1982 The Supreme Court Review:

Rights, Emergencies and Judicial Review Imtiaz Omar, 2023-07-03 This book makes a significant contribution to the understanding of issues of comparative constitutionalism in emergent politics Recurrent states of emergency in Malaysia Sri Lanka and Bangladesh provide the background for a comparative examination of constitutional emergency powers individual rights and judicial review This work examines the extent to which the Court in these countries has performed its expected role identifies problems in approaches to interpretation which have been adopted and suggests alternatives to constitutional interpretation and judicial review The alternatives explored are drawn from contemporary western jurisprudence including those of Ronald Dworkin and writers of the Critical Legal Studies tradition The juxtaposition of western jurisprudential development to issues of constitutionalism in the countries under survey is a bold attempt to seek some common ground in conceptualizing rights and techniques of juristic interpretation in western and eastern legal cultures The theoretical framework of the study is well perceived the arguments convincing This carefully researched work makes a valuable and scholarly contribution to the study of comparative constitutional law and jurisprudence Novus Ordo Seclorum Forrest McDonald, 1985 A witty and energetic study of the ideas and passions of the Framers New York Times Book Review An important comprehensive statement about the most fundamental period in American history It deals authoritatively with topics no student of American can afford to ignore Harvey Mansfield author of the Spirit of Liberalism **The Comparative Turn in Canadian Political Science** Linda White, Richard Simeon, Robert Vipond, Jennifer Wallner, 2009-01-01 Over the past decade the study of Canadian politics has changed profoundly The introspective insular and largely atheoretical style that informed Canadian political science for most of the postwar period has given way to a deeper engagement with and integration into the global field of comparative politics This volume is the first sustained attempt to describe analyze and assess the comparative turn in Canadian political science Canada s engagement with comparative politics is examined with a focus on three central questions In what ways and how successfully have Canadian scholars contributed to the study of comparative politics How does study of the Canadian case advance the comparative discipline Finally can Canadian practice and policy be reproduced in other countries Intercircuit Panel of the United States Act United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Courts, 1986 *The Fourth Estate and the Constitution* Lucas A. Powe, 1992-10-02 In 1964 the Supreme Court handed down a landmark decision in *New York Times v Sullivan* guaranteeing constitutional protection for caustic criticism of public officials thus forging the modern law of freedom of the press Since then the Court has decided case after case affecting the rights and restrictions of the press yet little has been written about these developments as they pertain to the Fourth Estate Lucas Powe s essential book now fills this gap Lucas A Powe Jr a legal scholar specializing in media and the law goes back to the framing of the First Amendment and chronicles the two main traditions of interpreting freedom of the press to illuminate the issues that today ignite controversy How can a balance be

achieved among reputation uninhibited discussion and media power Under what circumstance can the government seek to protect national security by enjoining the press rather than attempting the difficult task of convincing a jury that publication was a criminal offense What rights can the press properly claim to protect confidential sources or to demand access to information otherwise barred to the public And as the media grow larger and larger can the government attempt to limit their power by limiting their size Writing for the concerned layperson and student of both journalism and jurisprudence Powe synthesizes law history and theory to explain and justify full protection of the editorial choices of the press The Fourth Estate and the Constitution not only captures the sweep of history of Supreme Court decisions on the press but also provides a timely restatement of the traditional view of freedom of the press at a time when liberty is increasingly called into question
