Appositions Of Jacques Derrida And Emmanuel Levinas:

Appositions of Jacques Derrida and Emmanuel Levinas John Llewelyn, 2002-01-10 This is a book of scintillating intelligence a book whose range of references whose extraordinary ethical sensibility and linguistic creativity set a standard for philosophy that few if any contemporary thinkers other than Derrida and Levinas themselves can match On every page there is Llewellyn's sparkle David Wood If not simple opposition or simple juxtaposition what is the relation between the writings to which Derrida and Levinas appose their signatures What would each endorse in the writings of the other What is it to sign and endorse How does one assume responsibility and how does one avoid assuming it These are some of the probing questions that the prominent Continental philosopher John Llewelyn takes up in Appositions which brings together and synthesizes 15 essays written during the past 20 years This book by a powerfully original thinker and first rate interpreter is essential reading for all those interested in the writings of Derrida and Levinas and in the ways in which their thinking intersects

A Propos, Levinas David Appelbaum, 2013-07-02 Rejects Levinas's argument for the preeminence of ethics in philosophy Imagine listening at a keyhole to a conversation with the task of transcribing it and the result may be a text similar to the present one from Part I Stagework In a series of meditations responding to writings by Emmanuel Levinas David Appelbaum suggests that a flawed grammar warrants Levinas to speak of language at the service of ethics It is the nature of performance that he mistakes Appelbaum articulates this flaw by performing in writing the act of the philosophical mind at work Incorporating the voices of other thinkers in particular Levinas's contemporaries Jacques Derrida and Maurice Blanchot sometimes clearly sometimes indistinctly Appelbaum creates on these pages a kind of soundstage upon which illustrations appear of what he terms a rhetorical aesthetic which would reestablish rhetoric rules for giving voice and not ethics as the correct matrix for understanding the otherness and beyond being that Levinas seeks in his work

Emmanuel Levinas' Conceptual Affinities with Liberation Theology Alain Mayama, 2010 Emmanuel Levinas Conceptual Affinities with Liberation Theology analyzes Levinas work in relation to two important liberation theologians Gustavo Guti rrez and Jon Sobrino whose scholarship like his needs to be brought into greater contemporary debate about the subject's encounter with the other More specifically this book argues that for Levinas Guti rrez and Sobrino commitment to the neighbor is the necessary context for understanding God They posit the human other as the possibility of the subject's subjectivity To be human is to act with love toward one's neighbor Thus the author articulates the possibility of reading Levinas philosophy as a revalidation of one of the truths of Christianity the concern for the humanity of every human person as expressed in Christian theology in general and liberation theology in particular In order to show the relevance of Levinas philosophy for Christian theology in general the author discusses three Christian scholars Enrique Dussel Jean Luc Marion and Michael Purcell Although they challenge some aspects of Levinas philosophy they nevertheless see its significance for Christian theological anthropology The discussion concludes by proposing Levinas philosophy and liberation theology's turn to the neighbor as

significant for addressing contemporary socio political and ethnic conflicts in sub Saharan Africa *Derrida's 'Writing and Difference'* Sarah Wood,2009-07-08 Writing and Difference is widely perceived to be an excellent starting place for those new to Derrida and this Reader s Guide is the perfect accompaniment to the study of one of the most important philosophical works of the 20th Century **Lévinas and the Wisdom of Love** Corey Beals,2007 Distinguishing love from other types of wisdom Beals argues that Levinas s wisdom of love is a real possibility one which grants priority to ethics over ontology Richard A Cohen Isaac Swift Distinguished Professor of Judaic Studies University of North Carolina at Charlotte

Subversive Itinerary Shannon Bell,Peter Keith Kulchyski,2013-01-01 Subversive Itinerary investigates the theoretical evolution of the influential political theorist Gad Horowitz as well as the historical impact of his ideas on Canadian life and letters Bringing together dynamic new works by both established and emerging scholars along with three new articles by Horowitz himself this volume examines the concepts he developed and extends his approach beyond the current historical moment The book includes a history of Horowitz s engagements as a public intellectual through appraisals of his early mid and late career contributions from the sixties to the present day Along the way the contributors present innovative new work in Canadian political thought continental theory Jewish philosophy Buddhism and radical general semantics Subversive Itinerary demonstrates how Horowitz s itinerary delivers invaluable tools for understanding issues of critical importance today The Cambridge Companion to Levinas Simon Critchley,Robert Bernasconi,2002-07-25 A convenient and accessible guide to Levinas first published in 2002 which emphasises the interdisciplinary significance of his work **The Phenomenology of Moral Normativity** William Smith,2013-02-28 Why should I be moral Philosophers have long been concerned with the legitimacy of morality s claim on us especially its ostensible aim to motivate certain actions of all persons unconditionally This problem of moral normativity has received extensive treatment in analytic moral theory but little attention has been paid to the potential contribution that phenomenology might make to this central debate in metaethics In *The Phenomenology of Moral Normativity* William H Smith takes up the question of morality s legitimacy anew drawing contemporary moral philosophers into conversation with the phenomenological philosophy of Husserl Heidegger and Levinas Utilizing a two part account of moral normativity Smith contends that the ground of morality itself is second personal rooted in the ethical demand intrinsic to other persons while the ground for particular moral obligations is first personal rooted in the subject s avowal or endorsement of certain moral norms within a concrete historical situation Thus Smith argues phenomenological analysis allows us to make sense of an idea that has long held intuitive appeal but that modern moral philosophy has been unable to render satisfactorily namely that the normative source of valid moral claims is simply other persons and what we owe to them *Wittgenstein and Levinas* Bob Plant,2005-02-16 Wittgenstein and Levinas examines the oft neglected relationship between the philosophies of two of the most important and notoriously difficult thinkers of the twentieth century By bringing the work of each philosopher to bear upon the other Plant navigates between the antagonistic

intellectual traditions that they helped to share The central focus on the book is the complex yet illuminating interplay between a number of ethical religious themes in both Wittgenstein's mature thinking and Levinas's distinctive account of ethical responsibility

The Future of Political Theology Péter Losonczi, Mika Luoma-aho, Aakash Singh, 2016-03-16 Recent shifts in the contemporary cultural political and religious landscape are engendering intensive attention concerning political theology New trends and traditional ideas equally colour these movements Given that a medley of recent books and articles have exhaustively treated both the history and the current resurgence of political theology we now find ourselves faced with the task of reinventing and redefining the future of political theology This book presents a rich overview of fresh contemporary theoretical approaches uniquely prioritizing the prospects of the future of political theology but also making room for significant interventions from philosophy and political theory Including prominent essays on Judaic Islamic Buddhist and Christian perspectives this book balances elements from post modern theology with more classical as well as anti post modern approaches

The Trace of the Face in the Politics of Jesus John Patrick Koysles, 2013-06-26 Taking its cue from Mark Noll's regret that John Howard Yoder refrained from a fuller engagement with the Western philosophical tradition this book is an effort to explore the possibilities inherent in that conversation It develops a dialogue between Yoder and the French philosopher Emmanuel Levinas The placement of Yoder's work alongside of Levinas' conception of otherness cashes out the embedded hope in Noll's remarks by demonstrating the continuing relevancy of Yoder's thought for current Christian sociopolitical discourse This book is especially aimed at those who seek to continue exploring the themes and ideas of John Howard Yoder

Radical Atheism Martin Hägglund, 2008 Radical Atheism challenges the religious appropriation of Derrida's work and offers a compelling new account of his thinking on time and space life and death good and evil self and other

God and the Other J. Aaron Simmons, 2011-04-12 In this book the author suggests how Continental philosophy of religion can intersect with political philosophy environmental philosophy and theories of knowledge

Derrida on Time Joanna Hodge, 2007-09-12 This is a comprehensive investigation into the theme of time in the work of Jacques Derrida and shows how temporality is one of the hallmarks of his thought Drawing on a wide array of Derrida's texts Joanna Hodge compares and contrasts Derrida's arguments concerning time with those of Kant Husserl Augustine Heidegger Levinas Freud and Blanchot argues that Derrida's radical understanding of time as non linear or irregular is essential to his aim of blurring the distinction between past and present biography and literature philosophical and religious meditation and the nature of the self explores the themes of death touch and transcendence to argue that if considered under the theme of temporality there is more continuity to Derrida's thought than previously considered

Badiou and Derrida Antonio Calcagno, 2007-06-01 This exciting new book makes a major contribution to Continental philosophy bringing together for the first time the crucial work on politics by two giants of contemporary French philosophy Jacques Derrida and Alain Badiou Derrida has long been recognised as one of the most influential and indeed controversial thinkers in contemporary

philosophy and Badiou is fast emerging as a central figure in French thought as well as in Anglo American philosophy his magnum opus Being and Event and its long awaited sequel Logics of Worlds have confirmed his position as one of the most significant thinkers working in philosophy today Both philosophers have devoted a substantial amount of their oeuvre to politics and the question of the nature of the political Here Antonio Calcagno shows how the political views of these two major thinkers diverge and converge thus providing a comprehensive exposition of their respective political systems Both Badiou and Derrida give the event a central role in structuring politics and political thinking and Calcagno advances a theory about the relationship between political events and time that can account for both political undecidability and decidability This book navigates some very intriguing developments in Continental thought and offers a clear and fascinating account of the political theories of two major contemporary thinkers

Phenomenology or Deconstruction? Christopher Watkin, 2009-03-03 Phenomenology or Deconstruction challenges traditional understandings of the relationship between phenomenology and deconstruction through new readings of the work of Maurice Merleau Ponty Paul Ricur and Jean Luc Nancy A constant dialogue with Jacques Derrida's engagement with phenomenological themes provides the impetus to establishing a new understanding of being and presence that exposes significant blindspots inherent in traditional readings of both phenomenology and deconstruction In reproducing neither a stock phenomenological reaction to deconstruction nor the routine deconstructive reading of phenomenology Christopher Watkin provides a fresh assessment of the possibilities for the future of phenomenology along with a new reading of the deconstructive legacy Through detailed studies of the philosophy of Merleau Ponty Ricur and Nancy he shows how a phenomenological tradition much wider and richer than Husserlian or Heideggerian thought alone can take account of Derrida's critique of ontology and yet still hold a commitment to the ontological This new reading of being and presence fundamentally re draws our understanding of the relation of deconstruction and phenomenology and provides the first sustained discussion of the possibilities and problems for any future deconstructive phenomenology

Romantic Revelations Chris Washington, 2019-09-22 Romantic Revelations shows that the nonhuman is fundamental to Romanticism's political responses to climatic catastrophes Exploring what he calls post apocalyptic Romanticism Chris Washington intervenes in the critical conversation that has long defined Romanticism as an apocalyptic field Apocalypse means the revelation of a perfected world which sees Romanticism's back to nature environmentalism as a return to paradise and peace on earth Romantic Revelations however demonstrates that the destructive climate change events of 1816 the year without a summer changed Romantic thinking about the environment and the end of the world Their post apocalyptic visions correlate to the beginning of the Anthropocene the time when humans initiated the possible extinction of their own species and potentially the earth Rather than constructing paradises where humans are reborn or human existence ends the later Romantics are interested in how to survive in the ashes after great social and climatic global disasters Romantic Revelations argues that Percy Shelley Mary Shelley Lord Byron John Clare and

Jane Austen sketch out a post apocalyptic world that in contrast to the sunnier Romantic narratives is paradoxically the vision that offers us hope In thinking through life after disaster Washington contends that these authors craft an optimistic vision of the future that leads to a new politics

Justice and the Ethics of Legal Interpretation Susanna Hovinheimo,2013-03-01

Justice and the Ethics of Legal Interpretation addresses how it is that legal texts laws statutes and regulations can and do have meaning Conventionally legal decisions are justified with reference to language But since language is always open to interpretation and so cannot fully justify any legal decision there is a responsibility that is inherent in legal interpretation itself In this book Susanna Lindroos Hovinheimo uncovers and analyses this responsibility which she argues is not limited by the text that is being interpreted and through its mediation by the legal system It is not simply a responsibility to read well it implies a responsibility for the effects of the interpretation in a particular situation and with regard to those whose case is being decided Ultimately it is a responsibility to do justice It is these two aspects of responsibility that are conceptualised here as the two key dimensions of the ethics of legal interpretation the textual and the situational Drawing on the work of Wittgenstein Gadamer Derrida and Levinas Justice and the Ethics of Legal Interpretation offers a fresh approach to long standing questions about language and meaning in law It will be of enormous value to those with interests in jurisprudence and legal theory

Jacques Derrida's Ghost David Appelbaum,2009-07-01 A spirited reading of Derrida s view of ethics as transcendental and performative

Thinking Difference with Heidegger and Levinas Rozemund Uljée,2020-06-01

Tracing the relationship between truth and justice as articulated by Heidegger and Levinas Rozemund Ulj e presents the relation between the two thinkers as a subtle profound and complex rapport which includes both their proximity and radical difference This rapport is conceived not as a confrontation but rather as a transformation as Levinas s notion of justice does not renounce Heidegger s account of truth and its deployment Thinking Difference with Heidegger and Levinas shows how the ethical relation transforms the essence and task of philosophy in its entirety since it shifts the orientation of philosophy and the task of thinking from its concern with truth as ground or foundation to a question of justice As a result philosophy is no longer riveted to Being and its truth but answers to the call for justice and must be conceived of as infinite commencement where its impossibility to totalize meaning ensures that it remains open to the alterity of transcendence
