1848 A European Revolution International Ideas And National Memories Of 1848:

1848 — A European Revolution? A. Körner, 2000-02-17 This book is among the rare contributions to the 150th anniversary of 1848 which takes a completely new theoretically informed approach Instead of a traditional social or political history the authors analyse the dichotomy between the international dimension in the ideas of the revolution and the nationalisation of memories in its commemorations over the past 150 years The book offers original research on the history of European ideas and takes part in the current debate about the relationship between history and memory **1848-A**

European Revolution? Axel Körner, 2004-03-18 The notion of a Springtime of European Peoples the concept of a universal republic and the awareness of a European dimension to revolutionary events all had an important impact on the ideas of 1848 and were reflected in songs pamphlets and political statements However the meanings of 1848 its historical and memories changed over time In most commemorations the revolution has appeared as a national event a perspective which changed only in 1998 on the occasion of the 150th anniversary This book analyzes the dichotomy between the international dimension of the revolution s ideas and the nationalization of its memories **The Insurgent Barricade** Mark

Traugott, 2010 A case study in how techniques of protest originate and evolve this book tells how the French perfected a repertoire of revolution over three centuries and how students exiles and itinerant workers helped it spread across Europe

The Revolution of 1861 Andre M. Fleche, 2012-03-01 It was no coincidence that the Civil War occurred during an age of violent political upheaval in Europe and the Americas Grounding the causes and philosophies of the Civil War in an international context Andre M Fleche examines how questions of national self determination race class and labor the world over influenced American interpretations of the strains on the Union and the growing differences between North and South Setting familiar events in an international context Fleche enlarges our understanding of nationalism in the nineteenth century with startling implications for our understanding of the Civil War Confederates argued that European nationalist movements provided models for their efforts to establish a new nation state while Unionists stressed the role of the state in balancing order and liberty in a revolutionary age Diplomats and politicians used such arguments to explain their causes to thinkers throughout the world Fleche maintains that the fight over the future of republican government in America was also a battle over the meaning of revolution in the Atlantic world and as such can be fully understood only as a part of the world historical context in which it was fought Revolutionary World David Motadel, 2021-03-25 The first truly global history of

revolutions and revolutionary waves in the modern age from Atlantic Revolutions to Arab Spring Transnational Histories of the 'Royal Nation' Milinda Banerjee, Charlotte Backerra, Cathleen Sarti, 2017-04-27 This book challenges existing accounts of the nineteenth and twentieth centuries in which political developments are explained in terms of the rise of the nation state While monarchies are often portrayed as old fashioned as things of the past we argue that modern monarchies have been at the centre of nation construction in many parts of the world Today roughly a quarter of states define themselves as

monarchies as well as nation states they are Royal Nations This is a global phenomenon This volume interrogates the relationship between royals and their nations with transnational case studies from Asia Africa Europe as well as South America The seventeen contributors discuss concepts and structures visual and performative representations and memory cultures of modern monarchies in relation to rising nationalist movements This book thereby analyses the worldwide significance of the Royal Nation Constructing Nationalities in East Central Europe Pieter M. Judson, Marsha L.

Rozenblit, 2005 The hundred years between the revolutions of 1848 and the population transfers of the mid twentieth century saw the nationalization of culturally complex societies in East Central Europe This fact has variously been explained in terms of modernization state building and nation building theories each of which treats the process of nationalization as something inexorable a necessary component of modernity Although more recently social scientists gesture to the contingencies that may shape these larger developments this structural approach makes scholars far less attentive to the hard work ideological political social undertaken by individuals and groups at every level of society who tried themselves to build national societies The essays in this volume make us aware of how complex multi dimensional and often contradictory this nationalization process in East Central Europe actually was The authors document attempts and failures by nationalist politicians organizations activists and regimes from 1848 through 1948 to give East Central Europeans a strong sense of national self identification They remind us that only the use of dictatorial powers in the 20th century could actually transform the fantasy of nationalization into a reality albeit a brutal one BOOK JACKET **The Encyclopedia of Christianity** Erwin

Fahlbusch, Geoffrey William Bromiley, 1999 Containing more than 300 articles covering the alphabetical entries P Sh this book also includes articles on significant topics ranging from Paul political theology and the Qur'an to religious liberty salvation history and scholasticism **France, Mexico and Informal Empire in Latin America, 1820-1867** Edward

Shawcross, 2018-02-06 This book explores French imperialism in Latin America in the nineteenth century taking Mexico as a case study The standard narrative of nineteenth century imperialism in Latin America is one of US expansion and British informal influence However it was France not Britain which made the most concerted effort to counter US power through Louis Napoleon's military intervention in Mexico begun in 1862 which created an empire on the North American continent under the Habsburg Archduke Ferdinand Maximilian Despite its significance to French and Latin American history this French imperial project is invariably described as an illusion an adventure or a mirage This book challenges these conclusions and places the French intervention in Mexico within the context of informal empire It analyses French and Mexican ideas about monarchy in Latin America responses to US expansion and the development of anti Americanism and pan Latinism the consolidation of Mexican conservatism and finally the collaboration of some Mexican elites with French imperialism An important dimension of the relationship between Mexico and France explored in the book is the transatlantic and transnational context in which it developed where competing conceptions of Mexico and France as nations the role of

Europe and the United States in the Americas and the idea of Latin America itself were challenged and debated

Re-imagining Democracy in the Mediterranean, 1780-1860 Joanna Innes, Mark Philp, 2018 Re-imagining Democracy looks back to the late eighteenth and early nineteenth centuries and argues this era marked the beginnings of modern democracy in the Mediterranean. These essays from some of the leading scholars in the field expose readers to new research and ideas regarding the complex and variegated history of democracy. **Politics and Sentiments in Risorgimento Italy** Carlotta Sorba, 2021-05-03 This book investigates the narrative of nationhood during the Italian Risorgimento and its ability to reach a new and wider audience. In Italy, an extraordinary emotional excitement pervaded the struggle for national independence, suffusing the speeches and actions of patriots. This book shows how this ardour borrowed the tones, figures, and spectacular nature of the melodramatic imagination, feeding the theatre and literature of the time and how it could resonate with a largely uneducated audience. An important contribution to the new historiography on the Italian Risorgimento and on nineteenth-century nationalism in Europe, it offers a fresh perspective on the public sphere during the Risorgimento, focusing on the transnational links between political mobilisation and the growth of new media and burgeoning mass culture.

Victorian Political Culture Angus Hawkins, 2015 Victorian Britain is often described as an age of dawning democracy and as an exemplar of the modern Liberal state, yet a hereditary monarchy, a hereditary House of Lords, and an established Anglican Church survived as influential aspects of national public life, with traditional elites assuming redefined roles. After 1832, constitutional notions of mixed government gradually gave way to the orthodoxy of parliamentary government, shaping the function and nature of political parties in Westminster and the constituencies, as well as the relations between them. Following the 1867-8 Reform Acts, national political parties began to replace the premises of parliamentary government. The subsequent emergence of a mass male electorate in the 1880s and 1890s prompted politicians to adopt new language and methods by which to appeal to voters, while enduring public values associated with morality, community, and evocations of the past continued to shape Britain's distinctive political culture. This gave a particularly conservative trajectory to the nation's entry into the twentieth century. This study of British political culture from the late eighteenth to the early twentieth century examines the public values that informed perceptions of the constitution, electoral activity, party partisanship, and political organization. Its exploration of Victorian views of status, power, and authority, as revealed in political language, speeches, and writing, as well as theology, literature, and science, shows how the development of moral communities rooted in readings of the past enabled politicians to manage far-reaching change. This presents a new, overarching perspective on the constitutional and political transformations of the Victorian age. **Unframing and Reframing Mediterranean Spaces and Identities**, 2023-10-30 Reconsidering the Mediterranean, appreciating and demarginalizing the peoples and cultures of this vast region while considering the affinities and differences, is a valuable part of the process of unframing and reframing the concept of the Mediterranean. The authors of this volume follow Franco Cassano's refusal of a sort of portmanteau reality of cohabitation.

of cultures introducing instead un alternativa mediterranea a world of multiple cultures that entails an ongoing learning and experiencing The volume s contributors use an interdisciplinary approach that mirrors the hybridity of the area and of the discipline that is much more introspective and humanistic more contemporary and inclusive

A Companion to Italian Constitutional History (1804-1938), 2023-06-12 This is the first account in English of the making of Italian nationhood from the perspective of constitutional history It is also the first to consider the role that the House of Savoy played in this process Bringing together influential experts in the field the collection covers the evolution of the Italian constitution from Russian diplomacy s little known planning of the Risorgimento to the monarchy s demise after its clashes with fascism Combining systematic coverage with original research the volume includes such varied themes as the king s role in the Italian wars of independence the Italian peninsula s forgotten charters of 1848 and the story of the ephemeral building that housed the first Italian parliament Contributors are Carolina Armenteros Andrea Ungari Paolo Colombo Frans Willem Lantink Christian Satto Giulio Stolfi Valentina Villa Tommaso Zerbi and Romano Ferrari Zumbini

Margaret Thatcher and Ronald Reagan J. Cooper, 2012-10-10 A new exploration of the relationship between the Margaret Thatcher and Ronald Reagan administrations in domestic policy Using recently released documentary material and extensive research interviews James Cooper demonstrates how specific policy transfer between these political soul mates was more limited than is typically assumed

A Companion to Nineteenth-Century Europe, 1789 - 1914 Stefan Berger, 2008-04-15 This Companion provides an overview of European history during the long nineteenth century from 1789 to 1914 Consists of 32 chapters written by leading international scholars Balances coverage of political diplomatic and international history with discussion of economic social and cultural concerns Covers both Eastern and Western European states including Britain Pays considerable attention to smaller countries as well as to the great powers Compares particular phenomena and developments across Europe

European Elites and Ideas of Empire, 1917-1957 Dina Gusejnova, 2016-06-16 Explores European civilisation as a concept of twentieth century political practice and the project of a transnational network of European elites This title is available as Open Access

[A History of Modern Political Thought in East Central Europe](#) Balázs Trencsényi, Maciej Janowski, Monika Baár, Maria Falina, Michal Kopeček, 2016 The volume offers the first ever synthetic overview of the history of modern political thought in East Central Europe

Politics of Culture in Liberal Italy Axel Körner, 2008-08-18 With chapters on theatre and opera architecture and urban planning the medieval revival and the rediscovery of the Etruscan and Roman past The Politics of Culture in Liberal Italy analyzes Italians changing relationship to their new nation state and the monarchy the conflicts between the peninsula s ancient elites and the rising middle class and the emergence of new belief systems and of scientific responses to the experience of modernity

Transnational Patriotism in the Mediterranean, 1800-1850 Konstantina Zanou, 2018 Transnational Patriotism in the Mediterranean charts the lives of those who lived along the shores of the Adriatic during the first half of the nineteenth century when the region was

transformed from a Venetian lake into a battlefield between old and new imperial powers and where emerging nationalisms and nation states emerged
