Critical English for Academic Purposes Sarah Benesch,2001-03-01 Critical English for Academic Purposes Theory Politics and Practice is the first book to combine the theory and practice of two fields English for academic purposes and critical pedagogy English for academic purposes EAP grounds English language teaching in the cognitive and linguistic demands of academic situations tailoring instruction to specific rather than general purposes Critical pedagogy acknowledges students and teachers subject positions that is their class race gender and ethnicity and encourages them to question the status quo Critical English for academic purposes engages students in the types of activities they are asked to carry out in academic classes while inviting them to question and in some cases transform those activities as well as the conditions from which they arose It takes into account the real challenges non native speakers of English face in their discipline specific classes while viewing students as active participants who can help shape academic goals and assignments Critical English for Academic Purposes Theory Politics and Practice relates English for academic purposes and critical pedagogy revealing and problematizing the assumptions of both fields provides theoretical and practical responses to academic syllabi and other institutional demands to show that teachers can both meet target demands and take students subjectivities into account in a climate of negotiation and possibility offers rights analysis as a critical counterpart to needs analysis discusses the politics of coverage in lecture classes and proposes alternatives and features teaching examples that address balancing the curriculum for gender building community in an EAP class of students from diverse economic and social backgrounds students rights and organizing students to change unfavorable conditions This book is intended for undergraduate and graduate courses for preservice and in service ESL and EAP teachers It is also a professional book for those interested in critical approaches to teaching and EAP Bulletin - Bureau of Education United States. Bureau of Education,1910 **Monthly Catalog of**

United States Government Publications ,2001 *Resources in Education* ,2001 **Catalog of ERIC Clearinghouse Publications** ,19?? **Art and Intimacy** Ellen Dissanayake,2015-08-03 To Ellen Dissanayake the arts are biologically

evolved propensities of human nature their fundamental features helped early humans adapt to their environment and reproduce themselves successfully over generations In Art and Intimacy she argues for the joint evolutionary origin of art and intimacy what we commonly call love It all begins with the human trait of birthing immature and helpless infants To ensure that mothers find their demanding babies worth caring for humans evolved to be lovable and to attune themselves to others from the moment of birth The ways in which mother and infant respond to each other are rhythmically patterned vocalizations and exaggerated face and body movements that Dissanayake calls rhythms and sensory modes Rhythms and modes also give rise to the arts Because humans are born predisposed to respond to and use rhythmic modal signals societies

everywhere have elaborated them further as music mime dance and display in rituals which instill and reinforce valued cultural beliefs Just as rhythms and modes coordinate and unify the mother infant pair in ceremonies they coordinate and unify members of a group Today we humans live in environments very different from those of our ancestors They used ceremonies the arts to address matters of serious concern such as health prosperity and fecundity that affected their survival Now we tend to dismiss the arts to see them as superfluous only for an elite But if we are biologically predisposed to participate in artlike behavior then we actually need the arts Even or perhaps especially in our fast paced sophisticated modern lives the arts encourage us to show that we care about important things **Cold War America, 1946 To 1990**
