**Crosscurrents in Indigenous Spirituality** Edward Cook, 2016-05-18 The resurgence of indigenous cultures and the reappearance of their ancient spiritualities during the 1990s is of great interest to social scientists Several such cultures are featured in this book The indigenous populations of struggling multi ethnic democracies in Latin America are demanding to be integrated into the national mainstream together with their holistic values of family economics and ecology Institutional Christianity is being challenged by indigenous theologies that are critical of both traditional Christianity and liberation theology While some see here a danger of syncretism these developments can be experienced as a breath of fresh air Much has been said about the Mayas but they have not been allowed to speak for themselves anthropologist Rafael Girardi 1962 This book is an attempt to allow religious spokespersons from a very ancient and creative civilization to share their faith which has remained hidden for five centuries

Kim, 2012-05-03 The theological reflections of Virgilio Elizondo and Gustavo Gutierrez are examples of the ecclesial fruitfulness of the second half of the twentieth century Following the directives of Pope John XXIII and the Second Vatican Council Elizondo and Gutierrez present the Gospel message in relevant terms to their own people by engaging the world as the Church of the poor Inspired by this moment in Church history while at the same time recognizing the plight of their people in their poor and marginal existence Elizondo and Gutierrez discovered a new way of doing theology by asking a specific set of questions based on their local context By investigating where God is present in the border crossers of the southwestern United States and the poorest of the poor in Latin America both theologians have uncovered a hermeneutical lens in rereading Scripture and deepening our understanding of ecclesial tradition Elizondo's mestizaje and Gutierrez's preferential option for the poor arose out of a theology of context a theological method that takes seriously the contextual circumstances of their locale By utilizing the

**Intercommunal Ecclesiology** Steven J. Battin, 2022-07-21 What do Christian communities imagine when they think of themselves as church And how do these ecclesiological imaginations inform Christianity's past and present entanglements with violence and injustice Intercommunal Ecclesiology addresses these questions by examining the distinctive role intergroup dynamics play in shaping Christian collective behaviors against the other that are incongruent with Christian theological principles such as love of neighbor Through interdisciplinary engagement with social psychology systems theory biblical criticism and studies in the early history of Christianity this book makes a case for a theological re envisioning of the church at the three way intersection of an anthropology of intergroup dynamics a soteriology adequately rooted in God's historical salvation plan and a Christology sensitive to Christ's collective embodiment The book argues that within God's plan of historical salvation the church is supposed to function as God's communal response to intercommunal disunity a role it fulfills with integrity only when and where it enacts itself as a counterperformance to aggression conflict and indifference between human communities
