Unifying Humanity Spiritually Rudolf Steiner,2014 The central motif in these lectures relates to the appearance of Christ on earth knowledge of his historical incarnation as well as Christs manifestation in the present and future periods of human development Rudolf Steiner creates an arc from the pre Christian mysteries through Gnosticism and the older studies of the early Church Fathers to Scholasticism and neo Scholasticism After ancient faculties of clairvoyance had began to fade he explains human beings could no longer see beyond the world of outer appearances and direct perceptions of Christ were therefore no longer possible And so the question arose as to how limitations on human knowledge could be overcome a question which remains pertinent in our time Steiner asserts that only a transformation of thinking enabling a living and conscious inner conceptual life can allow for a true understanding of the relationship between the earthly Jesus and the cosmic Christ Such living thinking leads in turn to direct experience

PATHS AND GOALS OF THE SPIRITUAL HUMAN BEING RUDOLF STEINER,2015-06-29 Speaking to audiences in Denmark Germany and France Rudolf Steiner discusses a wide range of topics from positive and negative human soul capacities true self knowledge and karma to changes in human consciousness from ancient times to the modern era all in the context of the incarnation of Christ on earth The lectures illustrate the diversity of Steiner s approach when speaking to different audiences Reflecting on the polymath Novalis for example he is urgent about the responsibility of spiritual science to help humanity awaken to the new age A few months later talking of Hegel and deploring the fact that an interest in spiritual matters often fails to be accompanied by an equal interest in logical thought Steiner uses a dispassionate

philosophical tone But throughout the lectures he is consistent in his view that spiritual science does not reject conventional science Trained philosophical thinking leads to different conclusions than materialism he says but there is nothing in the field of spiritual science that need be rejected by rigorous scientific thought Although the lectures were given to a variety of audiences ideas recur from different perspectives and in different contexts with strong thematic links binding them together These include the relationship between philosophy and science the nature of clairvoyance Christ s presence in the etheric realm reincarnation and karma the mystery drama The Portal of Initiation Christmas and its symbols and the transformation of consciousness that occurred when Christ incarnated physically on earth In the final lectures Rudolf Steiner speaks inspiringly about the Christmas festival contrasting the feeling of inwardness that people used to experience with the hectic cultural environment of modern cities However this does not lead Steiner to be nostalgic about the past Rather he states we should seek to recreate a mood of inwardness in a new way appropriate to our modern age and consciousness These lectures give us the tools to bring such a contemporary spiritual approach to our lives **School Life** ,1938 *Subject Headings Used in the Dictionary Catalogs of the Library of Congress* Library of Congress,Library of Congress.
