Gentrification in Neighbourhood Development Yvonne Franz,2015 English summary This book aims at a comprehensive understanding of diverging urban rejuvenation practices and gentrification processes in New York City Berlin and Vienna Regulative and supportive mechanisms at policy and planning level have been identified through a comparative

analysis of urban rejuvenation policies and actors embeddedness Those mechanisms enable the development of contextualised parameters that support projection attempts of future gentrification processes at the neighbourhood level As a result a reflective understanding of gentrification and policy recommendations are drawn at a general level The recommendations refer to the political understanding of gentrification and its role in urban development This analysis argues that cities should include gentrification as a driving force in urban policies However processes of gentrification require mediation and monitoring by public authorities who should be aware of the risk of social fragmentation As a consequence cities should move towards a social entrepreneurial city that moves beyond the simple distribution of financial resources and responsibilities and ensures social responsibility within the force field of ongoing neoliberal forces

German description Diese Publikation zielt auf ein umfassendes Verstandnis unterschiedlicher Stadterneuerungspraktiken die sich auf die Erhaltung der baulichen Substanz beziehen sowie Gentrification Prozesse in New York City Berlin und Wien ab Dabei wird eine vergleichende Analyse von politischen Strategien und involvierten AkteurInnen angewendet um regulierende und unterstützende Mechanismen auf der politischen und stadtplanerischen Ebene zu identifizieren Diese Mechanismen ermöglichen die Entwicklung von kontextualisierten Parametern Als Ergebnis dienen eine reflektierte Betrachtung von Gentrification und Empfehlungen die auf einer stadübergreifenden Ebene Entwicklungsleitlinien für den politischen Umgang mit Gentrification und dessen Rolle in der Stadtentwicklung aufzeigen

The Right to Water Farhana Sultana,Alex Loftus,2013-10-18 The right to clean water has been adopted by the United Nations as a basic human right Yet how such universal calls for a right to water are understood negotiated experienced and struggled over remain key challenges The Right to Water elucidates how

universal calls for rights articulate with local historical geographical contexts governance politics and social struggles thereby highlighting the challenges and the possibilities that exist Bringing together a unique range of academics policy makers and activists the book analyzes how struggles for the right to water have attempted to translate moral arguments over access to safe water into workable claims This book is an intervention at a crucial moment into the shape and future direction of struggles for the right to water in a range of political geographic and socio economics contexts seeking to be pro active in defining what this struggle could mean and how it might be taken forward in a far broader transformative politics The Right to Water engages with a range of approaches that focus on philosophical legal and governance perspectives before seeking to apply these more abstract arguments to an array of concrete struggles and case studies In so doing the book builds on empirical examples from Africa Asia Oceania Latin America the Middle East North America and the European Union

Recreating Utopia in the Desert Hans A. Baer,1988-01-01 Recreating Utopia in the Desert A Sectarian Challenge to Modern Mormonism is the account of a millenarian sect officially known as the Aaronic Order one of the main splinter groups of the Mormon Church Their story tells us much about the social tensions particularly along class lines that have emerged in Mormonism The Aaronic Order or Levites emerged as the Mormon Church evolved from a religious utopia in the Midwest to a near nation state in the Intermountain West to finally an international theocratic corporation Drawing upon the concept of revitalization movements the Levite sect is viewed as an attempt by working class Mormons to resurrect the communitarian ideals they perceived as characteristic of earlier nineteenth century Mormonism From their beginnings in the Depression the Levites have developed a series of cooperative and communal ventures in Utah based upon the revelations of Maurice Glendenning We see in the Levites the seemingly inevitable processes of institutionalization and fission characterizing revitalization movements that survive By explaining the impetus for the development of sectarian groups such as the Levites the author offers important insights for the discussion of religious communitarianism and schismatic movements in contemporary religion
