The Sarsi. ~ Paperbound, *Gifts from the Thunder Beings* Roland Bohr, 2014-05-01 Gifts from the Thunder Beings examines North American Aboriginal peoples use of Indigenous and European distance weapons in big game hunting and combat Beyond the capabilities of European weapons Aboriginal peoples ways of adapting and using this technology in combination with Indigenous weaponry contributed greatly to the impact these weapons had on Aboriginal cultures This gradual transition took place from the beginning of the fur trade in the Hudson s Bay Company trading territory to the treaty and reserve period that began in Canada in the 1870s Technological change and the effects of European contact were not uniform throughout North America as Roland Bohr illustrates by comparing the northern Great Plains and the Central Subarctic two adjacent but environmentally different regions of North America and their respective Indigenous cultures Beginning with a brief survey of the subarctic and Northern Plains environments and the most common subsistence strategies in these regions around the time of contact Bohr provides the context for a detailed examination of social spiritual and cultural aspects of bows arrows quivers and firearms His detailed analysis of the shifting usage of bows and arrows and firearms in the northern Great Plains and the Central Subarctic makes Gifts from the Thunder Beings an important addition to the canon of North American ethnology *A Concise Dictionary of Nakoda (Assiniboine)* Vincent Collette, Wilma Kennedy, 2023-02 This dictionary contains more than 6 000 Nakoda to English translations more than 3 000 English to Nakoda translations and more than 1 500 sentences that will be extremely helpful for those interested in mastering word usages and sentence patterns of the Nakoda language *Clearing the Plains* James William Daschuk, 2013 In arresting but harrowing prose James Daschuk examines the roles that Old World diseases climate and most disturbingly Canadian politics the politics of ethnocide played in the deaths and subjugation of thousands of aboriginal people in the realization of Sir John A Macdonald s National Dream It was a dream that came at great expense the present disparity in health and economic well being between First Nations and non Native populations and the lingering racism and misunderstanding that permeates the national consciousness to this day Clearing the Plains is a tour de force that dismantles and destroys the view that Canada has a special claim to humanity in its treatment of indigenous peoples Daschuk shows how infectious disease and state supported starvation combined to create a creeping relentless catastrophe that persists to the present day The prose is gripping the analysis is incisive and the narrative is so chilling that it leaves its reader stunned and disturbed For days after reading it I was unable to shake a profound sense of sorrow This is fearless evidence driven history at its finest Elizabeth A Fenn author of Pox Americana Required reading for all Canadians Candace Savage author of A

inherent in discovery as well as the mystique and romance that surround such an evocation of history **A Very Remarkable Sickness** Paul Hackett,2002-12-04 The area between the Great Lakes and Lake Winnipeg bounded on the north by the Hudson Bay lowlands is sometimes known as the Petit Nord Providing a link between the cities of eastern Canada and the western interior the Petit Nord was a critical communication and transportation hub for the North American fur trade for over 200 years Although new diseases had first arrived in the New World in the 16th century by the end of the 17th century shorter transoceanic travel time meant that a far greater number of diseases survived the journey from Europe and were still able to infect new communities These acute directly transmitted infectious diseases including smallpox influenza and measles would be responsible for a monumental loss of life and would forever transform North American Aboriginal communities Historical geographer Paul Hackett meticulously traces the diffusion of these diseases from Europe through central Canada to the West Significant trading gatherings at Sault Ste Marie the trade carried throughout the Petit Nord by Hudson Bay Company ships and the travel nexus at the Red River Settlement all provided prime breeding ground for the introduction incubation and transmission of acute disease Hackett s analysis of evidence in fur trade journals and oral history combined with his study of the diffusion behaviour and characteristics of specific diseases yields a comprehensive picture of where when and how the staggering impact of these epidemics was felt *Common and Contested Ground* Theodore Binnema,2004-01-01 In *Common and Contested Ground* Theodore Binnema provides a sweeping and innovative interpretation of the history of the northwestern plains and its peoples from prehistoric times to the Lewis and Clark Expedition The real history of the northwestern plains between a d 200 and 1806 was far more complex nuanced and paradoxical than often imagined Drawn by vast herds of buffalo and abundant resources Native peoples fur traders and settlers moved across the region establishing intricate patterns of trade diplomacy and warfare In the process the northwestern plains became a common and contested ground Drawing on a wide range of sources Binnema examines the impact of technology on the peoples of the plains beginning with the bow and arrow and continuing through the arrival of the horse European weapons Old World diseases and Euroamerican traders His focus on the environment and its effect on patterns of behaviour and settlement brings a unique perspective to the history of the region The Ojibwa of Western Canada 1780-1870 Laura Peers,2009-09-08 Among the most dynamic Aboriginal peoples in western Canada today are the Ojibwa who have played an especially vital role in the development of an Aboriginal political voice at both levels of government Yet they are relative newcomers to the region occupying the parkland and prairies only since the end of the 18th century This work traces the origins of the western Ojibwa their adaptations to the West and the ways in which they have coped with the many challenges they faced in the first century of their history in that region between 1780 and 1870 The western Ojibwa are descendants of Ojibwa who migrated from around the Great Lakes in the late 18th century This was an era of dramatic change Between 1780 and 1870 they survived waves of epidemic disease the rise and decline of the fur trade

the depletion of game the founding of non Native settlement the loss of tribal lands and the government's assertion of political control over them As a people who emerged adapted and survived in a climate of change the western Ojibwa demonstrate both the effects of historic forces that acted upon Native peoples and the spirit determination and adaptive strategies that the Native people have used to cope with those forces This study examines the emergence of the western Ojibwa within this context seeing both the cultural changes that they chose to make and the continuity within their culture as responses to historical pressures The Ojibwa of Western Canada differs from earlier works by focussing closely on the details of western Ojibwa history in the crucial century of their emergence It is based on documents to which pioneering scholars did not have access including fur traders and missionaries journals letters and reminiscences Ethnographic and archaeological data and the evidence of material culture and photographic and art images are also examined in this well researched and clearly written history
