Islamist Politics in Iraq After Saddam Hussein Graham E. Fuller, 2003 Roman Catholics and Shi'i Muslims James A.

Bill, John Alden Williams, 2003-08-01 This timely work explores two influential religious traditions that might seem to have little in common Twelver Shi'i Islam and Roman Catholicism With the worldwide rise of religious fundamentalism it is

imperative that religious movements such as Chri **Saudi Clerics and Shi'a Islam** Raihan Ismail, 2016-02-05 The Saudi ulama are known for their strong opposition to Shi'a theology Shi'a communities in Saudi Arabia and external Shi'a influences such as Iran and Hezbollah Their potent hostility combined with the influence of the ulama within the Saudi state and the Muslim world has led some commentators to blame the Saudi ulama for what they see as growing sectarian conflict in the Middle East However there is very little understanding of what reasoning lies behind the positions of the ulama and there is a significant gap in the literature dealing with the polemics directed at the Shi'a by the Saudi religious establishment In *Saudi Clerics and Shi'a Islam* Raihan Ismail looks at the discourse of the Saudi ulama regarding Shiism and Shi'a communities analysing their sermons lectures publications and religious rulings The book finds that the attitudes of the ulama are not only governed by their theological convictions regarding Shiism but are motivated by political events involving the Shi'a within the Saudi state and abroad It also discovers that political events affect the intensity and frequency of the rhetoric of the ulama at any given time

Islamic Minorities of South Asia Nadeem Hasnain, 2025-09-05 Islam and Islamicate South Asia have generated interest since 9 11 as never before However Islamic Minorities specifically is still a relatively neglected area of study in South Asian Islam It may be due to the reason that there has been a tendency to look at Islam as a monolithic faith and Muslims as a monolithic population to the western world This book focuses on such Islamic Minorities as the Shias dominant Isna Ashari Twelver Shias Ismaili Khoja Dawoodi Bohra and Ahmedia Qadiyani communities and looks at them from the perspective of their interaction with Hindu cultures and traditions Written in lucid language from

a sociological perspective it should be an important contribution to the field of Lived Islam or Islam in Practice This book will be invaluable to all those interested in the religion society and culture of Muslim South Asia *Militancy and Political Violence in Shiism* Assaf Moghadam,2011-07-21 This book is the first systematic assessment of current trends and patterns of militancy in Shii communities in the Middle East and South Asia specifically in Iran Iraq but also in Lebanon Saudi Arabia Pakistan Afghanistan Kuwait and Bahrain It addresses two key questions What trends emerge in the types of militancy Shii actors employ both inside and outside of the Shii heartland And what are the main drivers of militancy in the Shii community

The Non-Western World Pradyumna P. Karan,2004-12-30 This new introductory textbook provides an integrated up to date introduction to the lands people and cultures of the non Western world *Revolutionary Contagion and International Politics* Chad E. Nelson,2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In *Revolutionary Contagion* Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion

The Arabian Frontier of the British Raj James Onley,2007-11-22 The Arabian Frontier of the British Raj is a study of one of the most forbidding frontier zones of Britain s Indian Empire The Gulf Residency responsible for Britain s relationship with Eastern Arabia and Southern Persia was part of an extensive network of political residencies that surrounded and protected British India Based on extensive archival research in both the Gulf and Britain this book examines how Britain s Political Resident in the Gulf and his very small cadre of British officers maintained the Pax Britannica on the waters of the Gulf protected British interests throughout the region and managed political relations with the dozens of Arab rulers and governors on both shores of the Gulf James Onley looks at the secret to the Gulf Residency s effectiveness the extent to which the British worked within the indigenous political systems of the Gulf He examines the way in which Arab rulers in need of protection collaborated with the Resident to maintain the Pax Britannica while influential men from affluent Arab Persian and Indian merchant families served as the Resident s native agents compradors in over half of the political posts within the Gulf Residency **Political Islam, World Politics and Europe** Bassam Tibi,2014-07-11 The new and

updated edition of *Political Islam World Politics and Europe* focusses on the shift within political Islam in light of 9 11 and the events of the Arab Spring from a jihadist struggle to institutional Islamism Refuting what has often been referred to by commentators as the moderation of Islamism the second edition of this book introduces the concept of institutional Islamism a process which Tibi argues was accelerated in the aftermath of the Arab Spring Both jihadist and institutional Islamism pursue the same goal of an Islamist state but disagree fundamentally on the strategy for achieving it Whilst jihadism is committed to the idea of a violent Islamic world revolution institutional Islamism embraces political institutions as a means to an end Turning to the events of the Arab Spring in Tunisia Libya and Egypt this book attempts to determine whether an abandonment of violence is enough to underpin a shift to genuine democracy Analysing the fall of Morsi in particular Tibi questions what lessons can be learnt from his presidency and argues that this event will not change the overall trend of development from jihadism to institutional Islamism A timely addition to existing literature this book will be of interest to students and scholars studying Middle Eastern and European Politics Political Islam and International Relations

The Twelver Shia in Modern Times Werner Ende, Rainer Brunner, 2021-07-26 This volume grown out of an international conference at Freiburg University in 1999 deals with various aspects of Shiite Islam since the 18th century It is divided into two major parts the first of which is dedicated to traditional institutions of theology and learning and their transformation in modern times The second part treats internal debates and the activities of Shiite dissidents showing that Shiism is far from being uniform Ideological and political developments in the 20th century and especially the Islamic Revolution in Iran have shaped the image of modern Shiism more than any other tendencies and are therefore also discussed in greater detail in Parts three and four This book reflects the state of the art in this field of Islamic studies its 21 contributions covering three centuries and a vast geographical range

The Changing Security Dynamics of the Persian Gulf Kristian Coates Ulrichsen, 2018-02-01 The contradictory trends of the post Arab Spring landscape form both the backdrop to and the focus of this volume on the changing security dynamics of the Persian Gulf defined as the six GCC states plus Iraq and Iran The political and economic upheaval triggered by the uprisings of 2011 and the rapid emergence of the Islamic State of Iraq and Syria in 2014 have underscored the vulnerability of regional states to an intersection of domestic pressures and external shocks The initial phase of the uprisings has given way to a series of messy and uncertain transitions that have left societies deeply fractured and ignited violence both within and across states The bulk of the protests with the notable exception of Bahrain occurred outside the Gulf region but Persian Gulf states were at the forefront of the political economic and security response across the Middle East This volume provides a timely and comparative study of how security in the Persian Gulf has evolved and adapted to the growing uncertainty of the post 2011 regional landscape

The International Relations of the Contemporary Middle East Tareq Y. Ismael, Glenn E. Perry, 2013-10-01 The Middle East a few decades ago was seen to be an autonomous subsystem of the global international political system More recently the region has been subordinated to the

hegemony of a singular superpower the US bolstered by an alliance with Israel and a network of Arab client states The subordination of the contemporary Middle East has resulted in large part from the disappearance of countervailing forces for example global bipolarity that for a while allowed the Arab world in particular to exercise a modicum of flexibility in shaping its international relations The aspirations of the indigenous population of the Middle East have been stifled by the dynamics of the unequal global power relationships and domestic politics of the countries of the region are regularly subordinated to the prerogatives of international markets and the strategic competition of the great powers Employing the concept of imperialism defined as a pattern of alliances between a center rulers in the Center developed country and a center client regime in the Periphery underdeveloped country as an overall framework to analyse the subordination of the region this book is essential reading for students and scholars of the Middle East International Relations and Politics in general **Shi'i**
