1859 1905 and a study of the processes by which scientific knowledge and associated instrumentation were transferred from
Europe to the United States and from the east coast to the American frontier The authors trace Brace s first class scientific
education in Boston Baltimore and Berlin and they follow his career as he founded and built a department of physics at the
University of Nebraska and pursued a research program at that institution In doing so they show how Brace s career brought
him into the vanguard of the American scientific community and they illuminate the developmental process of departments of
science at the newly founded land grant colleges
