British Short Fiction in the Early Nineteenth Century Tim Killick, 2016-05-23 In spite of the importance of the idea of the tale within Romantic era literature short fiction of the period has received little attention from critics Contextualizing British short fiction within the broader framework of early nineteenth century print culture Tim Killick argues that authors and publishers sought to present short fiction in book length volumes as a way of competing with the novel as a legitimate and prestigious genre Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre including its appearance in magazines and annuals Killick shows how Washington Irving s hugely popular collections set the stage for British writers Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg as well as didactic short fiction by authors such as Hannah More Maria Edgeworth and Amelia Opie His book makes a convincing case for the evolution of short fiction into a self conscious intentionally modern

adequately preserved or even documented The great popular appeal of the short stories saved them from oblivion but it was only in the sixteenth and seventeenth centuries that they were first collected and published Mr Hanan s erudite study is the first thorough attempt to uncover the history of the Chinese short story Using a variety of techniques but principally that of stylistic analysis the author solves the fundamental problem of dating the stories in terms of periods He is able to place each story in one of three broad categories early ca 1250 1450 middle ca 1400 1575 and late ca 1550 1627 and to assign some of them to the earlier or later part of the time span In many cases he offers evidence of sources and influences place of origin and possible or probable authorship On the basis of the author s research it is possible to see in minutely researched detail how the short story developed in China what kind of men composed it its relationship to other kinds of literature and the main social preoccupations with which it deals The results of Mr Hanan s study are vitally important to all scholars of Chinese literature Historians and linguists will also find it valuable as a model of the innovative use of stylistic analysis
