Unpackaging Art of the 1980s Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious. Critics of the time feared that market hype and self promotion threatened the integrity of art. They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps. While controversies have since subsided, critics still view art of the 1980s as a stylistic battlefield. Alison Pearlman rejects this picture which is truer of the period's criticism than of its art. Pearlman reassesses the works and careers of six artists who became critics' biggest targets. In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend: Julian Schnabel and David Salle in association with Neo Expressionism; Jean Michel Basquiat and Keith Haring vis vis Graffiti Art; and Peter Halley and Jeff Koons in relation to Simulationism. Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s

Conceptualism, a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media. Through in depth discussions of works from Haring's body paintings of Grace Jones to Schnabel's movie, Basquiat, Pearlman demonstrates how these artists' interests exemplified a broader generational shift unrecognized by critics. She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style, art world structures and consumer culture converged to radically alter the course of American art. **Unpackaging Art of the 1980s** offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art.

Catherine Dossin, 2016-03-03 In *The Rise and Fall of American Art 1940s 1980s* Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period
