Dixon,1906 **The Contest for Rugby Supremacy** Greg Ryan,2005 For most rugby followers the 1905 All Black tour of Britain has assumed legendary proportions By its end this unheralded team had taken the traditional rugby strongholds by storm dazzled with its athleticism and innovative style accumulated a string of huge victories claimed a moral draw with Wales and put its young colony firmly on the world map The tour created the All Blacks name and mystique and enshrined expectations of international success that show little sign of receding Its associated myths and symbols are etched in the collective consciousness of New Zealand rugby enthusiasts THE CONTEST FOR RUGBY SUPREMACY provides a new and critical perspective on the events and personalities of the 1905 tour It examines key themes in the formative years of New Zealand rugby that both shaped the success of the All Blacks and produced frequent controversy around them explores significant political and sporting debates during the course of the tour reassesses the achievements of the team within a British sporting world in which soccer was dominant and rugby union was severely weakened by the rise of rugby league in the north sets the supposed controversy of the loss to Wales in a wider context and finally considers the significant deterioration in British Australasian rugby relations in the years immediately after the tour

Tackling Rugby Myths Greg Ryan, 2005 The All Blacks failure to win the 2003 Rugby World Cup led many devotees of the New Zealand game to question old certainties and the current direction of the national game Central to these debates has been a sense that the continuity and invincibility of New Zealand rugby has been somehow eroded mirroring similar changes within society as a whole Rugby and New Zealand identity have been bundled together for over a century with both nation and game endowed with qualities of egalitarianism innovation and rural pragmatism that have been useful on the world stage The book tackles some of the myths surrounding this image of the game disentangling assumptions from historical fact and coming up with some interesting angles on rugby's past

The Making of New Zealanders Ron Palenski, 2013-10-01 The Making of New Zealanders is an account of how transplanted Britons and others turned themselves into New Zealanders a distinct group of people with their own songs and sports symbols and opinions political traditions and sense of self Looking at the arrival of steamships and the telegraph at God's Own and the kiwi rugby and votes for women Ron Palenski identifies the nineteenth century origins of the sense of New Zealandness He argues that events earlier held to be breakthroughs in the development of a national identity the federation of Australia in 1901 the Boer War of 1899-1902 the Gallipoli campaign of 1915 were in fact outward affirmations of a New Zealand identity that had already taken shape
