Emerson, Dale L. McElrath, Andrew C. Fortier, 2012-02-01 Sweeping and detailed this long awaited volume is an indispensable guide to the Archaic period across the midcontinent. Archaeologists throughout the region share the latest excavation results and analytical perspectives to reveal and reinterpret the worlds of those Native peoples who lived there for some 9 000 years up to about 3 000 years ago. Of particular concern is the establishment of relative and absolute chronologies for the Archaic period the relationships between the artifacts left behind and the peoples who made and used them and the changing interactions between cultures climate and landscape. Archaeologists offer useful up to date overviews of Archaic societies assessment of stratigraphic sequences and detailed discussions of finds and interpretations from the Mississippi and Ohio river regions and the Great Lakes. Comprehensive and accessible this landmark book is a must for anyone wanting to understand a crucial but little understood period in North America's prehistory. **Proceedings**, 1999 **Proceedings RMRS.**, 1998 *Northwest Anthropological Research Notes* Roderick Sprague, Deward E. DH efforts across India while theorizing disparate challenges and its negotiations. It examines DH projects that have spanned private and public efforts institutionally sanctioned lab work and crowd sourced programmes of public significance and shows how collectively they demonstrate the potential paths of DH in India. The essays in the volume highlight the two fundamental challenges for DH acts of curation of new scales and the creation of platforms that can assist in the collation and analysis of these digital archives and changes in learning behaviour. They examine the transformation of the university and the opening up of new relationships between knowledge and audience in concomitant spaces of scholarship such as libraries archives and museums. The volume brings to the fore citizen efforts to document record and preserve as well as create new avenues of study and forge networks of scholarship that look very different from those of

traditional academia It also foregrounds the challenges of location and addresses the questions of how DH should be taught in India and how to build digital infrastructures A go to guide for DH efforts in India this book will be an essential text for courses on digital humanities library and information sciences and the future of experiential learning
