*Arabesque without End* Anne Leonard, 2021-10-05 Featuring multidisciplinary research by an international team of leading scholars this volume addresses the contested aspects of arabesque while exploring its penchant for crossing artistic and cultural boundaries to create new forms Enthusiastically imported from its Near Eastern sources by European artists the freely flowing line known as arabesque is a recognizable motif across the arts of painting music dance and literature From the German Romantics to the Art Nouveau artists and from Debussy's compositions to the serpentine choreographies of Loie Fuller the chapters in this volume bring together cross disciplinary perspectives to understand the arabesque across both art historical and musicological discourses

**In Praise of Nonsense** Winfried Menninghaus, 1999-10 Ludwig Tieck's 1797 rewriting of Charles Perrault's famous Bluebeard tale 1697 explicitly claims to be an arabesque book without any sense and coherence The author's close reading of this capricious narrative based on Kant's theory of what it means to produce nonsense reveals a specifically Romantic type of nonsense

**Phantasms of Matter in Gogol (and Gombrowicz)** Michal Oklot, 2009 An investigation into the problem of writing about matter in Nikolai Gogol's work and indirectly into the entire Neoplatonic tradition in Russian literature this book is not intended to be an exhaustive historical survey of the concept of matter but rather an effort to enumerate the images of matter in Gogol's texts and to specify the rules of their construction The trajectory of the book is directed by movement from Gogol to Gogol Its major assumption is that Gogol successfully develops a language for grasping the Neoplatonic concept of matter and subsequently rejects it abandoning literature Since then the Gogolian form of the image of a sheer negation of form has recurred frequently in Russian literature Yet the direction of the movement is always towards Gogol Somewhere at the margin of this circular trajectory one can inscribe a Polish writer Witold Gombrowicz who established one hundred years later a similar rhythm governing Polish literature from Gombrowicz to Gombrowicz

**The Arabesque from Kant to Comics** Cordula Grewe, 2021-09-01 The Arabesque from Kant

to Comics tracks the life and afterlife of the arabesque in its surprising transformation from an iconoclastic literary theory of early German Romanticism to aesthetic experimentation in both avant garde art and popular culture Its explosive growth in popularity was followed by an inevitable taming as arabesques became staples in book illustration poetry publications and even the decoration of printed scores The subversive potential of the arabesque was preserved in one of its most surprising offspring the comic strip born at the moment when the cholera pandemic first swept through Europe the comic translated the arabesque s rank growth into unnerving lawlessness and sequences of contagious visual slapstick Focusing roughly on the period between 1780 and 1880 this book illuminates the intersecting histories of avant garde theories of writing visual culture and even the disciplinary origins of art history In the process it explores media history and intermediality social networks and cultural transfer as well as the rise of new and nontraditional art forms This book will be of particular interest to scholars of art history intellectual history European art aesthetics book illustration material culture reproduction comics and German history
