Simmons 1823 1867 Texas Furniture, Volume One Lonn Taylor, David B. Warren, 2012-05-10 The art of furniture making flourished in Texas during the mid nineteenth century To document this rich heritage of locally made furniture Miss Ima Hogg the well known philanthropist and collector of American decorative arts enlisted Lonn Taylor and David B Warren to research early Texas Furniture and its makers They spent more than a decade working with museums and private collectors throughout the state to examine and photograph representative examples They also combed census records newspapers and archives for information about cabinetmakers These efforts resulted in the 1975 publication of Texas Furniture which quickly became the authoritative reference on this subject Now updated with an expanded Index of Texas Cabinetmakers that includes information that has come to light since the original publication and corrects errors Texas Furniture presents a catalog of more than two hundred pieces of furniture each superbly photographed and accompanied by detailed descriptions of the piece s maker date materials measurements history and owner as well as an analysis by the authors The book also includes chapters on the material culture of nineteenth century Texas and on the tools and techniques of nineteenth century Texas cabinetmakers with a special emphasis on the German immigrant cabinetmakers of the Hill Country and Central Texas The index of Texas cabinetmakers contains biographical information on approximately nine hundred men who made furniture in Texas and appendices list information on the state s largest cabinet shops taken from the United States census records

BOOK of DEW Volume One Allen P Dew, 2018 IMPORTANT Both Volume One Volume Two are required for the complete BOOK of DEW Over 42 years of research into the surname DEW and spelling variations in the United States Started in 1975 this research attempts to document the relationships among all the ancestors and descendants of the DEW surname from all parts of this country *History and Genealogy of the Family of Jacob Klepper/Clepper Family and Malcolm McAlpine Family* Lucille Clepper Mehrkam, 1986 The Washingtons. Volume 5, Part 1 Justin Glenn, 2014-09-05 This is the fifth volume of Dr Justin Glenn s comprehensive history that traces the Presidential line of the Washingtons Volume One began with the immigrant John Washington who settled in Westmoreland Co Va in 1657 married Anne Pope and became the great grandfather of President George Washington It continued the record of their descendants for a total of seven generations Volume Two highlighted notable family members in the next eight generations of John and Anne Washington s descendants including such luminaries as General George S Patton the author Shelby Foote and the actor Lee Marvin Volume Three traced the ancestry of the early Virginia members of this Presidential Branch back in time to the aristocracy and nobility of England and continental Europe Volume Four resumed the family history where Volume One ended and it contained Generation Eight of the immigrant John Washington s descendants Volume Five now presents Generation Nine including more than 10 000 descendants Future volumes will trace generations ten through fifteen making a total of over 63 000 descendants Although structured in a genealogical format for the sake of clarity this is no bare bones genealogy but a true family history with over 1 200 detailed biographical narratives These in turn strive to convey the greatness of the family

that produced not only The Father of His Country but many others great and humble who struggled to build that country
ADVANCE PRAISE I am convinced that your work will be of wide interest to historians and academics as well as members of the Washington family itself Although the surname Washington is perhaps the best known in American history and much has been written about the Washington family for well over a century it is surprising that no comprehensive family history has been published Justin M Glenn s *The Washingtons A Family History* finally fills this void for the branch to which General and President George Washington belonged identifying some 63 000 descendants This is truly a family history not a mere tabulation of names and dates providing biographical accounts of many of the descendants of John Washington who settled in Westmoreland County Virginia in 1657 Each individual section is followed by extensive listings of published and manuscript sources supporting the information presented and errors of identification in previous publications are commented upon as appropriate John Frederick Dorman editor of *The Virginia Genealogist* 1957 2006 and author of *Adventurers of Purse and Person* Decades of reviewing Civil War books have left me surprised and delighted when someone applies exhaustive diligence to a topic not readily accessible Dr Glenn surely meets that standard with the meticulous research that unveils the Washington family in gratifying detail many of them Confederates of interest and importance Robert K Krick author of *The Smoothbore Volley that Doomed the Confederacy and Stonewall Jackson at Cedar Mountain* **Stirpes** ,2002 *Just Folk* Joyce Parker Hervey,1984
