Drawing on works of cinema, literature, music, and visual art, Akin Adesokan addresses two main questions. First, given the various changes that the institutions producing African arts and letters have undergone in the past four decades, how have the representational impulses in these forms fared in comparison with those at work in pervasively digital cultures? Second, how might a long view of these artistic forms across media and in different settings affect our understanding of what counts as art, as text, as authorship? Immersed in digital culture, African artists today are acutely aware of the media-saturated circumstances in which they work and actively bridge them by making ethical choices to shape those circumstances. Through an innovative development and analysis of five modes of creative practice—curation, composition, adaptation, platform, and remix—*Everything Is Sampled* offers an absorbingly complex yet

nuanced approach to appreciating the work of several generations of African writers directors and artists No longer content to just fill a spot in the relay between the conception and distribution of a work these artists are now also quick to view and reconfigure their works through different modes of creative practice *Anthropological Filmmaking* J.R Rollwagen,2014-06-03 First Published in 1988 Visual Anthropology is a book series devoted to the illumination of the human condition through a systematic examination of all that is made to be seen It is our intention to demonstrate the value of an anthropological approach to the study of the visual and pictorial world The anthropological filmmaker just like the ethnographer must be content to present something about a dynamic process at a particular moment in time regardless of the fact that all of the variables are constantly in flux The purpose of this work is to make available a collection of articles by individuals who are both anthropologists and filmmakers *North Macedonia* Thammy Evans,Philip Briggs,2019-06-06 Bradt s North Macedonia remains the only standalone English language guidebook to this increasingly popular destination available outside the country Originally written by Thammy Evans a political analyst who lived in Macedonia for five years this new edition has been thoroughly updated and restructured to make it even easier to use by Philip Briggs arguably the world s most experienced guidebook writer Coverage of national parks has been increased and hiking information has been fully integrated to make it more accessible to casual users Introductions to many points of interest have been expanded to give more of an overview of what the attractions are and there are several new and redrawn maps Of all the new countries formed following the break up of Yugoslavia in 1991 Macedonia was the only one to attain independence without bloodshed This is a small land that offers huge variety to travellers from the oldest lake in Europe to soaring forest swathed mountain ranges and from the millennia old Neolithic rock observatory at Kokoni and Roman mosaics at Heraclea to dozens of historic and actively used mediaeval monasteries and mosques Macedonia s urban centrepiece and main port of entry is the capital Skopje now home to a wealth of Ottoman buildings a lively culinary scene and several world class museums while the main tourist hub is the pretty lakeshore town of Ohrid a UNESCO World Heritage Site thanks to its wealth of medieval churches and other architectural gems A trio of national parks provide refuge to brown bears grey wolves the rare Balkan lynx and a wide variety of birds And wherever you go welcoming family run tavernas and lively pavement caf s serve authentic traditional cooking and locally produced wine that ranks as probably the most affordable anywhere in the European Balkans Wherever you go and whatever your interest this is a country that offers countless rewards to independent minded travellers and those who want to get away from the crowds And with Bradt s Macedonia you ll find everything you need for a successful trip *Language Learning and Leisure* Denyze Toffoli,Geoffrey Sockett,Meryl Kusyk,2023-07-04 The study of informal involvement with additional languages has recently emerged as a dynamic research field in SLA With the rapid development and spread of internet based technologies contact with foreign languages outside the classroom has become commonplace While this can take multiple forms online contents are a major driving force because they present learners with
