case of Topeka which in many ways was exceptional discrimination helped to create a significant degree of self determination With relevance to American social history in general Thomas Cox s Blacks in Topeka Kansas 1865 1915 fully utilizes the methods and materials of social history including census analysis and group biography to conclusively demonstrate the significance of Topeka in the history of race relations and the growth of black political and nonpolitical institutions

ethicizing of Protestantism which is known as the social gospel Many people believe that social Christianity was accomplished at the opening of the twentieth century by a handful of clergymen but Mr Hopkins shows that it goes back to the close of the Civil War and that its prophets are legion It came into being as a result of modern industrial society and scientific thought in the half century between the Civil War and the First World War Mr Hopkins describes the movement from its beginning until the present when the social gospel has become a factor of permanent significance in the thinking of Christendom

Churches Lynne Marks, 2017-06-09 British Columbia is at the forefront of a secularizing movement in the English speaking world Nearly half its residents claim no religious affiliation and the province has the highest rate of unbelief or religious indifference in Canada Infidels and the Damn Churches explores the historical roots of this phenomenon from the 1880s to the First World War Lynne Marks reveals that class and racial tensions fuelled irreligion in a world populated by embattled ministers militant atheists turn of the century New Agers rough living miners Asian immigrants and church going settler women White working class men often arrived in the province alone and identified the church with their exploitative employers At the same time BC s anti Asian and anti Indigenous racism meant that their whiteness alone could define them as respectable without the need for church affiliation Consequently although Christianity retained major social power elsewhere many people in BC found the freedom to forgo church attendance or espouse atheist views This nuanced study of mobility gender masculinity and family in settler BC offers new insights into BC s distinctive culture and into the beginnings of what has become an increasingly dominant secular worldview across Canada **Western Women and Imperialism**

Nupur Chaudhuri, Margaret Strobel, 1992-05-22 Western Women and Imperialism provides fascinating insights into interactions and attitudes between western and non western women mainly in the 19th and early 20th centuries It is an important contribution to the field of women s studies and primarily British imperial history in that many of the essays explore problems of cross cultural interaction that have been heretofore ignored Nancy Fix Anderson A challenging anthology in which a multiplicity of authors sheds new light on the waves of missionaries memsahibs nurses and feminists Ms a long overdue engagement with colonial discourse and feminism excellent essays The Year s Work in Critical Cultural Theory **Union Made** Heath W. Carter, 2015 In Gilded Age America rampant inequality gave rise to a new form of

Christianity one that sought to ease the sufferings of the poor not simply by saving their souls but by transforming society In Union Made Heath W Carter advances a bold new interpretation of the origins of American Social Christianity While historians have often attributed the rise of the Social Gospel to middle class ministers seminary professors and social reformers this book places working people at the very center of the story The major characters blacksmiths glove makers teamsters printers and the like have been mostly forgotten but as Carter convincingly argues their collective contribution to American Social Christianity was no less significant than that of Walter Rauschenbusch or Jane Addams Leading readers into the thick of late 19th century Chicago s tumultuous history Carter shows that countless working class believers participated in the heated debates over the implications of Christianity for industrializing society often with as much fervor as they did in

other contests over wages and the length of the workday The city s trade unionists socialists and anarchists advanced theological critiques of laissez faire capitalism and protested scab ministers who cozied up to the business elite Their criticisms compounded church leaders anxieties about losing the poor such that by the turn of the century many leading Christians were arguing that the only way to salvage hopes of a Christian America was for the churches to soften their position on the labor question As denomination after denomination did just that it became apparent that the Social Gospel was indeed ascendant from below At a time when the fate of the labor movement and rising economic inequality are once more pressing social concerns Union Made opens the door for a new way forward by changing the way we think about the past
