Foy, Thomas J.

Schlereth, 1994-08 In the pivotal decades around the turn of the century American domestic life underwent dramatic alteration From backstairs to front stairs spaces and the activities within them were radically affected by shifts in the larger social and material environments This volume while taking account of architecture and decoration moves us beyond the study of buildings to the study of behaviors particularly the behaviors of those who peopled the middle class single family detached American home between 1880 and 1930 The book's contributors study transformations in services such as home utilities of power heat light water and waste removal in servicing for example the impact of home appliances such as gas and electric ranges washing machines and refrigerators and in serving changes in domestic servants duties hours of work racial and ethnic backgrounds In blending intellectual and home history these essays both examine and exemplify the perennial American enthusiasm for as well as anxiety about the meaning of modernity **BOOK JACKET Title Summary** field provided by Blackwell North America Inc All Rights Reserved **Britain Since 1930** Stewart Ross, 2003 This series provides an insight

Barth,S. Trimbath,Glenn Yago,2006-04-11 Robert L Bartley Editor Emeritus The Wall Street Journal As this collection of essays is published markets regulators and society generally are sorting through the wreckage of the collapse in tech stocks at the turn of the millennium All the more reason for an exhaustive look at our last bubble if that is what we choose to call them We haven t had time to digest the lesson of the tech stocks and the recession that started in March 2001 After a decade though we re ready to understand the savings and loan bubble that popped in 1989 preceding the recession that started in July 1990 For more than a half century we can now see clearly enough the savings and loans were an accident waiting to happen The best insurance for financial institutions is diversification but the savings and loans were concentrated solely in residential financing What s more they were in the business of borrowing short and lending long accepting deposits that could be withdrawn quickly and making 20 year loans They were further protected by Regulation Q allowing them to pay a bit more for savings deposits than

commercial banks were allowed to In normal times they could ride the yield curve booking profits because long term interest rates are generally higher than short term ones This world was recorded in Jimmy Stewart s 1946 film It s a Wonderful Life
