Arab World Studies Notebook New Only:

The Book in the Islamic World George Nicholas Atiyeh, 1995-01-01 This book explores Muslims conception of themselves as the people of the book and explains the multifaceted meanings of this concept Published jointly with the Library of Congress it is an illustrated history of the book and the written word in the Islamic world

The Trouble with Textbooks Gary A. Tobin, Dennis R. Ybarra, 2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history and geography textbooks widely used in America s elementary and secondary classrooms contain some of the very same inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed Substitute another area how we teach American history Western civilization or comparative religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life instead disparage some groups and teach historical distortions With millions of young people using these textbooks each year the denigration of some should be a concern for all

Arab Voices James Zogby, 2005-09-23 The Arab World is a region that has been vastly misunderstood in the West Arab Voices asks the questions collects the answers and shares the results that will help us see Arabs clearly The book will bring into stark relief the myths assumptions and biases that hold us back from understanding this important people Here James Zogby debuts a brand new comprehensive poll bringing numbers to life so that we can base policy and perception on the real world rather than on a conjured reality Based on a new poll run by Zogby International exclusively for this book some of the surprising results revealed include Despite the frustration with the peace process and the number of wars of the past few years 74% of Arabs still support a two state solution to the Palestinian Israeli conflict And over one third of Lebanese Saudis and Jordanians think that their governments should do more to advance peace Despite wars in and around their region and the worldwide economic crisis when asked Are you better off than you were 4 years ago 42% of those polled say they are better off 19% worse off Arabs like American people 59% favorable rating values 52% and products 69% giving them all high ratings And Canada gets high favorability ratings everywhere an overall rating of 55% favorable and 32% unfavorable However Arabs overwhelmingly rate American society more violent and war like 77% or

less respectful of the rights of others 78% than their own society Why Because of the Iraq war and continuing fallout from Abu Ghraib Guantanamo and the treatment of Arab and Muslim immigrants and visitors to the United States What type of TV show do Saudis and Egyptians prefer to watch The answer is Movies which draws over 50% of the first and second choice votes In Morocco the top rated shows are soap operas and music and entertainment programs drawing almost two thirds of the first and second choice votes Religious programs are near the bottom of the list of viewer preferences garnering less than 10% of votes in all three countries

Studying Islam in the Arab World Sari Hanafi, 2023-12-22 Addressing the rupture between religious and social sciences in Arab universities this book provides a critical assessment of the curricula of Shariah and Islamic Studies departments across the Arab World arguing for increased interdisciplinary dialogue Based on over 250 interviews with university students and teachers this study is the sum of five years of field research observing the curricula and teaching styles of colleges in the Shariah sciences The author provides critical insight into these curricula by focusing on case studies in Lebanon and Jordan Morocco Kuwait and Qatar and in Malaysia In doing so the book aims to answer the following questions What is the aim of religious education Does it aim to create people who specialize solely in religious affairs or does it aim to form the student according to a comprehensive human framework What is the nature of the relationship between the social sciences and the Shariah sciences The book concludes by examining three pioneering institutions which have introduced alternative curricula in teaching Shariah studies The book has wide geographic and ideological coverage and will appeal to university students academics and policy analysts working across a range of disciplines including the philosophy of knowledge Islamic law and education and sociology
