**The Understanding of Ornament in the Italian Renaissance** Clare Lapraik Guest, 2015-11-16 In this paradigm shifting study developed through close textual readings and sensitive analysis of artworks Clare Lapraik Guest re evaluates the central role of ornament in pre modern art and literature Moving from art and thought in antiquity to the Italian Renaissance she examines the understandings of ornament arising from the Platonic Aristotelian and Sophistic traditions and the tensions which emerged from these varied meanings The book views the Renaissance as a decisive point in the story of ornament when its subsequent identification with style and historicism are established It asserts ornament as a fundamental not an accessory element in art and presents its restoration to theoretical dignity as essential to historical scholarship and aesthetic reflection

The Robert Lehman Collection, Volume XV: European and Asian Decorative Arts , 1987 *Sixteenth-century Italian Ornament Prints* , 1998 **Objects of Virtue** Luke Syson, Dora

Thornton, 2001 You are what you own So believed many of the elite men and women of Renaissance Italy The notion that a person's belongings transmit something about their personal history status and character was renewed in the fifteenth and early sixteenth centuries Objects of Virtue explores the multiple meanings and values of the objects with which families like the Medici Este and Gonzaga surrounded themselves This lavishly illustrated volume examines the complicated relationships between the so called fine arts painting and sculpture and artifacts of other kinds for which artistry might be as important as utility furniture jewelry and vessels made of gold silver and bronze precious and semi precious stone glass and ceramic The works discussed were designed and made by artists as famous as Andrea Mantegna Raphael and Michelangelo as well as by lesser known specialists goldsmiths gem engravers glassmakers and maiolica painters

**Michelangelo and the English Martyrs** Anne Dillon, 2016-12-05 In May 1555 a broadsheet was produced in Rome depicting the torture and execution in London and York of the Carthusians of the Charterhouses of London Axeholme Beauvale and Sheen during the reign of Henry VIII This single page martyrology provides the basis for an in depth exploration of several interconnected artistic scientific and scholarly communities active in Rome in 1555 which are identified as having been involved in its production Their work and concerns which reflect their time and intellectual environment are deeply embedded in the broadsheet especially those occupying the groups and individuals who came to be known as Spirituali and in particular those associated with Cardinal Reginald Pole who is shown to have played a key role in its production Following an examination of the text and a discussion of the narrative intentions of its producers a systematic analysis is made of the images This reveals that the structure content and intention of what at first sight seems to be nothing more than a confessionally charged Catholic image of the English Carthusian martyrs typical of the genre of propaganda produced during the Reformation is astonishingly dominated by the most celebrated name of the Italian Renaissance the artist Michelangelo Buonarroti Not only are there direct borrowings from two works by Michelangelo which had just been completed in Rome The Conversion of St Paul and The Crucifixion of St Peter in the Pauline Chapel but many other of his works are deliberately cited by the broadsheet's producers Through the use of a variety of artistic scientific and historical approaches the author makes a compelling case for the reasons for Michelangelo's presence in the broadsheet and his influence on its design and production The book not only demonstrates Michelangelo's close relationship with notable Catholic reformers but shows him to have been at the heart of the English Counter Reformation at its inception This detailed analysis of the broadsheet also throws fresh light on the Marian religious policy in England in 1555 the influence of Spain and the broader preoccupations of the Counter Reformation papacy while at the same time enriching our understanding of

martyrology across the confessional divide of the Reformation      *Re-thinking Renaissance Objects* Peta Motture, Michelle O'Malley, 2011-09-07 Inspired by research undertaken for the new Medieval Renaissance Galleries at the Victoria and Albert Museum *Re thinking Renaissance Objects* explores and often challenges some of the key issues and current debates relating to Renaissance art and culture Puts forward original research including evidence provided by an in depth study arising from the Medieval Renaissance Gallery project Contributions are unusual in their combination of a variety of approaches but with each paper starting with an examination of the objects themselves New theories emerge from several papers some of which challenge current thinking      **The Villa Farnesina** James Grantham Turner, 2022-10-06 The frescoes of Peruzzi Raphael and Sodoma still dazzle visitors to the Villa Farnesina but they survive in a stripped down environment bereft of its landscape sealed so it cannot breathe Turner takes you outside that box restoring these canonical images to their original context when each element joined in a productive conversation He is the first to reconstruct the architect painter Peruzzi's original well proportioned well appointed building and to re visualize his lost facade decoration erotic scenes and mythological figures who make it come alive and soar upward More comprehensively than any previous scholar he reintegrates painting sculpture architecture garden design topographical prints and drawings archaeological discoveries and literature from the brilliant circle around the patron Agostino Chigi the powerful banker who loved all virtuosi and commissioned his villa palazzo from the best talents in multiple arts It can now be understood as a Palace of Venus celebrating aesthetic social and erotic pleasure      **Bibliographic Guide to Art and Architecture** New York Public Library. *Sixteenth-century Italian Drawings in New York Collections* William Griswold, Linda Wolk-Simon, Metropolitan Museum of Art (New York, N.Y.), 1994 Focusing exclusively on examples from the 16th century the great age of Italian drawing this stunning volume published to accompany an early 1994 exhibition at The Metropolitan Museum of Art includes 124 prized works from The Metropolitan the Pierpont Morgan Library the Cooper Hewitt Museum and some 20 private collections in New York The catalogue is organized by school and within each section chronologically by artist Each drawing is illustrated and presented with a discussion that places it in the context of the artist's career and explores the purpose for which it was made Paper edition unseen 35 Annotation copyright by Book News Inc Portland OR      *The Art of Discovery* Maren Elisabeth Schwab, Anthony Grafton, 2025-01-28 A panoramic history of the antiquarians whose discoveries transformed Renaissance culture and gave rise to new forms of art and knowledge In the early fifteenth century a casket containing the remains of the Roman historian Livy was unearthed at a Benedictine abbey in Padua The find was greeted with the same enthusiasm as the bones of a Christian saint and established a pattern that antiquarians would follow for centuries to come The Art of Discovery tells the stories of the Renaissance antiquarians who turned material remains of the ancient world into sources for scholars and artists inspirations for palaces and churches and objects of pilgrimage and devotion Maren Elisabeth Schwab and Anthony Grafton bring to life some of the most spectacular finds of the age such as Nero's Golden House and the wooden

placard that was supposedly nailed to the True Cross They take readers into basements caves and cisterns explaining how digs were undertaken and shedding light on the methods antiquarians and the alchemists and craftspeople they consulted used to interpret them What emerges is not an origin story for modern archaeology or art history but rather an account of how early modern artisanal skills and technical expertise were used to create new knowledge about the past and inspire new forms of art scholarship and devotion in the present The Art of Discovery challenges the notion that Renaissance antiquarianism was strictly a secular enterprise revealing how the rediscovery of Christian relics and the bones of martyrs helped give rise to highly interdisciplinary ways of examining and authenticating objects of all kinds 18th Century Italian Drawings in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Jacob Bean, William Griswold, 1990 The Print in Italy, 1550-1620 Michael Bury, 2001 **Bernini at Saint Peter's - The Pilgrimage** Irving Lavin, 2012-12-31 Bernini at Saint Peter's may be a unique case in history a single artist in charge of a grandiose monument in a continuous state of creativity under constantly changing patrons and a variety of projects for nearly six decades This book argues that a continuous thread of thought may be discerned underlying and connecting the vicissitudes of this spectacular display From first to last Gianlorenzo Bernini conceived of Saint Peter's as a pilgrimage church a kind of pilgrimage of human life his own and of the believers who visited the basilica to worship and give testimony Irving Lavin is professor emeritus in the School of Historical Studies at the Institute for Advanced Study in Princeton He is one of the most distinguished and honoured art historians in the United States Professor Lavin is best known for his series of fundamental publications on the Baroque artist Gianlorenzo Bernini 1598-1680 These include new discoveries and studies on the master's prodigious early life his architecture and portraiture his invention of caricature his depictions of religious faith and political leadership his work in the theatre his attitude towards death and the role of the artist in the creation of a modern sense of social responsibility The Grove Encyclopedia of Decorative Arts Gordon Campbell, 2006-11-09 The Grove Encyclopedia of Decorative Arts covers thousands of years of decorative arts production throughout western and non-western culture With over 1 000 entries as well as hundreds drawn from the 34 volume Dictionary of Art this topical collection is a valuable resource for those interested in the history practice and mechanics of the decorative arts Accompanied by almost 100 color and more than 500 black and white illustrations the 1 290 pages of this title include hundreds of entries on artists and craftsmen the qualities and historic uses of materials as well as concise definitions on art forms and style Explore the works of Alvar Aalto Charles and Ray Eames and the Wiener Werkstätte or delve into the history of Navajo blankets and wing chairs in thousands of entries on artists craftsmen designers workshops and decorative art forms Provenance and Possession K. J. P. Lowe, 2024-04-09 A thought provoking study of how knowledge of provenance was not transferred with enslaved people and goods from the Portuguese trading empire to Renaissance Italy In the fifteenth and sixteenth centuries Renaissance Italy received a bounty of goods from Portuguese trading voyages fruits of empire that included luxury goods exotic animals and

even enslaved people Many historians hold that this imperial opening up of the world transformed the way Europeans understood the global In this book K J P Lowe challenges such an assumption showing that Italians of this era cared more about the possession than the provenance of their newly acquired global goods With three detailed case studies involving Florence and Rome and drawing on unpublished archival material Lowe documents the myriad occasions on which global knowledge became dissociated from overseas objects animals and people Fundamental aspects of these imperial imports including place of origin and provenance she shows failed to survive the voyage and make landfall in Europe Lowe suggests that there were compelling reasons for not knowing or caring about provenance and concludes that geographical knowledge like all knowledge was often restricted and not valued Examining such documents as ledger entries journals and public and private correspondence as well as extant objects and asking previously unasked questions Lowe meticulously reconstructs the backstories of Portuguese imperial acquisitions painstakingly supplying the context She chronicles the phenomenon of mixed ancestry children at Florence s foundling hospital the ownership of inanimate luxury goods notably those possessed by the Medicis and the acquisition of enslaved people and animals How and where goods were acquired Lowe argues were of no interest to fifteenth and sixteenth century Italians possession was paramount
