## **1870 1970 Century Of Growth In English Education:**

1870-1970: Century of Growth in English Education Harold Collett Dent, 1970      *Social Origins of Educational Systems* Margaret Scotford Archer, 2013 First published in 1979 this now classic text presents a major study of the development of educational systems focusing in detail on those of England Denmark France and Russia chosen because of their present educational differences and the historical diversity of their cultures and social structures Professor Archer goes on to provide a theoretical framework which accounts for the major characteristics of national education and the principal changes that such systems have undergone Now with a new introduction *Social Origins of Educational Systems* is vital reading for all those interested in the sociology of education Previously published reviews A large scale masterly study this book is the most important contribution to the sociology of education since the second world war as well as being a substantial contribution to the consolidation of sociology itself The Economist I cannot improve on her own statement of what she is trying to do The sociological contribution consists in providing a theoretical account of macroscopic patterns of change in terms of the structural and cultural factors which produce and sustain them Unquestionably this book is an impressive work of scholarship well planned conceptually and uniting its theoretical base with a set of four thoroughly and interestingly researched case studies of the history of the educational systems of Denmark England France and Russia British Journal of the Sociology of Education This magnificent treatise seriously explores many of the most recalcitrant questions about institutional systems Journal of Curriculum Studies A gargantuan and impressive socio historical enterprise Encounter a major achievement New Society      *1870-1970*, 1970      **The Rise of a Central Authority for English Education** A. S. Bishop, 1971-03-02 This book traces the nineteenth century formation growth and structure of the central authority for education in England The author uses a wide variety of published and unpublished material and describes the influences religious social political and economic and others that moulded the authority He considers the effect of the form of the three bodies that originally held authority for education the Education Department the Science and Art Department and the Charity commission on educational provision and progress throughout the Victorian era In particular the author considers the impact of the machinery of government on the developing educational system Dr Bishop discusses such questions as to what extent was the provision and content of institutionalized education determined by essentially administrative considerations What factors caused the fragmentation of such educational services as were then provided and was the lack of unity of supervision at the centre the product of chance or design      **English Primary Education and the Progressives, 1914-1939** R J W Selleck, 2013-10-16 Originally published 1972 This book concerns the progressive movement its prominent thinkers and its achievements at a period of vital change in English primary education The role of progressive educationists such as Lane Neill and Montessori is considered The author asserts that these pioneers gradually made themselves the intellectual orthodoxy in the years between the wars      **A Century of Education** Richard Aldrich, 2002 Eminent historian of

education Professor Richard Aldrich has assembled a team of contributors all noted experts in their respective fields to review the successes and failures of education in the last century and to look forward to the next This is a work of information interpretation and reference which demonstrates the strengths and weaknesses of education during the twentieth century and identifies educational priorities for the twenty first 1870-1970 H. C. Dent,1970 **Education and Policy in England in the Twentieth Century** Richard Aldrich,Dennis Dean,Peter Gordon,2013-05-13 In the 1990s education has become one of the major social and political questions of the day This book has been written to provide an authoritative guide to the issues which underlie the formulation of educational policy It stands both as a substantial historical study in its own right and as an essential background and introduction to the current educational debate **English Education, Social Change, and War, 1911-20** Geoffrey Sherington,1981 *Education and Labour Party Ideologies, 1900-2001 and Beyond* Denis Lawton,2005 An analysis of the relationship between labour party values and beliefs and educational ideas since 1900 1870-1970 Harold Collett Dent, *The English Higher Grade Schools* Meriel Vlaeminke,2013-09-05 The English higher grade schools formed a key part of an expanding 19th century education system but they threatened the vested interests of a powerful Establishment bent on reaffirming the status quo The author analyzes the 1902 Education Act as a retrogressive move by which much was lost **Technical Education and the State Since 1850** Penny Summerfield,Eric J. Evans,1990 Examines three broad assumptions about British technical education that it has been deficient that its inadequacy is one of the keys to Britain s relative economic decline and that its redirection is an appropriate task for the state to undertake *Education in the Post-War Years* Roy Lowe,2012-05-16 This book provides an overview of the relationship between the sweeping social changes of the post war period and education in England It outlines the major demographic cultural and socio economic developments which made new demands of the education service during the twenty years following the War and analyses the responses made by schools colleges and universities The book provides not only an informed narrative of the development of formal education but also an authoritative account of the ways in which suburbanisation and the growth of the new property owning middle class determined both the rhetoric of education and the structure of the system which emerged through the implementation of the 1944 Education Act **Education in Hong Kong, Pre-1841 to 1941** Anthony Sweeting,1990-05-01 To reflect the development and history of education in Hong Kong the author has collected a wide range of fascinating and illuminating material from different sources and wherever appropriate has included his own commentaries The book will be a valuable source of reference for educationalists and others who are interested in the development of education in Hong Kong The Teaching of English in Schools David Shayer,2013-04-15 Originally published in 1972 1900 1970 saw extensive changes in the teaching of English in schools The volume studies English instruction as it developed at junior and secondary level over this period Using textbooks method books Board and Ministry Reports and other contemporary opinion the book examines the basic questions arising from this

historical survey Whilst the main emphasis is on changes in actual classroom methods the volume also examines the wider social pressures which have modified the school system in the UK as well as English as a subject in that system *Modern England 1901-1970* Alfred Havighurst, 1976-05-13 This is a comprehensive bibliography of all printed books articles and standard texts on England Ireland Scotland the Commonwealth and the colonies up to 1970 This handbook will serve as a useful guide to scholars teachers at all levels advanced students and the general reader interested in examining the period in some depth

**The Intellectual Life of the British Working Classes** Jonathan Rose, 2008-10-01 Which books did the British working classes read and how did they read them How did they respond to canonical authors penny dreadfuls classical music school stories Shakespeare Marx Hollywood movies imperialist propaganda the Bible the BBC the Bloomsbury Group What was the quality of their classroom education How did they educate themselves What was their level of cultural literacy how much did they know about politics science history philosophy poetry and sexuality Who were the proletarian intellectuals and why did they pursue the life of the mind These intriguing questions which until recently historians considered unanswerable are addressed in this book Using innovative research techniques and a vast range of unexpected sources *The Intellectual Life of the British Working Classes* tracks the rise and decline of the British autodidact from the pre industrial era to the twentieth century It offers a new method for cultural historians an audience history that recovers the responses of readers students theatergoers filmgoers and radio listeners Jonathan Rose provides an intellectual history of people who were not expected to think for themselves told from their perspective He draws on workers memoirs oral history social surveys opinion polls school records library registers and newspapers Through its novel and challenging approach to literary history the book gains access to politics ideology popular culture and social relationships across two centuries of British working class experience

*Social Paralysis and Social Change* Neil J. Smelser, 1991-09-03 Neil Smelser's *Social Paralysis and Social Change* is one of the most comprehensive histories of mass education ever written It tells the story of how working class education in nineteenth century Britain often paralyzed by class religious and economic conflict struggled forward toward change This book is ambitious in scope It is both a detailed history of educational development and a theoretical study of social change at once a case study of Britain and a comparative study of variations within Britain Smelser simultaneously meets the scholarly standards of historians and critically addresses accepted theories of educational change progress conflict and functional theories He also sheds new light on the process of secularization the relations between industrialization and education structural differentiation and the role of the state in social change This work marks a return for the author to the same historical arena Victorian Britain that inspired his classic work *Social Change in the Industrial Revolution* thirty five years ago Smelser's research has again been exhaustive He has achieved a remarkable synthesis of the huge body of available materials both primary and secondary Smelser's latest book will be most controversial in its treatment of class as a primordial social grouping beyond its economic significance Indeed his demonstration that class ethnic and

religious groupings were decisive in determining the course of British working class education has broad ranging implications These groupings remain at the heart of educational conflict debate and change in most societies including our own and prompt us to pose again and again the chronic question who controls the educational terrain      **The Cambridge Economic History of Modern Britain** Roderick Floud,Paul Johnson,2003 Publisher Description

## Unveiling the Magic of Words: A Overview of "**1870 1970 Century Of Growth In English Education**"
