Approaching Greek:

The Cambridge Companion to Greek Lyric Felix Budelmann, 2009-04-30 Introduction to this wide ranging body of poetry which includes work by such famous poets as Sappho and Pindar Articulating Resistance under the Roman Empire Daniel Jolowicz, Jaś Elsner, 2023-01-05 This book explores the many strategies by which elite Greeks and Romans resisted the cultural and political hegemony of the Roman Empire in ways that avoided direct confrontation or simple warfare By resistance is meant a range of responses including opposition subversion antagonism dissent and criticism within a multiplicity of cultural forms from identity assertion to polemic Although largely focused on literary culture its implications can be extended to the world of visual and material culture Within the volume a distinguished group of scholars explores topics such as the affirmation of identity via language choice in epigraphy the use of genre dialogue declamation biography the novel to express resistant positions identity negotiation in the scintillating and often satirical Greek essays of Lucian and the place of religion in resisting hegemonic power **The Pursuit of Truth** William McNeill, 2005-02-01 William H McNeill's seminal book *The Rise of the West A History of the Human Community* 1963 received the National Book Award in 1964 and was later named one of the 100 best nonfiction books of the twentieth century by the Modern Library From his post at the University of Chicago McNeill became one of the first contemporary North American historians to write world history seeking a broader interpretation of human affairs than prevailed in his youth This candid intellectual memoir from one of the most famous and influential historians of our era *The Pursuit of Truth* charts the development of McNeill's thinking and writing over seven decades At the core of his worldview is the belief that historical truth does not derive exclusively from criticizing paraphrasing and summarizing written documents nor is history merely a record of how human intentions and plans succeeded or failed Instead McNeill believes that human lives are immersed in vast overarching processes of change Ecological circumstances frame and limit human action while in turn humans have been able to alter their environment more and more radically as technological skill and knowledge increased McNeill believes that the human adventure on earth is unique and that it rests on an unmatched system of communication The web of human communication whether spoken written or digital has fostered both voluntary and involuntary cooperation and sustained behavioral changes permitting a single species to spread over an entire planet and to alter terrestrial flows of energy and ideas to an extraordinary degree Over the course of his career as a historian teacher and mentor McNeill expounded the range of history and integrated it into an evolutionary worldview uniting physical biological and intellectual processes Accordingly *The Pursuit of Truth* explores the personal and professional life of a man who affected the way a core academic discipline has been taught and understood in America The Lost Second Book of Aristotle's Poetics Walter Watson, 2020-03-04 Aristotle's lost wisdom on comedy and catharsis come to life in this philosopher's interpretation of recovered ancient writings Aristotle's *Poetics* was the first philosophical treatise to propound a theory of literature But we know that what remains of this important text is incomplete

In the existing material Aristotle tells us that he will speak of comedy address catharsis and give an analysis of what is funny but these promised chapters are missing Now philosopher Walter Watson offers a new interpretation of the lost second book of Aristotle's Poetics A document known as the Tractatus Coislinianus first recovered in the Biblioteque Nationale in Paris in 1839 appears to be a summary of Aristotle's second book Based on Richard Janko's philological reconstruction Watson mounts a compelling philosophical argument that gives revealing context to this document and demonstrates its hidden meanings Watson renders lucid and complete explanations of Aristotle's ideas about catharsis comedy and a summary account of the different types of poetry ideas that influenced not only Cicero's theory of the ridiculous but also Freud's theory of jokes humor and the comic Here at last Aristotle's lost second book is found again

Classical Philosophy: Aristotle: metaphysics, epistemology, natural philosophy Terence Irwin, 1995 **"The Poor, the Crippled, the Blind, and the Lame"** Louise A. Gosbell, 2018-08-03 The New Testament gospels feature numerous social exchanges between Jesus and people with various physical and sensory disabilities Despite this traditional biblical scholarship has not seen these people as agents in their own right but existing only to highlight the actions of Jesus as a miracle worker In this study Louise A Gosbell uses disability as a lens through which to explore a number of these passages anew Using the cultural model of disability as the theoretical basis she explores the way that the gospel writers as with other writers of the ancient world used the language of disability as a means of understanding organising and interpreting the experiences of humanity Her investigation highlights the ways in which the gospel writers reinforce and reflect as well as subvert culturally driven constructions of disability in the ancient world *Laughing at domestica facta* Giuseppe Eugenio Rallo, 2024-01-22 In this monograph the author embarks on a captivating journey to shed fresh light on the togata a mid Republican theatrical genre which survives only in fragments The book seeks to answer pressing questions surrounding the togata s significance in identity construction during the middle Republic from a literary and cultural perspective Delving deep into the fragmentary textual remains of the togata the book explores how the Roman elite fashioned their identity The author challenges the notion of monolithic identity construction and explores the diverse forms of identity within the togata offering a new perspective on the subject This study thus positions the togata as a vital source for discerning the characteristics and beliefs by which the Romans distinguished themselves and their culture from others By examining how Romans perceived themselves their ideas about different social groups and their literary and cultural ties to earlier traditions this book aims to transform our understanding of the togata s role in Roman drama **Russian Literature and the Classics** Peter I. Barta, David H. J. Larmour, Paul Allen Miller, 2013-12-02 Russian Literature and the Classics attempts to fill a gap To date there has been no book length systematic study of the impact of antiquity on Russian literature and culture While by no means claiming to offer a comprehensive approach the authors focus on various aspects of the influence which the Classics have had on Russian literature at particularly significant junctures the beginning of the nineteenth century the age of the great Russian realist novel the Silver Age Stalin s terror the Thaw after 1956 and the period just before the collapse of Soviet society In their introductory essay the editors offer an overview of the Classical Tradition In it they provide an insight into the contrasting ways in which that tradition manifested itself in the literatures of Western Europe and of Russia **The Oxford Handbook of Hellenic Studies** George Boys-Stones, Barbara Graziosi, Phiroze Vasunia, 2009-08-20 The Oxford Handbook of Hellenic Studies is a unique collection of some seventy articles which together explore the ways in which ancient Greece has been is and might be studied It is intended to inform its readers but also importantly to inspire them and to enable them to pursue their own research by introducing the primary resources and exploring the latest agenda

for their study The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today **Proceedings of the 20th International Congress of Papyrologists, Copenhagen, 23-29 August, 1992** Adam Bülow-Jacobsen, 1994 This volume presents over ninety papers in English French German and Italian from the Congress held at Copenhagen in 1992
