Ancient Arms Race: Antiquity's Largest Fortresses and Sasanian Military Networks of Northern Iran Eberhard Sauer, Jebrael Nokandeh, Hamid Omrani Rekavandi, 2023-02-16 Which ancient army boasted the largest fortifications and how did the competitive build up of military capabilities shape world history Few realise that imperial Rome had a serious competitor in Late Antiquity Late Roman legionary bases normally no larger than 5ha were dwarfed by Sasanian fortresses often covering 40ha sometimes even 125 175ha The latter did not necessarily house permanent garrisons but sheltered large armies temporarily perhaps numbering 10 50 000 men each Even Roman camps and fortresses of the Early and High Empire did not reach the dimensions of their later Persian counterparts The longest fort lined wall of the late antique world was also Persian Persia built up between the fourth and sixth centuries AD the most massive military infrastructure of any ancient or medieval Near Eastern empire if not the ancient and medieval world Much of the known defensive network was directed against Persia's powerful neighbours in the north rather than the west This may reflect differences in archaeological visibility more than troop numbers Urban garrisons in the Romano Persian frontier

zone are much harder to identify than vast geometric compounds in marginal northern lands Recent excavations in Iran have enabled us to precision date two of the largest fortresses of Southwest Asia both larger than any in the Roman world Excavations in a Gorgan Wall fort have shed much new light on frontier life and we have unearthed a massive bridge nearby A sonar survey has traced the terminal of the Tammisheh Wall now submerged under the waters of the Caspian Sea Further work has focused on a vast city and settlements in the hinterland Persia s Imperial Power our previous project had already shed much light on the Great Wall of Gorgan but it was our recent fieldwork that has thrown the sheer magnitude of Sasanian military infrastructure into sharp relief The Monumental Inscriptions from Early Islamic Iran and Transoxiana

Sheila Blair,2024-04-02 Inscriptions on buildings are a distinctive feature of Islamic architecture and this book studies the 79 surviving monumental inscriptions in the Iranian world from the first five centuries of the Muslim era A D 622 1106 the period in which all the major trends of monumental epigraphy in the area were set These foundation commemorative and funerary texts come from the region between Iraq and Soviet Central Asia Written primarily in Arabic they embellished architectural monuments and furnishings whose nature implies the construction of major buildings An extended introduction discusses such general topics as titulature patronage and stylistic development Each text is then presented individually with photographs drawings transcriptions translations and an extensive commentary which presents the inscription in its larger palaeographic and historical contexts *Archaeologische Mitteilungen aus Iran* ,1966 *Tumuli and Megaliths in Eurasia*

João Caninas,Telmo Pereira,Paulo Félix,Isabel Gaspar,2024-07-31 Tumuli and megaliths mark the landscape of Eurasia and are rich in data mystery and legends Books about them are often monographic or have a local range This collection of essays highlights and brings together 74 authors from 16 countries from Portugal to Japan and Indonesia They offer a diversity of regional backgrounds theoretical perspectives and scientific approaches relevant to anyone working in history archaeology anthropology and heritage Densely illustrated and written in a way that is understandable to anyone it is easily accessible to students professors researchers and cultural or heritage managers It will also attract anyone interested in past cultures early religions and ancient architecture Its content makes it a mandatory book for the central and specialized libraries of any university I D centre museum or visiting centre about this and other related issues The Ilkhanid Heartland Michael D.

Danti,2004-07 The site of Hasanlu Tepe in Iran is today known mainly for its Iron Age archaeology In this report Michael Danti has re examined the records from excavations between 1956 and 1962 to reconstruct the sequence of occupation on the mound from the late 13th to early 14th centuries **A Bibliography of Articles on Armenian Studies in Western Journals, 1869-1995**

Vrej N Nersessian,Vrej N. Nersessian,2013-11-19 Covers a comprehensive range of periodicals well over 165 in all **A Bibliography of Articles on Armenian Studies in Western Journals, 1869-1995** Vrej

Nersessian,1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company *Imperial Matter* Lori Khatchadourian,2016-03-18 A free ebook version of this title is available through Luminos University of California Press

s new open access publishing program Visit www.luminosoa.org to learn more What is the role of the material world in shaping the tensions and paradoxes of imperial sovereignty Scholars have long shed light on the complex processes of conquest extraction and colonialism under imperial rule But imperialism has usually been cast as an exclusively human drama one in which the world of matter does not play an active role Lori Khatchadourian argues instead that things from everyday objects to monumental buildings profoundly shape social and political life under empire Out of the archaeology of ancient Persia and the South Caucasus Imperial Matter advances powerful new analytical approaches to the study of imperialism writ large and should be read by scholars working on empire across the humanities and social sciences

Hasanlu V Michael D. Danti, 2013-09-24 Hasanlu V provides archaeologists with a new more accurate chronology of Hasanlu the largest and arguably the most important archaeological site in the Gadar River Valley of northwestern Iran This revised chronology introduces Hasanlu Periods VIa V and IVc for the first time Based on new findings the report overturns current constructions of the origins of the archaeological culture in Hasanlu which sought to link the Monochrome Burnished Ware Horizon formerly known as the Early Western Grey Ware Horizon to the migration of new peoples into western Iran in the later second millennium B C Hasanlu V shows instead that the Monochrome Burnished Ware Horizon developed gradually from indigenous traditions This reappraisal has important implications for our understanding of Indo Iranian migrations into the Zagros region University Museum Monograph 137 *The Oxford Handbook of Ancient Anatolia* Sharon R. Steadman, Gregory McMahon, 2011-09-15 This title provides comprehensive overviews on archaeological philological linguistic and historical issues at the forefront of Anatolian scholarship in the 21st century [Archaeologische mitteilungen aus Iran](#), 1929 **The Origin of the Indo-Iranians** Elena Efimovna Kuz'mina, 2007 Here then is the fruit of Elena Kuzmina's life long quest for the Indo Iranians Already its predecessor Otkuda prishli indoirii published in 1994 was considered the most comprehensive analysis of the origins of the Indo Iranians ever published but in this new significantly expanded edition edited by J P Mallory we find an encyclopaedic account of the Andronovo culture of Eurasia Taking its evidence from archaeology linguistics ethnology mythology and physical anthropology pertaining to Indo Iranian origins and expansions it comprehensively covers the relationships of this culture with neighboring areas and cultures and its role in the foundation of the Indo Iranian peoples *Dariali: The 'Caspian Gates' in the Caucasus from Antiquity to the Age of the Huns and the Middle Ages* Eberhard Sauer, 2020-04-30 The Huns invading through Dariali Gorge on the modern day border between Russia and Georgia in AD 395 and 515 spread terror across the late antique world Was this the prelude to the apocalypse Prophecies foresaw a future Hunnic onslaught via the same mountain pass bringing about the end of the world Humanity's fate depended on a gated barrier deep in Europe's highest and most forbidding mountain chain Centuries before the emergence of such apocalyptic beliefs the gorge had reached world fame It was the target of a planned military expedition by the Emperor Nero Chained to the dramatic sheer cliffs framing the narrow passage the mythical fire thief Prometheus

suffered severe punishment his liver devoured by an eagle It was known under multiple names most commonly the Caspian or Alan Gates Featuring in the works of literary giants no other mountain pass in the ancient and medieval world matches Dariali's fame Yet little was known about the materiality of this mythical place A team of archaeologists has now shed much new light on the major gorge blocking fort and a barrier wall on a steep rocky ridge further north The walls still standing today were built around the time of the first major Hunnic invasion in the late fourth century when the Caucasus defences feature increasingly prominently in negotiations between the Great Powers of Persia and Rome In its endeavour to strongly fortify the strategic mountain pass through the Central Caucasus the workforce erased most traces of earlier occupation The Persian built bastion saw heavy occupation for 600 years Its multi faith medieval garrison controlled Trans Caucasian traffic Everyday objects and human remains reveal harsh living conditions and close connections to the Muslim South as well as the steppe world of the north The Caspian Gates explains how a highly strategic rock has played a pivotal role in world history from Classical Antiquity into the twentieth century

Selected Writings on Chariots and other Early Vehicles, Riding and Harness M.A. Littauer, Joost Crouwel, 2021-11-22 This collection of papers is primarily concerned with transport by wheeled vehicle in antiquity They shed much light on the construction of the vehicles the ways their draught animals were harnessed and controlled and the uses to which the equipages were put The evidence discussed includes actual remains of vehicles and bridles as well as figured and textual documents Ridden animals and their gear also feature in this collection of papers The Selected Writings of Mary B Littauer and Joost H Crouwel are important for all those interested in the cultures of the ancient Near East Egypt and Cyprus and of Bronze Age Greece
