Ian Coller

Arabic Start Speaking Today French Entree:

Arab France Ian Coller, 2011 Ian Coller's fascinating book explores the making of modern France during the Napoleonic period and under the Restoration from the outside inward. He examines the life of Arab migrants in France, their role as outsiders and victims but also as participants in the creation of the modern nation and its empire. In the process, he also throws much light on the history of the contemporary Arab Middle East and North Africa. C. A. Bayly University of Cambridge

Jews in Arab Countries Georges Bensoussan, 2019-03-04 In this new history, French author Georges Bensoussan retells the story of what life was like for Jews in the Arab world since 1850. During the early years of this time, it was widely believed that Jewish life in Arab lands was peaceful; Jews were protected by law and suffered much less violence, persecution, and inequality. Bensoussan takes on this myth and looks back over the history of Jewish-Arab relations in Arab countries. He finds that there is little truth to the myth and forwards a nuanced history of interrelationship that is not only diverse but deals with local differences in cultural, religious, and political practice. Bensoussan divides the work into sections that cover 1850 to the end of WWI, from 1919 to the eve of WWII, and then from WWII to the establishment of Israel and the Arab Wars. A new afterword brings the history of Jewish and Arab relations into the present day. Bensoussan has determined that the history of Jews in Arab countries is a history of slowly disintegrating relationships, increasing tension, violence, and persecution.

Modern Arabic Sociolinguistics Abdulkafi Albirini, 2016-02-08 Modern Arabic Sociolinguistics outlines and evaluates the major approaches and methods used in Arabic sociolinguistic research with respect to diglossia, codeswitching, language variation, and attitudes and social identity. This book outlines the main research findings in these core areas and relates them to a wide range of constructs including social context, speech communities, prestige, power, language planning, gender, and religion. It examines two emerging areas in Arabic sociolinguistic research: internet-mediated communication and heritage speakers in relation to globalization, language dominance and interference, and language loss and maintenance. It analyses the interplay between the various sociolinguistic aspects and examines the complex nature of the Arabic multidialectal, multinational, and multiethnic sociolinguistic situation. Based on the author's recent fieldwork in several Arab countries, this book is an essential resource for researchers and students of sociolinguistics, Arabic linguistics, and Arabic studies. **The**

dialects spoken in the Americas and Spain Cultural Memory of Language Susan Samata, 2016-05-19 I can't even speak my own language were the words overheard in a college staffroom that triggered the writing of this book Calling something my own implies a personal proprietary relationship with it But how can it be your own if you cannot speak it The Cultural Memory of Language looks at unintended monolingualism a lack of language fluency in a migratory cultural situation where two or more languages exist at home It explores family history and childhood language acquisition and attrition What is the present everyday experience of language use and life between two cultures Examining interview data Samata uncovers a sense of inauthenticity felt by people who do not fully share a parent's first language Alongside this features a sense of concurrent anger and a need to assign blame Participation in the language even to the extent of phatic or formulaic phraseology occasions feelings of authentic linguistic and cultural inclusion The book thus uncovers appreciable and measurable benefits in positive self image and a sense of well being Looking at how people view language is essential how they view the language they call their own is even more important and this book does just that in a qualified applied linguistic environment **America's Arab Nationalists** Aaron Berman, 2022-11-04 America's Arab Nationalists focuses in on the relationship between Arab nationalists and Americans in the struggle for independence in an era when idealistic Americans could see the Arab nationalist struggle as an expression of their own values In the first three decades of the twentieth century from the 1908 Ottoman revolution to the rise of Hitler important and influential Americans including members of the small Arab American community intellectually politically and financially participated in the construction of Arab nationalism This book tells the story of a diverse group of people whose contributions are largely unknown to the American public The role Americans played in the development of Arab nationalism has been largely unexplored by historians making this an important and original contribution to scholarship This volume is of great interest to students and academics in the field though the narrative style is accessible to anyone interested in Arab nationalism the conflict between Zionists and Palestinians and the United States relationship with the Arab world **Demographic, Social, and Economic Profile of States, Spring 1976** United States. Bureau of the Census. Population Division, 1979 *AF Press Clips*, 1973 Writing Tangier Ralph M. Coury, Robert Kevin Lacey, 2009 Writing Tangier discusses an array of topics relating to the literature on Tangier from the seventeenth century to the present Major questions include Why has Tangier come to play an important role in contemporary world literary history as a signifier in the literary imagination what is the nature of the intertextual output produced through Paul Bowles translations of the oral tales of a circle of uneducated storytellers including Mohammed Mrabet and Larbi Layachi and the text *For Bread Alone* brought to Bowles by the literate Mohamed Choukri how do academics artists and writers who have been based in the city or who have written about it assess the various socioeconomic political and cultural factors that have shaped its cultural production and the relationship of this production to the celebrated hybrid aspects of its identity does the success of the literature of Tangier reflect a truly new multicultural

cosmopolitanism or does it stem from the fact that this literature is congenial to Westerners that it is understood in terms that they themselves define and that much of it including productions in Arabic prepared with the expectation of translation has even been written to measure for them *Money Income and Poverty Status in 1975 of Families and Persons in the United States and the Northeast Region, by Divisions and States United States. Pedagogies of Deveiling Manal Hamzeh, 2012-06-01 Manal Hamzeh's book *Pedagogies of deveiling muslim girls the hijab discourse* presents an exploration of a gendering discourse the hijab veil discourse and how it was negotiated by four girls who self identified as muslims *Pedagogies of deveiling* emerged over a period of three years writing up a 14 months long study in which Hamzeh collaborated with four muslim girls in two US southwestern border towns between October 2005 and December 2006 This book stems from the stories of these four muslim girls weaved with Hamzeh's stories and perspectives as arabyyah muslimah the main researcher in the study an insider in betweener educator researcher who is literate in the cultural linguistic historical nuances critical in working with Muslim girls and their communities *Pedagogies of deveiling* offers an alternative approach to research and pedagogy with muslim girls in which the taken for granted hijabs in the sacred text and their inscriptions on the bodies of these girls are deveiled or problematized rethought questioned and countered As such what this book offers is first critical to muslim girls themselves because it shatters the phobia and the impossibility of reinterpreting of some canonical Islamic sacred texts in relation to the hijabs and gender Finally in this book Dr Manal Hamzeh offers a vision for how the sacred text reinterpreted by critical feminist epistemologies may represent a curriculum that is open to critique and holds potential for change towards justice With this Dr Hamzeh calls upon researchers and educators to open spaces for creativity and collaborate with muslim girls in order to 1 navigate the multiplicity and fluidity of their subjectivities implicated by intersecting discourses in their lives and 2 honor their choices while supporting them to negotiate the thought of as fixed Islamic values that may jeopardize their chances of any learning opportunity This a call to work with muslim girls as theorizers of possibilities and as the main agents of change in their own lives This is a call to open with muslim girls opportunities to practice their agency in unpacking and challenging normative discourses in their lives not exclusive to the hijab discourse This is a call for opening spaces of struggle and uprising and cultivating moments of meaning and shifts of consciousness

Money income of households, families, and persons in the United States, 1982 *My Struggle for Peace, Volume 3 (1956)* Moshe Sharett, 2019-03-19 The third volume of the former Israeli prime minister's journals from the nation's early years *My Struggle for Peace* is a remarkable political document offering insights into the complex workings of the young Israeli political system set against the backdrop of the disintegration of the country's fragile armistice with the Arab states Replete with Moshe Sharett's candid comments on Israel's first generation leaders and world statesmen of the day the diary also tells the dramatic human story of a political career cut short the removal of an unusually sensitive dedicated and talented public servant *My Struggle for Peace* is above all an intimate record of the decline of Sharett

s moderate approach and the rise of more activist militant trends in Israeli society culminating in the Suez Sinai war of 1956 The diary challenges the popular narrative that Israel s confrontation with its neighbors was unavoidable by offering daily evidence of Sharett s statesmanship moderation diplomacy and concern for Israel s place in international affairs This is the third volume in the 3 volume English abridgement of Sharett s Yoman Ishi Personal diary Ma ariv 1978 maintains the integrity flavor and impact of the 8 volume Hebrew original and includes additional documentary material that was not accessible at the time The volumes are also available to purchase as a set or individually The editors vastly improved on the Hebrew version by adding Sharett s speeches reports cabinet minutes and other sources to the text These additions makes this work so important and welcome by all who aspire to understand the foreign and defense policies of Israel in its first decade Israel Studies Review

The Orthodox Church in the Arab World, 700-1700 Samuel Noble,Alexander Treiger,2014-03-15 All of the texts chosen for this volume are interesting in their own right but the collection of these sources into a single volume with helpful introductions and bibliographies makes this book an invaluable resource for the study of Arabic Christianity and indeed the history of Christianity more broadly Hugoye Journal of Syriac Studies Arabic was

among the first languages in which the Gospel was preached The Book of Acts mentions Arabs as being present at the first Pentecost in Jerusalem where they heard the Christian message in their native tongue Christian literature in Arabic is at least 1 300 years old the oldest surviving texts dating from the 8th century Pre modern Arab Christian literature embraces such diverse genres as Arabic translations of the Bible and the Church Fathers biblical commentaries lives of the saints theological and polemical treatises devotional poetry philosophy medicine and history Yet in the Western historiography of Christianity the Arab Christian Middle East is treated only peripherally if at all The first of its kind this anthology makes accessible in English representative selections from major Arab Christian works written between the eighth and eighteenth centuries The translations are idiomatic while preserving the character of the original The popular assumption is that in the wake of the Islamic conquests Christianity abandoned the Middle East to flourish elsewhere leaving its original heartland devoid of an indigenous Christian presence Until now several of these important texts have remained unpublished or unavailable in English Translated by leading scholars these texts represent the major genres of Orthodox literature in Arabic Noble and Treiger provide an introduction that helps form a comprehensive history of Christians within the Muslim world The collection marks an important contribution to the history of medieval Christianity and the history of the medieval Near East
