated educational processes that are often misconstrued as causal or linear. As educators currently residing in the United States, we find this a particularly pressing agenda given the current focus on common core standards and reducing teaching and learning to conceptual and pedagogical step-by-step procedures. Our primary concern in putting together this book was to provide a conceptual and political foundation from which to construct and defend understandings and practices of teaching and learning that embody the complexity of educational endeavors and relationships. The isolation of teaching from learning and the othering of both teachers and students, one from the other, suggests that knowledge is synonymous with information. This book challenges such assumptions. The project underlying this text can be seen as a means of rethinking how teachers and students' perspectives of practice and curriculum influence what learning opportunities are provided to students. Chapters written by established and new thinkers in the field of education demonstrate the ways in which teachers reformulate relationships between teaching and learning in school settings. Our second objective is to examine local constructions of knowledge over time and how those constructions are consequential for teacher and student learning. By examining patterns of practice and processes of knowledge construction in elementary, secondary, and undergraduate classrooms, the authors of these chapters lay a foundation for examining commonalities and differences in the construction of knowledge and practices across educational levels, disciplines, and in school and out-of-school settings.

From Girl to Goddess Valerie Estelle Frankel, 2014-01-10. Many are familiar with Joseph Campbell's theory of the hero's journey, the idea that every man from Moses to Hercules grows to adulthood while battling his alter ego. This book explores the universal heroine's journey as she quests through world myth. Numerous stories from cultures as varied as Chile and Vietnam reveal heroines who battle for safety and identity, thereby upsetting popular notions of the passive, gentle heroine. Only after she has defeated her dark side and reintegrated can the heroine become the bestower of wisdom, the protecting queen, and arch-crone. Instructors considering this book for use in a course may request an examination copy [here](#).
